

most ineffectual.—The steamers which left England during the month of December, suffered most severely.

RAILROAD IRON.—The last advices from England quote iron-rails at £9 10s. per ton, on board, which is a large advance on previous rates. At these rates, rails will cost, laid down in this country, about \$70 per ton, being an advance of over \$30 within the past five months.—*Boston paper.*

PORT OF CALAIS.—There were 750 arrivals at the port of Calais, Me., during the year 1852, and 757 departures. 2396 tons of shipping were also built there during the same period.

Capt. Cornelius Vanderbilt, of New York, has sold out his entire right in the Pacific line of steamers. He received one million two hundred thousand dollars in cash for it.

The Presidents and Cashiers of nearly all the Banks of Illinois, have been indicted for illegal banking

THE PROVINCIAL REVENUE—PROSPEROUS CONDITION OF THE PROVINCIAL TREASURY.—We have been kindly favoured with a comparative statement of the general revenues of this Province for the years 1851 and 1852, which is as follows:

	1851.	1852.
Loan Duty,	£7,214	£7,758
Import duties,	82,284	98,584
Export duty,	17,286	18,242
Casual revenue,	3,300	5,800
Supreme Court fees,	450	871
Auction duties,	14	287
Emigrant tax,	987	533
Light House dues,	3,886	4,222
Sick and disabled Seamen's fund,	1,939	1,869
Totals	£117,363	£138,220

From this statement it will be seen that there has been an increase on every branch of the Provincial Revenue, except the Emigrant Tax, and the Sick and Disabled Seamen's Fund. The falling off on these two branches, however, is only £474; while the increase of duties on Imports is no less than £16,300. The total increase in the revenue of the year 1852, is TWENTY-ONE THOUSAND, THREE HUNDRED and THIRTY-ONE POUNDS.

We believe that the Revenues of New-Brunswick have never before reached so large a sum as £138,220; and this flourishing condition of the Provincial Treasury is highly encouraging, more especially when the Country is about to enter on the construction of railways on an extensive scale.—*New-Brun.*

IMPORTS.—The total value of every description of goods imported into this port from all countries, during the last year, amounted to £894,450 sterling—of this sum, £257,088 sterling was for Haberdashery, Silks, Cottons, Woollens, &c.; £59,405 sterling for Hardware, and £151,375 sterling, for all kinds of Bread Stuffs, including flour, meal, Wheat and other descriptions of grain; £14,272 sterling, for fresh fruit and vegetables, including Apples, Potatoes, Turnips, Carrots, Cabbages, Peaches, &c.; the value of Cordage, Rope and Canvas imported was £38,527 sterling; of Coals, £9862 sterling.—*Courier.*

The Suspension Bridge.—The inspection of this Bridge is going on this week, under the superintendance of A. L. Light, Esq. An immense weight is to be placed on the Bridge to-day, to be drawn slowly across from either side, which will fully test the strength of this noble structure.—*New Brun.*

We understand that the Suspension Bridge was proved yesterday. A weight (consisting of teams of brick, &c.), amounting to one hundred tons passed over, and it was proved to yield beneath that immense weight, only 8 1/2 inches, deflexion.—*News*

On Sunday last, the body of Mr. John Jordan, a surveyor of lumber for the Messrs. Wiggins, who had lived at Sand Point, (Carleton,) was found drowned near the Ferry landing at this side. He left home for the city on Saturday evening, to get some papers and letters, and was not heard from after. It is said the deceased was subject to fits, and it is thought that he was attacked by one of these while waiting for the Ferry Boat, and falling off the Floats was drowned. This, however, is but conjecture, and nothing positive is known of the way in which the accident occurred.—*Freeman.*

The remains of Mr. Jordan were interred on Tuesday last, numerously attended.

The commodious School House recently erected by Amos Seaman, Esq., on his estate in Manudie, at the cost of nearly a thousand dollars, was accidentally consumed last evening by fire.

It was built after the American model, ornamented with a Spire, and possessed a valuable bell, which together with an excellent Hot Air Furnace, (for the purpose of heating the building) was destroyed, although nearly two hundred persons were especially collected.

The inhabitants of the district, fully sensible of the advantage derived from the School taught therein by Mr. Wylder, an exceedingly well qualified American gentleman, employed by Mr. Seaman, met at once, and before the fire was entirely extinguished, arranged for the immediate restoration of the building.—*Correspondent of Halifax Colonist.*

Prevention of Fever and Ague.

The Oxygenated Bitters give healthy tone to the stomach and digestive system, and act as the surest preservative against Fever and Ague, as well as other infectious diseases. By using small doses of one or two teaspoonfuls every day, the system is fortified against attacks of these diseases. No prudent man, acquainted with the virtues of these Bitters, would presume to travel without them.

SELECT SCHOOL

For Young Ladies,

CONDUCTED BY MISS THOMSON, assisted by her Father, ELDER THOMSON, M. A., in the large Brick House, lately occupied by the Mayor, facing the Sea, and within three minutes walk of Queen's Square, St. John, N. B. The House is in St. James' street, and is well adapted for a School, containing some of the largest rooms in the City, and being replete with convenience of every character.

The advantages enjoyed by their Pupils are of a superior order, affording them a liberal and solid education; the strictest attention being paid to the formation of their character, and to their moral and religious training. The course of instruction pursued in this Establishment is based upon the principles of natural and careful cultivation, rather than of constrained exertion—of developing the characteristic capabilities of the children under their care, rendering their studies a pleasure rather than a task. Arrangements will be made to accommodate those Pupils who may wish to dine with the family.

References to Clergymen and Parents of great respectability, who have now Children as Boarders with Miss Thomson.

Mr. R. T. intends to devote particular attention to his daughter's Pupils; but as his time will only be required in her Class-room at certain periods, he has, by the wish of several parents, consented to form TWO CLASSES FOR YOUNG GENTLEMEN, in a separate part of the House.

Terms &c., may be known on application.
