Yard of Mr. Sime, a new Steam Ferry Boat, called the "Transit." This boat has been built for the Portland and Lancaster Steam Ferry Company, and is to ply on the Ferry between Indian Town and Lovett's Point. We are informed that she is substantially built, and well adapted for the purpose.- fourier.

The U. S. Steamer Herman, Crabtree, arrived at this port on Monday morning, from New York in 7 days, bound to Southampton and Bremen. On 25th inst., lat. 40½, long 60. 48, lying to in a heavy gale from E. N. E. to E., parted Rod Iron Strap of the Larboard inhoard Lever, both side ingestions split, knocked away head rails, jib blown away from the gaskit. Gale abated at 9, a.m. on 26th, bore up for Halifax—was off the Harbour on Monday morning.

His Excellency Sir John Harvey, accompanied by Lady Harvey, the Provincial Secretary, and a number of army officers visited the above ship on Thursday last. The boom of a gun saluted his Excellency on boarding her, and the vessel in honour of the occasion was decorated with gay flags. His Excellency was most graciously received, and after examining the different departments of the steamer, partook of a Luncheon in the saloon. His Excellency on leaving was pleased to express the entire satasfaction and extreme pleasure he received from his visit to the foreign stranger .- Halifax Herald.

CASE OF ATTEMPTED POISONING .- An instance of attempted poisoning occured on Friday. From what has transpired, we learn a respectably dressed man went into Mr. Power's cellar, in the Mar-ket Square, and ordered and drank a glass of gin. He then asked the question, "What will you do with me if I die here?" or words to that effect. The matter was taken as jocular-the man being in liquor. Upon being served, how-ever, with a second glass of gin, he produced a paper packet from his person, libelled 'Poison,' the powder of which he attempted to empty into his liquor, when he was arrested. The man was taken care of by the City Authorities, and the powder placed in the hands of a surgeon, to be analysed. More of Alcohol's doings!-Nova Scotian.

FROM THE BRITISH WEST INDIES .- The schr. Globe, Captain Seeley, arrived yesterday from Demerara, brings us files of the Antigua Observer and Royal Gazattee, published at Demerara.
At Antigua, on the 17th ult., the weather was

very dry, and rain much wanted. Several estates had commenced taking off the new crop of

Dr. Bonyan, the Commissioner appointed to visit and report upon the condition of the various descriptions of imigrants, located on the several cultivated estates in Demerara, calculated that of fifteen thousand Maderian emigrants introduced into that colony at the public expense, nearly one half have been swept away by disease incidental to the climate.

We find nothing in the Demerara papers worth

copying.

FATAL ACCIDENT .- A son of Mr. Gilbert D. Howe, aged 11 years, was shot on Friday last at East Machias, by the carelessness of another boy. He survived till Sunday morning, when he expired in great agony. The gun had a flint lock, and the young man was carelessly snap ping it, because there was no priming in the pan. It was loaded with shot, and the whole charge took effect in the side, passing down into the thigh bone as he was stooping at the time.— Eastport Sentinel.

IMMIGRATION TO CANADA IN 1847 .- The Montreal Herald of the 15th ult., contains the report of the Immigrant Committee of that city for 1847, which reiterates the terrible truth, that of the 100,-000 souls who left the British Isles last year to seek a home in the Canadas, about 25,000 have already perished.

STEAMSAIP CAMBRIA, Capt. Harrison, left yesterday at a quarter past 12 o'clock, with a very large mail, and sixty-two passengers, among whom is Prince Lucien Murat, of New Jersey, who goes to France to join in the struggle in that country. She has on board £3,278 sterling for Liverpool, and \$20,000 for Halifax .- Boston paper.

