

GIANTS AND RED SOX PLAYING OFF TIE TODAY

Intense Interest Being Taken in Great Base Ball Contest for World's Championship--Enthusiastic Fans Kept Their Places at the Gates Throughout the Night--The Probable Batting Order for Today's Game

Boston, Mass., Oct. 10.—Following a night of rain which extended into the early morning hours, the Giants and Red Sox were prepared today to play off the second game of their series for the world's baseball championship.

Yesterday nip and tuck struggle which was ended in a tie at six to six, as darkness fell, after the champion teams of the National and American Leagues had fought back at each other gamely for eleven innings, brought the contest again to Fenway Park. The score of the series today stood Red Sox one game won, one tied, Giants, one game lost, one game tied.

Prospects for playing today's game were dubious until an hour or two after sunrise. The sun shone brightly on the drenched grounds at Fenway Park, drying up the moisture to the satisfaction of Ground Keeper Kelly, who had earlier begun an attempt to obtain the same result by artificial means. It had rained intermittently all night, at times heavy and the grounds were soggy in spots.

The rain failed to dampen the spirits of a small number of fans who sheltered by boxes, boards and newspapers kept their places at the bleacher gates, throughout much of the dripping night. Despite the occasional downpour, they clung to their posts, saying an hour before day-break, that it would surely clear up and that a game would be played. One man who saw yesterday's game, said he had been away from the grounds in thirty six hours, only long enough to get shaved. He appeared to be in fairly good circumstances, and he came from out of town.

Managers McGraw and Stahl, in company with nearly all their players were ready to greet the announcement of a postponement with satisfaction. Darkness ended yesterday's game, an exhausting struggle and one particularly hard on the pitchers. New York has two pitchers who need to rest. Tesreau who was batted out of the box in the opening game of the series in New York last Tuesday, and the one time redoubtable Mathewson, who finished yesterday's game under a severe mental and physical strain.

MATTY'S HARD DAY

"Matty" said today, "It was the

hardest game I ever went through. I certainly felt all in, when it was off." Mathewson's failure to win, this manner of phasing the result was most frequently voiced by the Boston players, was a blow to McGraw's plan. "I did expect Matty to win for us," he said, "I haven't used him for nearly a month and I was sure he could come through, but he did not lose and the moral victory belongs to us. The boys made a grand fight against a big early lead. The same spirit will yet carry them through the series of the big title."

Manager Stahl also had a problem to solve, with one game tucked safely away, won with Joe Wood pitching at New York Tuesday, Boston has to win three games to succeed to the championship. But Stahl has used up four pitchers in two days, Collins, Hall, and Bedient figuring successively in the Boston box yesterday.

Marquard was regarded as the available pitcher for New York, by same opinion regarding Buck O'Brien base-ball sharps, who were of the Red Sox twirlers. These will probably be the pitching sections for today's game. Each of these two men are primed to pitch in the third game. But it had been expected that the third game would be played in New York and it was McGraw's object to bring Marquard into the box before a home crowd. The Giants, southpaw needs sympathetic surroundings, and followers of the game thought, McGraw would still hold Marquard, for the next game in New York and send either Crandall or Wiltse to the mound. The former finished the game in good style after Tesreau had been removed and is a good hitter besides

THE BATTING ORDER

The probable batting order today was:

Boston—Hooper rf; Yerkes 2b; Speake cf; Lewis lf; Gardner 3b; Stahl lb; Wagner ss; Carrigan c; O'Brien p.

New York—Devire lf; Doyle 2b; Snodgrass cf; Murray rf; Merkle lb; Herzog 3b; Meyers c; Fletcher ss; Marquard or Crandall p.

The two world series this year have set new total records. Although the attendance at the first game in New York this year fell 3,000, short of the first game last year.

ARE CANADIANS DISLOYAL?

Our Imports From the United States Reach Astonishing Figures

In a Period of Three Years There Has Been an Increase of 100 Per Cent.

