ODD ITEMS.

A new two-wheeled truck for moving barrels is equipped with an adjustable hook on the handle to hold them securely.

Argentina's breweries annually produce enough beer to give two and a half gallons to each resident of that country.

For emergency use a wooden automobile tire has been invented, made in sections, which are bolted to the rim of a wheel.

So steady are the winds at Curacao that three wireless telegraph stations depend upon windmills to furnish their power.

A Detroit woman is the inventor of a wire screw hook that will hold a plate above it and a cup below it at the same time.

The discovery of a considerable deposit of uranium ore in South Australia is believed to indicate a new source of radium.

American cotton mills are now using more than five million bales of cotton a year as compared with one million bales forty-five years ago.

A skillful French jeweler has made a perfect watch and set it inside a pearl but a little more than half an inch in diameter.

The seat of a new bathtub chair will remain level no matter in what position the device is attached inside or outside of a tub.

A motor driven siren has been invented for fire alarm purposes, having the advantage that it can be operated from distant points.

To enable men who smoke to observe what is going on behind them, an Englishman has patented a pipe carrying small mirrors on the bow.

To prevent the loss of a loose finger ring there has been patented a guard to be fastened inside it and engage the knuckle of a wearer.

The police of a city in Bohemia re-

quire managers of motion picture shows to exhibit pictures of persons who are wanted for various crimes.

The United States is the greatest producer of tobacco in the world, the greatest exporter, the greatest importer and the greatest consumer.

The engine of a motor driven street sprinkler in England also is used to operate one pump to fill its tank and another to help scatter the water.

Sawdust has been found to be a more effective extinguisher of fire in burning liquids than sand as it clogs off the supply of oxygen more quickly.

A museum of the horse, presenting a complete history of that animal from the earliest known period to the present, has been established in France.

That it will give more air to a user than the usual type of fan is the claim of the inventor of a saucer shaped affair that has a hole in the center.

Spain has developed only about one fifth of its coal lands, the area of which is nearly double that of France's and only one-third less than England's.

An attachment for oars has been invented that enables a man to face in the direction in which he is rowing and operate them with both his hands and feet.

KIDNEY TROUBLE AFFECTED HIS SPINE

Suffered For Forty Years Until He Used "Fruit-a-tives"

BRONTE, ONT., Oct. 31st, 1913.

"For about forty years, I was troubled with Lame Back brought on by Kidney and Bladder Trouble. I was never confined to my bed with the trouble, but it affected my spine and I had to rest for a time. I took advertised remedies which never did me any good. Then I saw 'Fruit-a-tives' advertised and decided to try them. They did me more good than any other remedy.

My son suffered from the same trouble and frequently had to leave off working, but 'Fruit-a-tives' remedied it for him. I would strongly advise anyone suffering from Kidney and Bladder Trouble to use 'Fruit-a-tives'."

H. DORLAND

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Couldn't Fease Her

"Some one played a dirty trick on Widow Jenkins."

"Zasso?"

"Yes. They turned out the lights in the church at her third wedding and then gave her the laugh when she found her way up to the pulpit in the dark."—Miegtzen Gargoyles.

Is 83 Years Old And Her Heart Does Not Bother Her.

Thanks to MILBURN'S Heart and Nerve Pills.

Mrs. J. McLaren, Commanda, Ont., writes us under date of February 9th, 1914. "Sixteen years ago I took bad with my heart and nerves, and was not able to do anything. I tried a good many doctors, but they did me no good; in fact one doctor gave me up to die. I heard about Milburn's Heart and Nerve Pills, and I thought I would give them a trial, and after using a couple of boxes I saw that I was improving. I kept on using them for quite a long time. I am eighty-three years old and my heart does not bother me at all.

"I am raising a little girl who was never very strong, and the doctor said that she had palpitation of the heart, so I started to give them to her. She is now twelve years old, and they are doing her more good than I can possibly tell you. I would advise anyone who has a weak heart to try Milburn's Heart and Nerve Pills, as they have done wonders for us."

Price, 50 cents per box, 3 boxes for \$1.25; for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Washington, June 6.—President Wilson will forward his latest note to Germany late tomorrow or Tuesday. It became known definitely today that the note has been held up to allow the president and his advisers to complete it's phraseology. It will reiterate the previous demands that Germany exercise the right of search before attacking unarmed merchant ships.

Sir Cecil Spring-Rice, the British ambassador here, has submitted a note from the British government solemnly assuring the United States that the Lusitania was unarmed. This assurance confirms with the investigation conducted by American officials before the ship was given clearance from the port of New York by Collector Dudley F. Malone.

