M'KIM & CLEAR,

MANUFACTURERS of Monuments, Tomb Tables, Gravestones, in Italian, American Marble, and Free Stone. Chimney Pieces and Centre Tables.

Every description of ORNAMENTAL WORK executed with neatness at their Establishment, Union Street, (third house East of Mr. Peters' garden.)—Monuments, Head Stones, &c., of the best material, executed in the most improved styles and fully as cheap and durable as any which can possibly be obtained on this continent.

After a long experience in business, both in ENGLAND and SCOTLAND, M'KIM & CLEAR feel satisfied they can execute work equal in every, and superior in many respects to any thing in their line manufactured in this City; and, while they are fully prepared to allow all honest competitors a "clear stage and no favor," they feel convinced they can produce, at all times and on all occasions, workmanship in every respect superior to that of those Americans who advertise their wares at "twenty five per cent less than any shop in the City!" and who, uneducated and uneducated in their art, can only attract attention by prosecuting the rather unenviable and unprofitable business of denouncing (as keepers of "the petty shops that are springing up") those who have carefully given their undivided attention to the study of their business, and who fairly and honorably enter the arena of public competition, determined to stand or fall by the superior excellence of their workmanship as judged by a discerning public.

For sale—a large quantity of Soap-Stone, suitable for Steves.

A "Diploma" and Prize were awarded to R. A. M'KIM for Excellence in CARVING, at the last New Brunswick Provincial Exhibition. St. John, Nov. 25.

Leslie's Stove Varnish.

A Valuable discovery by which all Stoves, Pipes, Grates, Franklins, Iron Railings, and every description of Iron work, (where an intense heat is not required,) whether exposed to the weather or not, may be kept a splendid Jet Black with as beautiful a polish as a Coach Body and with one third the labour bestowed on other preparations.

This is a valuable preparation on account of its anti-corrosive properties; all Stoves and Pipes which are put away during the summer should have an application of the Stove Varnish which would effectually prevent the rusting or corroding of the Iron.

The Varnish is strongly recommended to Families and the Public in general, from three facts: First, its cheapness brings it within the reach of all; Second, from its high polish and durability, two applications during the year being at all necessary for a Franklin; and lastly, from no labour being required in its application, this last fact justly entitles it to the name of "SERVANT'S FRIEND."
