

duction of a Maine Liquor Law. Mr. Burleigh, a distinguished lecturer and poet, and Corresponding Secretary of the N. Y. State Temperance Society, has been lately addressing large audiences in this city.

The Grand Jury of this County, during the session of the Court last week, found a Bill of Indictment against the Mayor and ten of the Aldermen of this city, for licensing unworthy and immoral characters to retail spirituous liquors. It was clearly shewn in evidence, that almost all of the retail venders of alcoholic drinks were disreputable characters, and that the very great increase of vice and crime which has occurred in this city during the last three months, was mainly occasioned by the agency of the rum-traffic. The foreman of the Jury was the father of one of the aldermen indicted.

When I have a little leisure, I will strive to comply with your former request, and send an occasional communication for the Visiter. Remember me to Sister Bill, and to Brother Thomson, and believe me to be

REPORT OF THE BOARD.—The year has been one of singular prosperity. Considerable progress has been made in revision of the Spanish, French and English Scriptures.

Part of the Spanish has been for some time ready for stereotyping, but it has been detained for the purpose of more thorough examination by different persons. The highest testimonials to the qualifications of the revisors, have been received, a part of which is copied in the Report.

Contracts for the revision of the Gospels and Acts in French, have been consummated with distinguished scholars in France, and the work is favorably progressing.

The revisors of the English Testament, both in England and this country, are steadily prosecuting their work. A part has been so far advanced as to be printed, and a limited number of copies has been circulated among scholars for critical examination. The evidences of profound learning and research, which they exhibit, are indisputable.

AUSTRALIA.—The accounts received from Melbourne to the end of May are very favorable. From Mount Alexander, Belharat, and other diggings, the news was cheering in the extreme. Fresh discoveries are daily being made. Among the latest are diggings at the Anaki Hill, about twenty miles from Geelong. On the 24th of May, the escort from Mount Alexander brought into Melbourne no less than 31,478 oz. of gold, the result of a week's diggings. This exceeds by some 8,000 oz. any weekly quantity received yet. A railway from Mount Alexander to Melbourne was about to be constructed. Immigration proceeded at a most astonishing ratio. The total quantity of gold exported from Port Philip and Victoria up to May 22, was 32 tons 4 cwt. 2 qrs 19 lb. 8 oz.; value, at 60s. per oz., £2,223,998.

The news from Sydney of the out-turn of the mines was of the most cheerful character. Gold in abundance was being obtained from the bed of the Turon; fifty-eight ounces were taken by one gentleman in a day, and a private letter notices that two others were getting it by shovels-full. Total exported to May 13, £1,429,882.

On May 13, a successful Tasmanian obtained a nugget which weighed 3 lb. 4 oz. It was found imbedded in clay and quartz, in a gully between Forest and Fryer's Creeks. It was a rich and massive specimen, and sold for £120 1s. 8d.

Port Philip (Melbourne and Geelong) papers to the end of May, notice with elation the rapid strides the colony is making. The extensive properties of Messrs. Cullen and Edols, at Geelong, were sold by public auction, and brought remarkably high prices. In Melbourne property is valued at about fifteen per cent higher. The Legislative Council of Victoria has reiterated the desire of the colonists that convict importation shall cease. The Petition agreed to at a Monster Meeting held at Melbourne on the 2d of April, was couched in the most determined language, going so far as to declare that should the Imperial Government persist in forcing convicts on the new colony through Van Diemen's Land, it must inevitably drive them to seek refuge from such heartless tyranny and oppression in national independence.

NEW YORK, Oct. 16th.—From Havana.—Steamer Black warrior, from Mobile via Havana, reports that twenty Creoles had been arrested at Verdaltbiho, charged with conspiring against the Government; otherwise, all quiet. The Black Warrior took the Havana mails and passengers brought to New Orleans in the Crescent City. The officers of the B. W. were treated with courtesy at Havana.

Interesting from Canada.—A despatch from Quebec states that on Friday night the House passed a Resolution for an Address to impose on the produce of foreign nations, entering English ports, duties equivalent to those that such nations imposed on the produce of England and her Colonies. Also, to repeal the laws conferring on vessels advantages which Canadian vessels do not enjoy in the American waters.

Accounts from Acapulco to Sept. 23, state that an English vessel, from China, had smuggled a cargo worth \$200,000, by means of armed boats, into Mazatlan. The government were sending troops to that place from Acapulco, but it was supposed by some that they would declare for Santa Anna. The country was in an unsettled state.

PERU ON ITS OWN GUANO.—Will the Peruvians show fight in case Jonathan should proceed to occupy the Lobos Islands? Perhaps; and prove troublesome customers: as the ordinary "rooster," though elsewhere he may succumb to the game-cock, is preverably apt to display plenty of combativeness on his own domain—that mound of fertilizing substance with which guano may be considered intrinsically identical.

The Toronto *Globe* contains a long and interesting account of the Great Canadian Exhibition, which had just closed. In some departments the *Globe* says it had been exceeded on former occasions, but taken altogether it had been decidedly superior. As regards the number of visitors it was altogether unexampled in Canada. The influx of strangers was enormous. On one day 18,000 single tickets were sold at the gates, and it is supposed that 30,000 persons must have been assembled on the grounds.

John Sheafe Gaskin was, on the same day, sworn into the administration of the government of the Windward Islands.

SHIP BUILDING IN NEW YORK.—Business at the ship yards is remarkably dull, and builders talk discouragingly respecting the future. The impression is that too many vessels have been built within the last two years—more than sufficient to supply the necessities of trade,—and the business has been overdone. At the eastward, ship building has been prosecuted to a large extent.

The yards of the builders are nearly empty.—[N. Y. Jour. Com., 9th.
