The public will deeply sympathise with the surviving relatives of the lost navigators; and espe--cially with the bereaved Lady Franklin, whose sanguine faith, indomitable energy and devoted affection have for long years so heroically and hopefully struggled with fate, at the sacrifice of fortune and resources; but with firm belief in finally welcoming home in safety her beloved husband. This hope will now be cruelly, and for ever destroyed; and the whole British people will heartily sympathise and condole with the distinguished Lady, who is thus left desolute and bereaved.

NEW YORK, Oct. 25 .- The ship South Carolina which arrived this morning from Rotterdam, had 50 deaths by cholera among her passengers on the voyage.

Some startling cases of sudden deaths by cholera, superinduced by eating oysters, are transpiring in this city. Three of these cases are reported in this afternoon's papers, viz. John H. Cornell, Cashier of the Mechanics Bank: Jas Foster, Jr., agent of the Dramatic Line of Packets, and Morris M. Davidson, Counsellor at Law, all of whom died after only a few hours sickness. Rumors are current of numerous persons being sick with cholera of the Baptist Education Society, Fredericton

We are happy to inform the Christian public that we had bought, a few days before, for the accommodation of the school, a building at Longucuil, a village opposite the lower end of Montreal, but it cannot be opened before next autumn. The breaking up of our female institution is no small matter, and were we not able to open it somewhere, in the mean time, it would be a great drawback. We therefore hope that our brethren will make special efforts to enable us to go on with our Girls' School and pre pare the building at Longueuil, which is intended for this establishment.
