JUST GET RID OF DRAGS ON THE WHEEL

(St. John Telegraph.)

In recruiting yesterday was another of St. John's big days. As a result of the huge meeting in Queen's Park, twenty-eight men signed the roll of honor. The gathering was addressed by Hon. J. A. Murray, provincial minister of agriculture, and Sergeant Knight, who will from today take a rest from his exhausting work on the platform here.

In the course of his speech he made one remark that might well be uttered to a larger audience than is to be found in St. John. He said he had read the letter from Lieutenant Armand Laverne, the Nationalist, of Quebec, who declared that he was opposed to Canada's participation in the war, in which he referred to members of the cabinet holding the same views as himself.

"If there is such a man in the government of Canada or in any British colony he should be out of it. (Applause.) I don't care who he is, whose son he may be, or what blood he may belong to, now how much money he may have, nor what position he may hold, I say we in Canada are one people and we are one with British Empire in the cause of righteousness. (Loud applause.)

"The sooner we get rid of the drags upon the wheel the better it will be for this country. If there is a man who has been knocking like that it is time he was told to keep his mouth shut." (Loud applause.)

ROW AMONG MEMBERS

(Continued from page eight.)

have no particular interest in its domestic affairs, had butted in and had been able to persuade the minister of lands and mines to appoint Mr. Eates. It is said that Dr. Morehouse met the premier in the presence of Mr. Young shortly afterwards and gave vent to his feelings in some very plain language. He also had a few words to say to Mr. Young on the impropriety of meddling in matters that do not particularly concern him.

Messrs. Pinder and Morehouse are much dissatisfied over the speedy treatment they have received from the government in this and other matters and their friends say that they are going to square the account when the legislature meets.
