TURKISH TRENCHES

(Continued from Page One.)
capture the positions which he had lost recently.

"The whole of the front from Ab-lain to Neuville and particularly the sugar refinery at Souchez, underwent a bombardment almost continually, to which our artillery replied energetically.

"Five German counter attacks were launched on the slope of Chapelle-De-Lorette. The counter attacks have been incessant in the wood to the east of the road from Aix-Noulette to Souchez.

"The German offensive was overwhelmed everywhere and we maintained all our positions, inflicting heavy losses on the enemy. Between the Aix-Noulette-Souchez road and the Ab-lain-Souchez road we took several trenches of the enemy in which we made about thirty prisoners."

CAPTURED BY FRENCH.

Paris, June 6—The following official communication was issued by the war office last night:

"In the section to the north of Arras we have realized important progress. Within Neuville we are holding at present more than half the northern section and all the eastern part, that is to say, more than two-thirds of the village.

"We have, likewise, gained 450 metres in the northern part of the Labyrinth, and made slight progress in the centre of that work, where the struggle continues.

"On the whole of the front of that section the artillery engagements, notably at Lorette, at Neuville and at Labyrinth has been one of extreme violence.

"The German gun which last evening fired on Verdun, was located this morning and came under our fire. We have been able to ascertain the effect of our fire, which damaged the concrete and blew up an ammunition depot."

ITALIANS WERE REPULSED.

Vienna, June 6—The Austrian war office tonight issued the following communication:

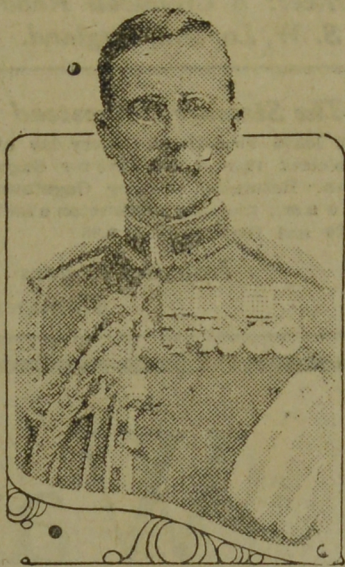

"On the Tyrolean and Carinthian frontier the enemy confines himself to a fruitless artillery fire, avoiding a closer range on our positions. In the region of Lavarone and Folgaria we have opened fire with our heavy artillery on the hostile frontier fortress.

"On the front in the coastal district the artillery duel is becoming more violent. In the fighting at Monte Nero the Italians have sustained considerable losses, on the southern slope three hundred Italian dead being found.

"The enemy's attempt to cross the Isonzo River, near Segrado, has been repulsed."

GENERAL TURNER WAS NOT CAPTURED

Ottawa, June 6—"General Turner is well and with his brigade," is the answer to the strange piece of fiction which arrived on Friday night "via Sayville" from Berlin, to the effect that the gallant commander of the Third Brigade had been captured by the Germans. The Teutonic fabrication also declared that orders were

GENERAL TURNER, V.C.

found on General Turner's person bidding Canadian officers turn the artillery upon Canadian troops which might show an inclination to surrender.

The denial of the capture of General Turner was received from Col. J. J. Carrick, M.P., by the minister of militia at Poughkeepsie (N.Y.) at 8.45 on Saturday night.

TO PURCHASE PARK

A movement is on foot to purchase the Trotting Park property or to obtain a long term lease, from the Odell Estate. The Fredericton Park Association is moving in this matter having appointed the following committee to act—W. E. Farrell, treasurer; R. W. McLellan, solicitor; W. B. Lint, chairman of track committee. The idea is, in the event of purchase or long term lease becoming a fact, is to make a recreation park with baseball diamond and stands at the southern end of the oval.

FOR NON-SUPPORT

A former resident of Fredericton who has been living in Boston for some time was arrested here this morning on charge of non-support of his wife and three children now living here. The man returned to Fredericton recently.

PAPERS SERVED.

Papers were served today on a local hotel proprietor in connection with Canada Temperance Act violation. The case is the result of a search of the hotel premises which recently was made.

GREATER PRODUCTION

The policy of greater production is being exemplified in the condition of the Officers' Square. Last year the grass was kept closely cropped, and the place had the appearance of a lawn. This year the grass is being allowed to grow and is coming along splendidly. Myriads of dandelions lend a touch of color to the landscape. It is said that the hay when gathered will be used as fodder for war horses.
