REFUSAL OF THE ROMAN GOVERNMENT TO RELEASE DR. ACHILLI.

Monsieur de Tocqueville has redeemed his pledge concerning Dr. Achilli. Nothing can be more straightforward than his conduct.

The Inquisition replies to his remonstrances, that they have grounds against Dr. Achilli other than religious. We have been made acquainted with an extract from a despatch from Rome, detailing those grounds. We are informed that there is reason to disbelieve these accusations. But we can only say, Let them be investigated,—publicly, impartially, immediately.

These conditions France owes it to herself to enforce. An oppressed man claims the protection of a chivalrous nation. To allow a man to be detained in custody, on vague charges, in a city occupied by the French arms, would be contrary to every idea of justice. The Code Napoleon would not allow this, and the Code Napoleon is one of the conditions of the President's letter to M. Ney.

We claim from our friends a spirit of forbearance in their judgment of the French Government. They have a difficult part to play at Rome. But we are entitled to expect from the honour of France an immediate investigation.

BOARD OF HEALTH PROSECUTIONS.—Friday night's *Gazette* contains instructions from Lord Ashley and Mr. E. Chadwick, as representatives of the Board of Health, authorising Mr. Austin, the Secretary of the said Board, to prosecute the guardians of the poor of the City of London Union, the guardians of the Greenwich Union, the churchwardens of St. Margaret's, Westminster, the churchwardens of St. Saviour, Southwark, and the managers of the burial-ground of Tottenham-court Chapel, Middlesex, for wilful violation and neglect of orders issued by the Board of Health for the prevention of diseases and nuisances.

IRISH CHURCH ESTABLISHMENT.—We learn from a private source, but one which our readers, we think, may rely upon as authentic, that it is the intention of Mr. Roebuck to bring before Parliament, as early as possible next session, the question of the Irish Church Establishment, in a shape which will invite, and, we can scarcely doubt, will secure the hearty and active support of Anti-state-churchmen.—*Nonconformist*.

THE HON. AND REV. BAPTIST NOEL.—The negotiations for the occupation, by Mr. Noel, of Mr. Mortimer's Chapel, Gray's Inn Road, have been brought to an unsuccessful termination, owing to legal difficulties. It appears that the chapel is the property of Mr. Davenport, who, under a Commission of Lunacy, was declared some years ago incompetent to manage his own affairs. Now, as Mr. Davenport is an Episcopalian, the Court of Chancery will not sanction the transfer of the chapel to a Dissenter, on the ground that, if Mr. Davenport was *compos mentis*, he would probably object to such transfer, the Court being bound not to do any act of which Mr. Davenport in his right mind, might disapprove. It is now, we believe, very probable, that Mr. Noel will hereafter become the pastor of Mr. Harrington's Church, John-street, Bedford-row.—*Patriot*.

Death has been busy of late with the old pensioners at Greenwich Hospital.

A private letter from Italy states, that proceedings were about to be instituted, at Florence, against the printer who had printed an edition of the Italian Bible for Captain Pakenham.

THE VACANT BISHOPRIC.—We are informed that Dr. Hind, Dean of Carlisle, has been appointed to the vacant Bishopric of Norwich.

GOVERNORSHIP OF MALTA.—Major-General Ellis, commanding the troops in Malta, who is on leave of absence on the Continent, has received an order from the Adjutant-General of the Forces to rejoin at Malta at once, and to assume the government of that island until further orders.

It is stated that contracts have been made, within these five days, for American wheat, to be landed in London, free of all charges, at 28s. per quarter.

On Monday last about £80,000 in gold bars was deposited in the Bank of England, on account of the Russian Government.

The Canada in her passage home made 892 miles in three successive days, a greater speed, we believe, than was ever maintained for so long a period at one time by any of the line of steamers.

ORDINATION.—On Sunday last, the Right Rev. the Lord Bishop of the Diocese held an Ordination at Christ Church, Fredericton, when the following-named gentlemen were admitted to Holy Orders. Priests: The Rev. Joseph Bartholomew, Missionary at the Nerepis, and the Rev. Charles P. Bliss, A. M., Missionary at Hopewell. Deacon: Edmund Arthur Warneford a Literate person.

The Steamer Hibernia, having received repairs at New York, was to sail for Liverpool last Saturday. The injury received by her was much more serious than at first supposed. She was found to have lost fifty feet of her main keel, eight feet of stem, aprons and dead woods—the rock having penetrated the bow about ten feet. It is supposed she made fifteen tons of water per minute. Mechanics were engaged on the repairs every day and night since she entered the dock, Monday, 17th inst. until Thursday last. The expense attending these repairs, it is said, will amount to \$1,000 a day.

The annual County Fair and Cattle Show was held on Thursday last. The day was rather wet, which prevented such a turn out as might otherwise have been expected, yet, notwithstanding, we were much pleased to observe quite an improvement on the preceding Fair. The vegetables first attracted our attention on entering the grounds, and they were certainly magnificent—such turnips, carrots, and potatoes we never saw before. The grain also was very superior. The wheat and oats could not be easily surpassed. The cattle show was not so good as we could have wished, for, with the exception of the imported stock and their immediate descendants, there was nothing in the dairy line exhibited that would make farming profitable. One cow, exhibited by Mr. C. C. Stewart, nearly a thorough-bred Alderney, might figure at all the Shows on the Continent without finding many to match her. A dozen such cows in one dairy would be a sight worth seeing, and we have no doubt would be as profitable to the pocket as it would be pleasing to the eye. The native breed of the country, or rather the mongrel breed, for there is little trace of any distinct breed remaining, is now so deteriorated by starvation and careless breeding, that it will take two or three cows to yield what might be the produce of one, and the value is reduced accordingly. At the Fair which followed the Show, cows were sold freely at from £2 to £4 each, while the cost to the breeder would not be less than from £6 to £8.

His Excellency the Lieutenant Governor visited the Show, and inspected all the cattle and articles exhibited.
