ST. JOHN DELAGATIONS BEFORE MUNICIPALITIES COM.

The matter of the form of civic government for the city of St. John which has occupied the attention of the provincial legislature was again to the fore this morning when a delegation from St. John appeared before the Municipalities Committee in support of a bill to do away with the commission form of government in St. John and substitute for it government by common council on lines similar to that which existed years ago. The bill was also presented.

Daniel Mullin, K.C., was the chief spokesman for those supporting the bill. He stated that after three years the personnel of the present commission had proven a failure and that the people of the city were determined to return to the old system. The personnel of the present commission was the same as that of former common councils as far as four were concerned. So that the argument that the commission form of government would place a superior class of men in the council was disproven. Mr. Mullin charged the present commissioners with extravagance the assessment having been increased \$66,000 per year for three years. He also charged "log-rolling" in the council and attacked the administration of the department of public safety. Other speakers who followed similar lines were Ex-Ald. J. B. Jones, Ex-Ald. J. W. Van Wart, A. A. McIntyre, J. V. Cowan, F. R. Fairweather, Wm. Finley, ex-sergeant of police, Nason Clark and Mr. Rowley.

A. H. Hanington in reply to the supporting of the bill said that the petition had never been published in St. John and had not been properly presented. Although he had had but a limited time as his disposal he had gone over the names and found that many were those of non-voters and according to the St. John City directory non-residents. The Legislature was long suffering as far as St. John was concerned. Three times in two years had a plebiscite been asked for. The police department of St. John had been criticized by those supporting this bill but the administration of that department under Ex-Ald. Van Wart who had spoken had been disgraceful. Mr. Hanington stated also that the very people who now were opposing Commissioner McLellan had voted for him against the candidacy of the party which first had brought about the commission form of government. Personally he had

LATE GEORGE K. DUNPHY

George K. Dunphy passed away Wednesday at his home, Westmorland Street, after an illness with dropsy. He is survived by his wife, three sons and three daughters. The children are William of Vancouver, George in the United States, Grover in the Canadian West, Sadie, Ellen and Mrs. Herbert Chalmers of Brookline, Mass. The service was conducted at the late residence of the deceased at seven o'clock last night by Rev. Mr. Wilson. The remains were conveyed to Douglas by C.P.R. this morning for interment in the Pickard Cemetery.

There has been marked improvement in the condition of the water-supply of the city, according to the last analysis made by Official Analyst F. H. Hagerman this week. The efficiency of filtration was 98.6. Mr. Hagerman in the remarks contained in the report says that "the results show a very satisfactory improvement over those of the last two weeks and indicate an efficiency similar to that which is usually maintained."

NO YORK STREET PLATFORM.

Mr. Gutelius has written to City Clerk McCready in regard to the request for a platform at York street for the accommodation of the passengers on the St. John & Quebec Railway, that it would be better if the matter were deferred. Such a platform without a proper station staff, says the letter, would be a "source of annoyance."
