

TO THE PUBLIC

We have bought the jewelry business formerly carried on by the late F. E. Blackmer.

It is our intention to conscientiously live up to the same high ideals of honesty and fair play that characterized all his dealings.

That we may give you good goods at the closest prices we will sell for cash only and will allow no goods on approbation. Any article, however, may be exchanged and your money refunded for any goods proving unsatisfactory.

While we carry diamonds, jewelry, etc., we will specialize in Watches. Our watch repair department is second to none.

Hoping that you may favor us with a portion of your patronage, we remain

Yours faithfully,

E. R. Blackmer

Suffered Greatly With Her Heart.

Became So Weak At Times Could Hardly Walk.

Many people may be unaware of having anything wrong with their heart till some excitement, overwork, or confinement in an overheated or overcrowded room, or public building makes them feel faint and dizzy.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, you should not wait until you case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mrs. D. McGilvery, Bathurst, N.B., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I suffered greatly with my heart and became so weak at times I could hardly walk. A friend of mine advised me to try your Pills, which I did, and soon found great relief. They are the best medicine I have ever taken for heart trouble."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CHEAP TELEPHONES FOR THE FARMERS

(Moncton Transcript)

Mr. Copp's policy of aiding the establishment of a cheap rural telephone service has been made the subject of sneer and jest by some of the government papers; as if they thought he was promising the farmers something they had no right to expect.

But why should not the farmers of New Brunswick have telephones? In countries less rich in natural resources than this province the farmers have telephones. And why shouldn't our farmers enjoy some of the fruits of mechanical invention and social progress? Why should all the results of progress be concentrated in cities? Why should the farmer remain comparatively isolated when other classes live in closer touch and communication than was dreamed possible in a former age?

The farmer's separation from his neighbor and his long hours of toil make regular social intercourse difficult. So few are supplied with telephones that the lack of this convenience is accentuated. But, why shouldn't the farmer share in the fruits of progress? Every politician assures the farmers that they are the salt of the earth, the bulwark of civilization, and that the city people owe much to them. They might add that the cities so far have not paid their debts.

But the politicians in control of the local government are not anxious to help the farmers to secure a service which would enable them to participate in the life going on around them, keep in touch with market conditions, and dispose of their products to the best advantage. If the farmers asked the present government for a rural telephone service they would probably be told at the city of St. John was virtually told by Mr. Hazen, that the privileges of the telephone monopoly must be protected, and competition could not be allowed.

IMPORTANT TESTIMONY RELATING TO CANCER

New York, N. Y., June 14—A London cable says: Owing to the sensational testimony yesterday on the causes and cure of cancer in a libel suit brought by Dr. Robert Bell, an aged Mayfair physician, against Dr. E. A. Bashford, superintendent of the Imperial Cancer Research Fund physicians and the public generally are deeply interested in the case.

Dr. Bell gave up the use of the knife in cancer cases in 1894 and the present action grows out of an article he added "Cancer, credulity and quackery" written by Dr. Bashford and published in the British Medical Journal. The article contained statements which Dr. Bell contends practically accused him of being a quack, an imposter and unfit to practice. In the treatment of cancer now Dr. Bell prescribes a simple diet, his theory being that the cause of the disease may be traced to, impurity of the blood. Dr. Bashford maintains that this treatment is ineffective and that the theory is erroneous, but disclaims any prejudice against experimentation with new methods of curing the disease.

Under cross examination Dr. Bashford admitted that many eminent surgeons agreed that the blood had to be treated to cure cancer.

Dr. Bashford said that since 1860, in England and Wales, cancer deaths among males had increased from two hundred to eight hundred, among females, from five hundred to a thousand, to the million. He said there were 30,000 deaths a year now from the disease, due to the great increase in cases of cancer of the stomach, and intestines. Dr. Bashford said ataxial treatment was unusual and dangerous as according to Professor Joch it produced blindness. In reply to the question whether in the places in which the number of cancer cases had been doubled, the importation of meat had not been doubled also, Dr. Bashford replied that he believed that to be the cause.

Warlow director of the cancer research department of Middlesex testified that his department had tried the effect of thyroid extract X-rays, herbal applications, serum, and radium water, which he explained is water containing radium or containing gas given off by radium, and found none of them curative. The knife alone, as a result, had effected cures he said. He declared that cancer was not a blood disease.

Dr. Jas. Mayhew, London police surgeon, said that acting on Dr. Bell's advice he used ataxial in three cases and that each case ended in death, although the tumors vanished with marvellous rapidity.

CHINESE DISGUISED AS COLORED MEN

Kingston, Ont., June 14—The United States authorities have got on to a new wrinkle in Chinese smuggling operations. They have found that Chinese disguised as negroes, have been taken across the St. Lawrence between Brockville and Prescott. They were of course taken for working men, as they carried packs and shovels. It is thought quite a few have eluded the government officials. It is said five different syndicates are engaged in smuggling.

CAPT. LORD SCORED BY LORD MERSEY

London, June 14—The Board of Trade enquiry into the Titanic disaster, at its resumption today, was occupied with the ground to be covered in the speeches of counsel. In the course of the discussion Lord Mersey, the presiding judge, intimated his regret that the certificate of Captain Lord of the Californian, which failed to attempt to go to the rescue of the passengers of the Titanic, was beyond his reason. He said: "I do not suppose I have jurisdiction to direct that Captain Lord's certificate should be dealt with. If I take a view adverse to the conduct of the captain of the Californian all I can do is to express my opinion."

REUNION OF HARVARD CLUBS

New York, June 14—Boastful of the prowess of their college and attesting this spirit with cheers and class yells, one thousand or more graduates of Harvard, representing every section of the country, gathered in the metropolis today for the sixteenth annual meeting of the Associated Harvard Clubs. The programme covers two days and provides for business sessions at the Harvard Club and a banquet at the Hotel Astor, with President A. Lawrence Lowell as the guest of honor. At the conclusion of the reunion a majority of the delegates will go to Cambridge to attend the festivities at the Harvard commencement.

Quebec, June 13—Maj. J.D. Brouseau, P.A.M.C. has been transferred from the Quebec Citadel to Halifax. A dinner was tendered him last night at the Garrison club.

BLIND SEVEN YEARS HAS SIGHT RESTORED

Philadelphia, Pa., June 14—Blind for seven years, his case given up as hopeless by physicians and surgeons, Owen Harris, a machinist, is at the Medico-Chirurgical Hospital today with his sight restored by one of the most daring operations ever attempted, the removal of tissues from the eye of another man and grafting them on the eye of Harris. Harris lost the sight of both eyes in a "flare back" from a furnace.

A patient came to the hospital with an eye seriously injured that it had to be removed. The eye ball was stripped of the desired tissues and these were placed over the sightless orbs of Harris. He was kept in a dark room for eight days, then the bandage was removed and Harris could see a little. He is now awaiting the arrival of another patient who must lose an eye.
