

held their stations, may now be seen the second stories of elegant brick buildings, whose third ranges have been gained by an increased elevation, and well secured by metallic instead of common shingled coverings. Some of those erections, are not only in their external appearance but also in their inside finish, by far the most costly as well as commodious in the Province; and they reflect much credit not only upon the spirit and enterprise of their owners, but also upon the skill and taste of the respective mechanics under whose management they have been raised. The splendid range of stores comprising the front and lower flat of Mr. Barker's Hotel, and the adjoining stores of Messrs. Dougherty and McTavish, far exceeds, in their rich finish and dimensions, any similar establishments in the Province. It appears to us a matter of regret that any wooden buildings should in the present instance have been placed on the front street; but in due justice to the parties by whom such have been principally built, Messrs. Spahn and J. S. Coy, we must say they have erected handsome buildings, and made them as substantial as the perishable material of wood can admit of. But the front street is far from monopolizing all the improvements of 1852. The Back and Cross Streets have rapidly been covered, in many instances with elegant brick houses, and in all cases with erections far superior to those destroyed by the fire.

In the midst of all this stationary improvement it gives us great pleasure to see that nearly all the stores have been rented; and that a number of new aspirants for public favor, in almost every variety of business, are coming amongst us. Business assumes a high, and at the present time a safe character: and if not imprudently overdone, the prospect is that it will continue good for years to come. Several new stores have been opened in the present week, and we sincerely hope that not only those but also our old and long-tried friends in business, will obtain the promised reward of honourable and well-directed industry.—*Reporter.*

MECHANICS' INSTITUTE.—The Annual Meeting of the Members of this Association took place at the Hall of the Institute, on Monday evening 10th inst., Dr. Paterson, LL.D., one of the V. Presidents, in the Chair. After some preliminary matters had been disposed of, Mr. J. W. Lawrence proceeded to read an able and interesting Report from the Board of Directors, on the operations of the last year. The Institution is now, for the first time in its history, entirely free from debt; has over one hundred pounds in its Treasurer's hands; and has property belonging to it, of an estimated value of four thousand seven hundred and twenty-five pounds; and is, therefore, in an extremely prosperous and encouraging condition. The net proceeds of the Industrial Exhibition which was held last year under its auspices amounted to £95 11s. 11d. The expenses being £585 10s. 6d.; the receipts £681 2s. 5d. The total general disbursements were £1026 8s. 11d. The receipts £1153 4s. 2d. The Library now contains 1500 volumes of valuable works, and with the Reading room, Museum, and the annual Course of Lectures, offer instrumentalities of extending useful and instructive information unequalled by any similar institution in British North America. The Report was received and ordered to be printed, and, on motion of Mr. Blatch, a vote of thanks was unanimously passed to the Directors for their successful exertions in conducting the affairs of the Association. The thanks of the meeting were also ordered to be conveyed to the several gentlemen who had delivered Lectures during the past season. It was then stated by the Secretary that Mr. Ritchie, who is now absent in England, wished to retire from the office of President, when the following persons were elected Office Bearers for the ensuing year:—

James Paterson, LL.D., President; Jos. W. Lawrence and Robt. Foulis, Vice Presidents; Jas. R. Ruel, Corresponding Secretary; Wm. L. Avery, Treasurer; Wm. Hutchinson, Jr., Recording Secretary; and Robt. Shives, Geo. Fleming, Wm. J. Ritchie, John J. Munroe, Geo. H. Lawrence, Jas. G. Melick, Isaac Woodward, John Allan, John McLardy, Robt. Lormer, Wm. F. Smith, and Geo. W. Smith, Directors.—[Church Witness.]

NEW ROMAN CATHOLIC BISHOP OF NEW-BRUNSWICK.—We learn that letters were received from Halifax yesterday, which announce that the Very Rev. Dr. Connolly, Vicar General of that city, has been appointed successor to the late Dr. Dolard, as Catholic Bishop of this Province. He is expected soon to enter upon the duties of his Diocese.—*Observer.*

NEW-BRUNSWICK SHIPPING.—It gives us great satisfaction to state that several ships built at this port have recently been sold in England, at remunerative prices, and that Hacmanac Ships of New-Brunswick build are becoming in greater demand, their superiority and fitness for the India and China trade being more manifest. It is believed that the demand for our ships of Hacmanac will be greater the coming season than ever heretofore. This is good news for our ship-builders and for the Province generally.—*New-Brun.*

SMALL POX.—We regret to state that there are now twenty-four cases of small pox among the Emigrants on Partridge Island, the disease having spread among the children not vac-

inated, as might reasonably be expected. One child 18 months old died yesterday morning of confluent small pox; and there are two other children whose recovery is doubtful—the others are going on favourably. As yet no adults have taken the disease.

We again urge upon heads of families and others in charge of children, the necessity of attending to their vaccination without delay.—*15.*

WESTMORLAND ELECTION.—A telegraph despatch received at the News Room yesterday, gives the following as the result of the election which took place in Westmorland on Tuesday last:—

Smith, 599; Chapman, 499; Gilbert, 470. These returns include all the Parishes except one. Mr. Smith's majority is expected to be about 100.

Passengers per steam ship *Canada*, from Liverpool to Halifax.—Messrs. W. J. Ritchie, James Smellie, Geo. Canning DeVeber, Thomas Vaughan, Silas Vaughan, and George King, of this City.