SYDNEY SMITH ON WAR EXPENSES .- Not only is economy not practiced, but it is despised, and the idea of it is connected with Jacobinism, disaffection, and Joseph Hume. Every rock in the ocean where a carmorant can be perched, is occupied by our troops-has a governor, deputy governor, store-keeper, deputy store-keeper, and will soon have an archdeacon and a bishop—military colleges, with thirty-four professors educating seventeen ensigns per annum, being half an ensign for each professor, with every species of nonsence, athelic, sarterial and plumicerous migerous. A just and necessary war costs this country about £100 per minute; whipcord, £15,000; red tape, £7000; lace for drummers and fifers, £10,000, a pension to one man who has broken his head at the Pole, to another who has shattered his leg at the Equator; subsidies to Persia; secret money to Thibet; an annuity to Lady Henry Somebody, and her seven daughters, the husband being shot at some place where we never ought to have had any soldiers at all, we never ought to have had any soldiers at all, and the elder brother returning four members to Parliament—such a scene of extravagance, corruption and expense, must paralyze the industry and mar the fortunes of the most industrious spirited people that ever existed.

## SPLENDID PREMIUM PLATES

FOR THE

SUBSCRIBERS TO THE COLUMBIAN MAGAZINE. Sent by Mail to any part of the United States, PREE OF POSTAGE.

THE COLUMBIAN MAGAZINE, for 1848, edited by JOHN INMAN and ROBERT A. WEST. A repository of the choicest American Literature, entirely original, and of the most costly original Embellishmente.

THE COLUMBIAN MAGAZINE enters upon A new year with prospects increasingly bright and promising. It has attained a proud position in the public estimation. The press universally, and with a generous kindness which the Proprietor gratefully acknowledges, has borne testimony to the superiority of its literature and the profusion and elegance of its embellishments, while its immence and constantly increasing circulation shows, that the press has but uttered the general sentiment, and affords such agreeable evidence that it has met the expectation of all, that it seems to the Publisher almost unnecessary to speak of the future.

It cannot be necessary to say much of the conduct of the literary department of the Columbian. The gentlemen who have so long and satisfactority discharged that duty, continue their efficient services, and the Publisher is happy to announce that he has made arrangements with several of the most distinguished writers in this country, whose regular contributions will enrich the Magazine, while, as heretofore, the merit of an article, quite as much as the fame of its writer, will be the passport to its pages. Elevated sentiment and pure morality will distinguish all the literature of the Columbian Ma gazine.

The paper on which the Columbian will hereafter be printed, is manufactured expressly for the purpose, by one of the largest and most highly esteemed makers in the Union, and the typography will be of proportionate neatness and elegance.

The Publisher respectfully solicits from authors. artists, subscribers and agents, a continuance of the confidence hitherto so generously awarded the Magazine. As an earnest of the liberality with which he intends to conduct that department of the work, he has prepared, at a large outlay, a magnificent full length Portrait of Washington, price two dollars, in stipple and mezzotint, which will be presented, gratis, free of postage, to every yearly subscriber to the Columbian Magazine, who will send to the Publisher \$3 in advance, postage paid. It is an engraving of such superior merit, and the subject is of such profound and abiding interest, that he cannot doubt that the gift will highly gratify the receiver, and largely swell the list of his subscribers. He annexes, also, the following unusually liberal terms of publication, it being understood that the subscriptions are cash:-

For \$3, the Magazine and Engraving of Wash-

For \$5, two copies of the Magazine, and the En-

graving with each.

The great National Picture of the Declaration of Independence, just published. This picture, which was painted by Col. Trumbull for the Rotunda at Washington, and originally engraved on copper by A. B. Durand, has been re-engraved on steel, and is the result of two years' labor. It contains portraits of all the signers, and should be the Republican Emblem in the home of every American citizen. The size of the engraving is 21 by 31 inches; it is printed on the best plate paper, 28 by 38 inches. Price, \$3.

Every person who will send to the Publisher of

the Columbian \$4, post paid, shall receive a copy of this Engraving and a copy of the Magazine for one year—the Engraving free of Postage. For \$5, the Magazine, Engraving of Washington, and Declaration of Independence.
