

Poetry.

The Beauty of Life.

Life is beautiful; its duties
Cluster round each passing day,
While their sweet and solemn voices
Warn to work, to watch, to pray,
They alone such blessings forfeit,
Who through sloth their spirits cheat;
Or, in selfish stupor sitting,
See the rust their armour eat.

Life is beautiful; affections
Thrill with joy its golden string,
In its opening blossoms nestle,
Birdlike 'mid its branches sing,
Smiling rock its cradle slumbers,
Guard with pride its youthful bloom,
Fondly kiss its snow-white temples,
Dew the turf that decks its tomb.

Life is beautiful; with promise
Of a crown that cannot fade:
Life is fearful; with the threatening
Of an everlasting shade.
May no thoughtless worldling scorn it.
Wandering wide in folly's maze;
Duty, love and hope adorn it,
Let its latest breath be praise.

Youth.

Character for the Young.

Character is everything to the young, as it is the surest means to success in life. It is better than the most ample fortune; it is better than the patronage of rich and powerful friends. A young person of established character, virtuous principles, of good conduct, though he be poor, and left to his own unaided efforts, will rarely fail to make way for himself in the world. He may be assailed by misfortune; he may lose his health or fall into adverse circumstances, and so be embarrassed and oppressed in course; but as a general rule, it cannot be questioned that a fair character for intelligence, virtue and worth, is the surest pledge of success in life. For many years I have been accustomed to watch with great interest the fortunes of the young in their progress in life; and long since I have come to the settled conclusion that in so far as success is concerned, whether in the learned professions, or in the ordinary business of men, character, virtue, a well-regulated mind and heart, is of higher value than heirship to the richest estate—than all outward advantages whatever. Such an estate, such advantages, are apt to inflate with pride, to lead to imprudence, to idleness and vice; and where this is the case, it takes but a short time to squander a fortune and bar every door to respectability and happiness. But character, I repeat, never fails. It makes friends and subdues enemies, creates funds, opens the gates of opportunity, draws around its possessor patronage and support, makes him a sure and easy way to wealth, to honour and to happiness.

EDUCATION.

Tutors should treat their pupils with regard to such of their faulty habits as cannot easily be eradicated, prudent physicians do their patients in chronic cases; rather with gentle palliatives than harsh extirpatives, which, by means of the resistance given to them by the habit, may create such ferments as may utterly defeat their intention.

Neither a learned nor a fine education is of any other value than as it tends to improve the morals of men, and to make them wise and good.

A generous mind will choose to win youth to its duty by mildness and good usage, rather than by severity.

The Almighty by rewards and punishments, makes it our interest, as well as our duty, to obey Him; and can we propose ourselves, for the government of our children, a better example.

Compound Fluid Extract of
Sarsaparilla

A NEW and the most valuable Extract introduced, which is put up in Quart Bottles, is cheaper, more pleasant, and warranted superior to any sold. It is prepared from the best

HONDURAS SARSAPARILLA ROOT, combined with Yellow Dock and other valuable productions, which from their purifying effects on the Blood render it the best

Spring and Summer Medicine

in the World, purifying and cleansing, giving tone and strength to the whole system.

This Extract is the result of numerous experiments, and the Proprietors feel confident that they have arrived at that perfection in preparing it to which no other manufacturer has yet attained. Every person has heard of Sarsaparilla. All have heard of its uses.—And many Physicians in this City are conscious of the fact that our Extract is far superior to those sold under the names of Townsend's, Sands' Bristol's, Brown's, or Bull's Sarsaparilla, inasmuch as it contains other prime remedies besides those used by the above named parties, is stronger, contains nothing but Vegetable productions, and is prepared without boiling, which causes it to retain all the volatile and active properties.

Encourage home manufacture.

We pledge our reputation on the truth of what we here state, that we believe it better in every sense than any other Extract of Sarsaparilla ever introduced.

Scrofulous diseases, Cutaneous Eruptions, Rheumatic Affections, Syphilitic disorders, Liver Complaints, Dyspepsia, Lung and Bronchial Affections, all diseases arising from the injudicious use of mercury, impure state of the Blood or habit of the system, are some of the many diseases which are cured by the use of this SARSAPARILLA.

CHILSON'S

Patent Air Warming and Ventilating Furnace.

(FOUR SIZES.)

THE fame of this well known FURNACE has now become so extended, that it would become mere supererogation to enter into any elaborate detail of its construction. Since the period of its first appearance, it has attracted the attention, and gained the encomiums of many individuals, who hold high rank in the scientific world—and completed an entire revolution in the construction of "HOUSE WARMERS."

The antiquated and now exploded notion, of obtaining a sufficiency of pure warm Air from a small surface of Red Hot Metal, in contact with which, an inadequate supply of Cold Air disseminates into the apartments above a sluggish current of burnt deoxygenated Hot Air, unfit for respiration, is rapidly being supplanted by the introduction of our new House Warmers, which, from its peculiar construction, can never become overheated, and by its extensive and well proportioned surface, is capable of warming a large volume of atmospheric air.

Another prominent peculiarity of our Furnace, is so complete adaptation for Wood or Bituminous Coal; the flues being so arranged that they cannot become closed by soot or ashes: this point has never before received the attention of Furnace Manufacturers, and is indeed the only article in which this description of fuel can be used to any advantage.

And when we take into consideration the fact, that this has become the standard on which all new Furnaces are founded, and the only Heater on which attempts at improvement are constantly being made, and add thereto, that it has received numerous Medals and first Premiums from various Scientific Institutions—not to make mention of the "World's Fair," (where, in competition with articles for similar purposes, from all parts of the world, it received the GREAT PRIZE MEDAL,)—it must convince every unprejudiced mind that this Furnace already hold the highest rank for the purposes to which it is applied.

Any information respecting our Furnace, or the general subject of "Heating and Ventilation" together with our pamphlets containing Cut of Furnace &c., and an Appendix of over 1000 References, will be promptly forwarded to all who address the Subscribers by Post.

We are also the Agents for, and have constantly on hand, an assortment of the Patent Mirror Marble Chimney Pieces—a new, cheap and elegant substitute for Marble—at prices varying from \$18 to \$150 each, a sample of which is in possession of the Editor of this paper.

Besides the above, we have always in our Warehouse a large stock of Cooking, Office, Hall, and Parlor Stoves, Ranges, Registers, Ventilators, &c., &c., which we are happy to present for inspection at 51 and 53 Blackstone Street, Boston.
