### **Professors for Acadia College.**

We are happy to learn that Correspondence is going on with several gentlemen in the United States, with a view to the appointment of two Professors in Acadia College, one for the Classical, and the other for the Mathematical and Philosophical department. This will furnish a staff of three Professors, and that the President, in addition to his duties as President, and Professor of Moral Science, lectures twice a week on Theological subjects, for the benefit of candidates for the ministry.

---

☞ We are sorry to have been obliged to omit our Agricultural information this week, but our Correspondents have been waiting so patiently for their letters to appear, that we could not withhold them any longer. Father Crandall's letter will be read with interest. Would to God we could see such men in the fields *at this time*. Several places around the City have for a long time been destitute of Baptist preaching—and we are now doing what we can to supply these people with the bread of life. Will our friends aid us in this good work by subscribing to the "Young Men's Baptist Home Missionary Society?"

---

☞ "A. H. M's." paper was printed before we got his letter. We struck off the one side of the paper on Wednesday.

---

☞ Will the Editors of the *New York Chronicle* please bear in mind our address? *We have received but two papers in nine weeks.*

---

The London Missionary Society's missionaries in China have just completed the translation of the Bible into the Chinese language. Referring to this fact, Dr. Medhurst says:

"We cannot help considering it a remarkable Providence that our translation Committee should have brought their labors to a close just at the time when either we may be called to "take up our carriages" and remove to a place of safety; or to enter upon the wider fields of missionary labor opening before us, far exceeding the most earnest expectations and warmest wishes of the friends of China."