Washington, Oct. 10.—Experts from the United States to Canada, are now averaging \$1,000,000 a day. Three years ago they averaged a \$1 million dollars a day and a dozen years ago they averaged a quarter of a million dollars a day. The August statement of experts just completed by the bureau of foreign and domestic commerce shows that the value of merchandise exported to Canada from the United States during the 244 days from January 1st to August 31st, 1912, is practically \$244,000,000 or to be more exact \$243,721,771.

In the corresponding eight months of 1909 the value of merchandise exported to Canada was \$120,428,582 or an average of a half million dollars a day, the total value of exports to Canada having thus doubled in three years in question. In the corresponding period of 1900 the value of our exports to that country was \$67,500,000, or an average of a little more than a quarter of a million dollars a day, the total value of exports to Canada having thus doubled in the three years in question. In the corresponding period of 1900 the value of our exports to that country was \$67,500,000, or an average of a little more than a quarter of a million dollars a day. This large growth in the exports to Canada in recent years

an increase of practically one hundred per cent., in three years, occurs chiefly in bituminous coal, steel, automobiles, other carriages, manufactures of steel, iron, lumber, corn and manufactured cotton. Comparing the exports in the fiscal year 1912 with those of 1909, bituminous coal shows a growth of over \$10,000,000 from \$15,226,019 in 1909 to \$26,017,402 in 1912, lumber of the class designated as boards, deals, joists, etc., from \$11,736,333 and corn from \$3,432,081 to \$6,568,671. Of iron and steel manufactures as a whole the exports to Canada increased to \$31,454,764 in 1912.

Notable increases have occurred in steel rails which advanced from \$745,335 to \$3,369,894, structural iron and steel from \$1,585,137 to \$5,150,833, electrical machinery from \$590,152 to \$1,869,761 and typewriters from \$353,237 to \$244,800.

POWERS MAY YET INTER- VENE TO PREVENT WAR

Today's News From the near East is a little More Encouraging--Turkish and Bulgarian Troops are Reported to Have Exchanged Shots--Montenegro won in First Brush with the Turks Enthusiasm in Greece

Constantinople, Oct. 10.—Mirs intervention by the powers in order to prevent the outbreak of hostilities on the part of Bulgaria, Serbia and Greece and to bring about a cessation of war with Montenegro, are said to be contemplated today. Shots are reported to have been exchanged today between the Turkish and Bulgarian troops occupying advanced posts on the Turco-Bulgarian frontier at Timrush and Kilsura.

Podgoritz, Montenegro, Oct. 9.—The Montenegrin army opened the war against Turkey this morning by attacking a strong Turkish position opposite Oodoritz. Prince Peter, the youngest son of King Nicholas, fired the first shot.

This was the signal for firing all along the line and an artillery duel ensued. Within 21 minutes, five Turkish guns were silenced and the Turks retreated from their first position on Mount Planitz. By noon the Turks had evacuated the mountain.

Podgoritz is the headquarters of the Montenegrin forces and amid the enthusiastic cheers of the people, King Nicholas with Prince Mirko, his second son, and staff rode early to the mountains to survey the positions.

DANGER OF BLAZE SPREADING

Paris, Oct. 9.—The Figaro regards the visit of Sergius Sazonoff, the Russian foreign minister, to Berlin, as of vast importance, for it is directed to the allaying of any suspicions existing between Russia and Austria. The mutual confidence of these nations existed on paper says the Figaro, but this is not enough and it continues:

"A false step, a suspicion, and all Europe would be in flames."

As a result of M. Sazonoff's visit, it is believed that Russia will endeavor to bring influence to bear on Serbia not to anger Austria by the invasion of Novipazar.

The French government has learned through official advice that before the Russian and Austrian ministers made their representations to the Montenegrins at Cetinje, the Serbian and Grecian ministers had visited the foreign office there and insisted that the declaration of war should be at least adjourned, in vain, and it is generally believed in diplomatic circles that Montenegro acted at the instigation of Bulgaria.

