

THE DESERTED HOUSE.

For simplicity of conception and language, —in appropriateness of imagery and the solem tone it breathes, this little poem has been rarely surpassed. It is by Alfred Tennyson.

Life and thought have gone away
Side by side,
Leaving door and windows wide:
Careless tenants they!

All within is dark as night;
In the windows is no light:
And no murmurs at the door,
So frequent on its hinge before.

Close the door, the shutter close,
Or through the windows we shall see
The nakedness and vacancy
Of the dark, deserted house.

Come away; no more of mirth
Is here, or merry-making sound.
The house was builded of the earth,
And shall fall again to ground.

Come away: for life and thought
Here no longer dwell,
But in a city glorious—
A great and distant city—have bought
A mansion incorruptible.
Would they could have stayed with us!

Purity.

DAUGHTERS, BE KIND TO YOUR MOTHERS. —You all know the Divine command, "Honor thy father and thy mother." An undutiful child is an odious character, yet few young people show the respect and obedience to their parents that is becoming and dutiful. Did you ever sit and recount the days and nights of care, toil and anxiety you cost your mother? Did you ever try to measure the love that sustained your infancy and guided your youth? Did you ever think how much more you owe your mother than you will be able to repay? If so, did you ever vex or disobey her? If you did, it is a sin of no common magnitude, and a shame which should make you burn every time you think of it. It is a sin that is sure to bring its reward in this world. I never knew an undutiful daughter make a happy wife or mother. The feeling that prompts any one to be unkind to a mother, will make her who indulges in it wretched for life. If you should lose your mother, you little dream how the memory of every unkind look, or undutiful word, every neglect of her wishes, will haunt you. I could never tell how I sometimes feel in remembering instances of neglect to my mother, and yet, thanks to her care I had the name of being a good child. She told me, shortly before she died, that I never vexed her by any act of disobedience, and I would not resign the memory of her approbation for the plaudits of a world, even though I know it was her love that hid the faults, and magnified all that was good. I know how many things I might have done to add to her happiness and repay her care, that I did not do; but the grave has cut off all opportunity to rectify mistakes or atone for neglect.

THE INFIDEL'S ONLY DAUGHTER. —The pastor, Mr. F—, knew she was declining, and felt that he must call and speak with her as to her salvation. He found her supported by pillows, engaged in reading a worthless novel. He made known the object of his visit, and while conversing, her father entered, saying, "Begone, sir; I wish no priest to stand preaching over my daughter; I want her to die in peace." The pastor retired, and resorted to earnest prayer to God for her; sending her, through a friend, two or three tracts. On returning home one day, he found a messenger waiting, who said the infidel wished him to come immediately. The Spirit of God had entered before him. The daughter was inquiring for the way of life, and the father's heart melted. The cries of the family almost drowned the pastor's voice, as he lifted it up in prayer. Not many hours passed before she said she felt that her load of guilt was removed, and entreated her father and brothers to seek the same hope. She died rejoicing in Christ; and that father and his three sons were all brought into the church of Christ. I give the facts. Let the sceptic and others learn the lessons they teach.

CHILSON'S

Patent Air Warming and Ven-
tilating Furnace.

(FOUR SIZES.)

THE fame of this well known FURNACE has now
become so extended, that it would become mere su-
pererogation to enter into any elaborate detail of its con-
struction. Since the period of its first appearance, it has
attracted the attention, and gained the encomiums of many
individuals, who hold high rank in the scientific world—and
completed an entire revolution in the construction of
"HOUSE WARMERS."

The antiquated and now exploded notion, of obtaining a
sufficiency of pure warm Air from a small surface of Red
Hot Metal, in contact with which, an inadequate supply of
Cold Air disseminates into the apartments above a slug-
gish current of burnt deoxygenated Hot air, unfit for res-
piration, is rapidly being supplanted by the introduction
of our new House Warmers, which, from its peculiar con-
struction, can never become overheated, and by its exten-
sive and well proportionate surface, is capable of warming
a large volume of atmospheric air.

Another prominent peculiarity of our Furnace, is so
complete adaptation for Wood or Bituminous Coal; the
flues being so arranged that they cannot become clogged by
soot or ashes: this point has never before received the
attention of Furnace Manufacturers, and is indeed the only
article in which this description of fuel can be used to any
advantage.

And when we take into consideration the fact, that this
has become the standard on which all new Furnaces are
founded, and the only Heater on which attempts at in-
fringement are constantly being made; and add thereto,
that it has received numerous Medals and first Premiums
from various Scientific Institutions—not to make mention
of the "World's Fair," (where, in competition with ar-
ticles for similar purpose, from all parts of the world, it re-
ceived the GREAT PRIZE MEDAL.)—it must convince every
unprejudiced mind that this Furnace already hold the
highest rank for the purposes to which it is applied.

Any information respecting our Furnace, or the general
subject of "Heating and Ventilation" together with our
pamphlets containing Cut of Furnace &c., and an Appen-
dix of over 1000 References, will be promptly forwarded
to all who address the Subscribers by Post.

We are also the Agents for, and have constantly on
hand, an assortment of the Patent Mirror Marble
Chimney Pieces—a new, cheap and elegant substitute for
Marble—at prices varying from \$18 to \$150 each, a sam-
ple of which is in possession of the Editor of this paper.

Besides the above, we have always in our Warehouse
a large stock of Cooking, Office, Hall, and Parlor Stoves
Ranges, Registers, Ventilators, &c., &c., which we are
happy to present for inspection at 51 and 53 Blackstone
Street, Boston.

Compound Fluid Extract of
Sarsaparilla

A NEW and the most valuable Extract in-
troduced, which is put up in Quart Bot-
tles, is cheaper, more pleasant, and warranted
superior to any sold. It is prepared from
the best

HONDURAS SARSAPARILLA ROOT

combined with Yellow Dock and other valua-
ble productions, which from their purifying
effects on the Blood render it the best

Spring and Summer Medicine

in the World, purifying and cleansing, giving
tone and strength to the whole system.

This Extract is the result of numerous experiments, and
the Proprietors feel confident that they have arrived at that
perfection in preparing it to which no other manufacturer
has yet attained. Every person has heard of Sarsaparilla.
All have heard of its uses.—And many Physicians in this
City are conscious of the fact that our Extract is far supe-
rior to those sold under the names of Townsend's, Sands
Bristol's, Brown's, or Bull's Sarsaparilla, inasmuch as it
contains other prime remedies besides those used by the
above named parties, is stronger, contains nothing but Ve-
getable productions, and is prepared without boiling, which
causes it to attain all the volatile and active properties.

Encourage home manufacture.

We pledge our reputation on the truth of what we here
state, that we believe it better in every sense than any other
Extract of Sarsaparilla ever introduced.

Scrofulous diseases, Cutaneous Eruptions, Rheumatic
Affections, Syphilitic disorders, Liver Complaints, Dys-
pepsia, Lung and Bronchial Affections, all diseases arising
from the injudicious use of mercury, impure state of the
Blood or habit of the system, are some of the many diseases
which are cured by the use of this SARSAPARILLA.
