### HOW WE SPEND OUR MONEY.

Table showing the money spent arly in the United Kingdom upon rious items of personal and domesexpenditure.

Coffee, and Cocoa VIII 20,000,000 nt paid for Farms..... nt paid for Houses.... 

From the above figures it will be st. That the money spent upon toxicating liquors is nearly twice great as the total amount paid for

2nd, That we pay mearly four nes as much for intoxicating liqrs as we pay for butter and cheese. 3rd. That we spend four and a lf times as much upon drink as we end upon milk.

4th. That we spend more than five mes as much upon drink as we do on sugar, and nearly seven times much as all our expenditure upon a, coffee, and cocoa.

5th. That we spend more upon ink than the rent roll of all the ms, and all the houses in the nited Kingdom.

6th. That we spend about twice as ach upon drink as our total expenture upon woollen, cotton and lin-

7th. Besides the enormous expenture upon drink, we have to pay or, and police rates, costs of insancrime, vagrancy, accident, disse, loss of labour, premature death, , giving at the very least another 00,000,000, and making a total s to the nation of more than £200, 0,000 yearly.

Working men! This is the way money goes! No wonder that de should be bad! If you want be prosperous, avoid drink, and un the public-house.—Alliance

### ALCOHOL AND HEALTH.

I dare say people would tike to

ow what health is, and I should exceedingly to be able to tel u, but though I have been twentye years a doctor I do not know to s day what health is, but I will try indicate it to you. I cannot dee it because it is indefinable, ealth is that state of body in which the functions of it go without noe or observation, and in which exence is felt to be a pleasure, in ich it is a kind of joy to see, to ar, to touch, to live. That is alth. Now that is a state which not be benefitted by alcohol in degree. Nay, it is a state which pine times out of ten injured by al hol. It is a state which often bears onol without sensible injury, but I eat to you, as the result of long ptinued and careful thought, it is one which can in any sense be pefitted by alcohol. It can bear it netimes without obvious injury. be benefitted by it—never. I go e of alcohol.—Dr. Black.

Enamelled Cloth makes a neat and useful covering for the wide lower shelf in the pantry where bread and cake are cut. It is useful also, and looks well on the kitchen table, and can be kept absolutely clean with little trouble.

REPAIRING RUBBERS.—Rubber, or even leather boots, may be repaired, using the following cement: Take gum shellac three parts, india subber one part, by weight. Dissolve these ingredients in separate vessels, in ether free from alcohol, apply a gentle heat. When thoroughly dissolve, mix the two solutions, and keep in a bottle tightly stopped. This glue resists the action of water, both hot and cold, and most of the acids and alkalies. Pieces of wood, leather, or other substances, joined together by it, will part at any other joint thus made. If the glue be thinned by the admixture of ether, and applied as a varnish to leather, it renders the joint of the seam watertight, and almost impossible to separate. By cementing a piece of thin leather or rubber over a crack, a neat and durable patch may be made. The soles of leather boots may be made more durable and perfectly water-proof by soaking them thoroughly before a fire with pine tar. Three or four repeated applications are necessary to saturate the leather when it completely absorbs the tar, and the soles are dry and hard as horn but quite flexible.

pork, fat beans, grease, gravies, pastries, spices, confectioneries, tea, coffee, alcoholic drinks, beer, malt liquors of all kinds. Let your food be plain, simple, wholesome—chiefly fruits and vegetables. Let your bread be of unbolted wheat meal. Take your meals regularly; if three, let your supper of very sparing. Eat slowly, lightly, masticate thoroughly. Beware of hot food and drinks. Avoid luncheons by all means. Exercise freely in the open air; never sit moping, but turn your mind entirely from your troubles. Keep regular hours, rise early and exercise gently half an hour before breakfast. Bathe frequently, keep the skin clean and the pores open. Keep your feet dry; let the soles of your shoes be thick, so that no dampness may penetrate them. Keep your sitting and sleeping rooms well ventilated) Impure air is enough to kill a well person—it kills thousands. Wear loose fitting garment, especially about the region of the lungs. Banish the pipe, quid and snuff-box as a plague, forever and forever. Of all the dyspepsia breeders and promoters, nothing exceeds the use of the "Indian weed." Keep away from the apothecary; avoid all medicines and nostrums.