A "HOLY UNDERTAKING"

Cetinje, Oct. 9.—King Nicholas has issued a proclamation summoning the Montenegrins to go immediately to the assistance of their brethren in

in old Serbia, where he declares women and children are being massacred.

"Montenegro had hoped to secure the liberation of the Serbs in Turkey without the shedding of blood, but peaceful endeavors proved unavailing," continues the proclamation "and no other recourse was left but to take up the sword in their behalf."

"We are assured, in this holy undertaking of the sympathy of the whole civilized world and we will have the loyal assistance of the kings of Serbia, Bulgaria and Greece and their peoples who in this affair have ranged themselves with Montenegrians like brothers."

The proclamation concludes:

"Montenegro is attacking Turkey not from motives of arrogance, but inspired by a noble resolve to prevent the final extermination of her brethren."

SERBIA SAYS THE DIE IS CAST

London, Oct. 9.—Serbia today informed the representative at Belgrade of the European powers that she will formally reply to their representations in a day or two. The Serbian government considers, however that the steps taken by the powers to intervene are too late in view of the mobilization of the Turkish forces and the fact that hostilities already are in progress between Turkey and Montenegro.

Another telegram from Belgrade states that the reply of the Serbian premier to the Austro-Russian representations was tantamount to rejection. He declared that the Montenegrin declaration of war had created a new situation which was decisive for Serbia's future action. The solidarity of the Balkan allies, would, he said, be maintained at all costs and the popular feeling in Serbia was so strong that it would not permit the government to depart from the course in which it has embarked.

There was almost a repetition of the scenes which took place on "Black Tuesday" (Oct. 1) on the bourse today under the conviction that a general war in the Balkans was inevitable. There was an all round fall of from 2 to 8 points and the slump was checked only slightly before the close.

Belgrade, Serbia, Oct. 9.—The French minister here today made representations to the Serbian government similar to those made by Russia and Austria.

Everyone in the city regards war as certain and preparations are being pushed forward rapidly.

CRANBROOK GHEERED FOR THE WRONG DUKE

MacLeod, Alta., Oct. 10.—There was an amusing incident of the Duke's visit at Cranbrooke, where the train stopped for half an hour. The school children of the town, together with a number of boy scouts and veterans, cheered with great heartiness in response to the calls of a local enthusiast, Mr. Sainsbury. After lusty cheers for the Duke and Duchess, Mr. Sainsbury called for cheers for our new royal duke, the Duke of Kent. The Duke laughingly remarked that this was news to him.

They were born to negro parents and died within a few hours of one another, aged about sixty.

BI-LINGUAL SCHOOLS

Dept. of Education Sends Circular to Ottawa School Board

One of the Trustees Expresses Himself On the Subject in Very Strong Terms

Ottawa, Ont., Oct. 10.—The Ottawa separate school board has received a circular from the Ontario Department of Education dealing with the board's opposition to the new bi-lingual regulations which defines the attitude of the minister of education in the matter.

That any school which disobeyed the regulation would cease to be a part of the provincial system and that its supporters, while they might voluntarily contribute to it, would also be classed as public school supporters and would have to contribute as such, was one of the statements of the circular. Teachers who disobeyed the regulations would have their certificates cancelled while the walking out from schools of pupils would also be construed as an infraction of the law and would destroy the standing of the institution where it occurred as a unit of the Ontario educational system.

The circular follows closely along the lines of the statements made by Sir James Whitney. Trustee Genest proposed when the circular was read at last night's meeting that the matter of the bi-lingual regulations should be left over for a special meeting. He thought it was evident from the circular received from the department that the board's purpose was misunderstood.

He disclaimed any inactivity towards the inspectors appointed.

"It is a movement not to educate the children but to Anglicize them; to crush back in their throats the tongue the Almighty has given them," he said. "I do not think the government is stronger than the Almighty and it is not beyond the Whitney government to change its manner. Are we uncivil in pressing for the right to sing the praises of Our Lord and King in our own tongue? Emphatically I say it is tyranny and injustice. We ask these people to withdraw these nefarious regulations and give us the justice to which we are rightfully entitled."