Client—I want to sue for a divorce and an allowance of \$1,500 a year. Lawyer—What is your husband's income?

Client—It's about that. I wouldn't ask for more than the man makes. I'm not that kind.—Boston Transcript.

LADIES DRINK WHISKEY

(Continued from page two.)

in society smoked. I visited tea-rooms on the Lake Shore Drive and Sheridan Road and liquor was served in tea-cups. In the barrooms in the fashionable neighborhood liquors were sold after hours. I saw dancing between tables and downright drunkenness.

"In Hyde Park, a prohibition district. I saw drug stores selling more whiskey in a week than is drunk in our societies in a year. If people in the Lake Shore Drive district can drink, dance and make merry until five o'clock in the morning, why should not the poor people of our societies be allowed to drink beer and light wines until three o'clock in the morning?"

"I found by spending over forty evenings among our 'best' that they are as human as the rest of us, but decidedly not any better. There is nothing we can learn from them, but a great deal they could learn from our societies. Their entertainments are aimless. They are for no purpose but to have a good time. Our societies invariably give entertainments to advance worthy charitable, educational or fraternal purposes."

The United Societies has not given out the full text of the Neumann report. It is kept for defense in the prosecution of the dance halls by club women.

Society leaders denied any knowledge of "Dr. Meyer" or his investigation. They were indignant at his alleged expose and asserted that such drinking and carousing as he described was unknown in good society.

Mrs. Harry Channon of No. 1421 Astor Street said:

"While I do not believe in too much restrictions of the amusements of the poor. I cannot believe that such conditions and scenes as Mr. Neumann describes are prevalent in the respectable parts of the city. I have never seen people keep such late hours or drink so much."

Mrs. C. Morse Ely of No. 909 Lake Shore Drive, the wisest house-lord where Neumann found liquor in a tea room, said:

"I have never heard of him or such things as he tells about. It is not true of the society people I know."

Question

"Are you going to the musicals at the Robinsons' tonight?"

"I don't know are they going to have music or is Josephine going to sing?"—Louisville Courier-Journal.

WINSTON CHURCHILL SPEAKS AT DUNDEE

Dundee, Scotland, June 5.—Winston Spencer Churchill, formerly first lord of the admiralty, who is chancellor of the Duchy of Lancaster in the coalition government, arrived today at Dundee, which he represents in the house of commons. He was received enthusiastically at a meeting of his constituents. He told them he did not come to make explanations or indulge in reproaches or recriminations for the only thing he cared about was the waging of a successful war on the enemies of Great Britain.

"For four years I have borne heavy responsibility, being, according to the time-honored language of my party, responsible to the crown and parliament for all business of the admiralty," Mr. Churchill said. "When I say responsible, I was responsible in the sense that I would have to bear the blame for everything that occurred. Three years have comprised the most important period of vigilance and mobilization."

"I have done my best. The achievements at the admiralty will show the part I played in all the great transactions that have taken place. To them I look for my defense."

"I look also to the general naval situation. The terrible dangers at the beginning of the war are over. The sea has been swept clear. Everything is in perfect order. Nearly everything has been foreseen. We have taken the measure of our foe, and have only to go forward with confidence."

Declaring that if it is not possible to win the war without taking men by compulsion, he would support such a measure, Mr. Churchill said:

"I do not believe it will be found necessary, and I am sure it is not necessary now. On the contrary, the only places which will never lack soldiers are the bloody trenches in France and Flanders. No nation has ever, in any time in history, found such a spirit of sacrifice; it is widespread, almost universal, in the masses of the people."

"We are confronted with a foe who would, without the slightest scruple, exterminate every man, woman and child by any method open to him, with as little scruple as a gardener would have in smoking out a wasp's nest," said Mr. Churchill. "The whole nation must be organized and mobilized to secure a victory which will bring lasting peace."

If you are having trouble with your bladder—with incontinence or suppression of urine—burning pain—weakness or pain in the back—or Stone in the Bladder—take Gin Pills. They cure—50c.—6 for \$2.50. At dealers everywhere.

VICTORY OF STEEL CORPORATION POPULAR

New York, June 7.—Business men throughout the United States yesterday hailed the victory of the United States Steel Corporation in the government dissolution action, which was denied by the United States Court, sitting in Trenton, N.J., on Thursday.

That the denial of the petition to dissolve the corporation and that the judges had held that bigness in an industrial combination was not a violation of the Sherman law were believed to have thrown wide open the door to prosperity.

Attorney General Gregory announced on behalf of the Department of Justice in Washington last night that the government would appeal the case to the United States Supreme
