School Children Can't Afford Handicaps

In a remarkable test, recently made under the supervision of a western Board of Health over 9000 school children were questioned as to what they ate for breakfast.

A large percentage of the breakfasts consisted of coffee, bread and butter; coffee and oatmeal or some other cereal; coffee and hotcakes; coffee and biscuits; coffee and coffee cake; or coffee alone. Probably the same conditions prevail generally.

**"IS IT ANY WONDER," SAYS THE EXAMINING
PHYSICIAN, "THAT 23 PER CENT OF THESE
CHILDREN HAVE FREQUENT HEADACHES?"**

He was thinking of the chief cause—coffee. It IS no wonder when we consider that coffee contains the powerful drug, caffeine, a nerve poison and notorious cause of headaches, heart trouble, sleeplessness, irritation and other ills! The results of tea drinking are similar to those of coffee, because they both contain the same drug.

Parents often wonder why their children are sickly, dull and backward in school, when frequently the cause lies in the homely, accepted habit of giving them a beverage containing an insidious poison.

When scientists and Boards of Health everywhere are speaking out against the dietetic dangers to which children have been so long subjected, it is high time that parents take heed and correct these conditions. No child should be permitted to use tea or coffee. It is easy to furnish them instead the pleasant, pure food-drink—

INSTANT POSTUM

Made from wheat, roasted with a bit of wholesome molasses, Postum contains the goodness of the grain and is a most delicious beverage, economical, convenient and free from drugs or any harmful substance.

Postum comes in two forms: The original Postum Cereal, which has to be boiled; Instant Postum—soluble—made in the cup with hot water instantly. They are equally delicious, and the cost per cup is about the same for both kinds.
