

A number of Stores and Dwellings were entered on Tuesday night, and property to a considerable amount stolen. From the Hon. Mr. Keith's premises in Water street, some very valuable articles were taken. We trust that by proper activity the police will succeed in arresting some of the miscreants.—Colonist.

MECHANICS' INSTITUTE.—The Lecture Season of this popular Institution will commence on Monday, the 27th inst. The Rev. Mr. Forrester, of Halifax, will deliver the opening Lecture; and will also in the course of the season, give a course of Lectures on Botany. This will afford an excellent opportunity to all, who derive pleasure from the cultivation of flowers and plants, to obtain a more intimate knowledge of the nature and qualities of those delightful natural products. The Directors of the Institute have already secured the promised aid of a goodly number of well qualified Lecturers for the coming season; and are also in treaty with others.—Obs.

CIRCUIT COURT.—On Monday, the trial of Robert Reynolds for the murder of Samuel Fanjoy, in Carleton, in May last, was commenced. On Tuesday the jury returned a verdict of *Manlaughter*.

We learn that on Wednesday there were counted in this Harbour no less than twenty-three new Ships and Barques, then fitting out generally for the British market, amounting to over twenty nine thousand tons register, the largest being 2339 tons, and the smallest 221—all of which are under the inspection of Lloyd's Surveyor at this Port. We opine that Mr. Tucker and his assistant must have their hands full in attending to all these, together with the ships that are now in course of construction.—Courier.

THE RECIPROCITY TREATY.—The following article from the National Intelligencer confirms the information given two days since on the authority of a telegraphic despatch:

We are gratified to learn that the Provinces of Canada and New Brunswick having affirmed the Reciprocity Treaty by legislative enactment, and made the necessary orders for carrying it into immediate effect, our executive has very promptly signified his willingness to admit the produce of those Provinces into the United States on the same terms as have been extended to colonial fish; thus greatly facilitating trade, and adding to the good feeling which now exists between the two countries. The colony of Prince Edward Island will no doubt be admitted into this arrangement as soon as the necessary official information is received from that quarter, its Legislature having met and passed the requisite enactment. Nova Scotia alone does not avail itself of this arrangement, its government still neglecting to take any movement respecting the Treaty.

As an evidence of praiseworthy dispatch on both sides in giving effect, as far as possible under existing circumstances, to the Treaty, we may mention that the Legislature of New Brunswick passed the necessary act last Friday evening, and, through telegraph and a rapid movement of official agents, official information of the act was received in Washington yesterday morning by the British Minister, and by three o'clock the business was arranged by our government with him.

IMPORTANT GEOLOGICAL DEMONSTRATION.—The learned geologist, Dr. Hitchcock, has published an article, in which he maintains that the history of our globe, as read by the first geologists of the age, points out times when direct creative power must have been exerted. He says the mind cannot escape this conclusion, when it contemplates steadily the state in which the globe has at some time been. No organic life could have now existed without direct creation. This exhibition of the geological facts, as giving an irresistible negative to every atheistic hypothesis, is the work of a strong mind possessing almost unequalled familiarity with the subject.—Boston Bee.

SOMETHING RARE.—There is a gentleman in this city, who still considers himself partially juvenile, having just entered upon his ninety-third year. He is rather a new comer to New Orleans, having resided here only seventy-two years. This sprightly and vigorous veteran complained a day or two ago of something strange—one of his teeth ached him. He had never lost a tooth, and had never, up to that time suffered the slightest pain in any of the thirty-two brilliant masticators which still adorn his mouth. Beat that who can!—New Orleans Bee.

NEW YORK, Nov. 9.—The steamer North Star, from Aspinwall, arrived here at half past 5 o'clock this afternoon, with the California mail to 16th October, and nearly \$1,700,000 in specie and about 500 passengers.

The steamship Yankee Blade, which left San Francisco Sept. 30, for Panama, was lost on the following day. She had on board 800 passengers and crew. She struck on a reef of rocks off Point Arguello, 15 miles above Point Conception about 15 lives, and all the specie on board, about \$150,000, was lost. The ship was a total wreck and in a day or two was broken up by the sea and was washed to pieces. A dense fog hung upon the coast, and the captain supposed the ship to be twenty miles from land when she struck. Some terrible scenes of pillage, and it is said, of murder, took place on board the vessel after she struck, and before the passengers were rescued

by the steamer Goliath, plying between San Francisco and San Diego.

The French fleet, consisting of three frigates and sloops of war, had arrived at San Francisco. They had, in conjunction with the English fleet, made an attack on the Russian town and fort of Petropavloski, in Kamtschatka, from which the allied fleet were repulsed, with a loss in killed and wounded of 209 men. The British Rear Admiral Prince, who commanded the allied fleet, was killed by a pistol shot during the engagement. It is supposed that he accidentally shot himself. Two Russian ships were captured by the allies. The British ships afterwards sailed for Vancouver Island.

HYGEANA.

Brought Home to the Door of the Million.

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma, and a host of other Lungs. We refer to Dr. Curtis' Hygeana, or Inhaled Hygeana Vapor and Cherry Syrup. With this new method Dr. C. has succeeded in curing many of the most difficult cases of which he has had many years' experience. Speaking of the treatment, a physician remarks, "It is evident that inhaled vapors must come in direct contact with the whole of the internal cavity of the lungs, and thus escape the many varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the Druggists throughout the country."

New York Dutchman, Jan. 14.

The Inhaler is worn in the most convenient manner, the heat of the body being sufficient to evaporate the fluid.

Hundreds of CASES of CURES like the following are on file. One Package of Hygeana has cured one of the ASHWA of six years standing.

Jus. F. Keeberry, P. M. of Duncannon, Pa. I am cured of the ASHWA of 10 years standing by Dr. Curtis' Hygeana.

Margaret Easton, Brooklyn N.Y.

Mrs. Paul of No. 3 Mammoth St., New York, was cured of Bronchitis by the Hygeana. My sister has been cured of a DISTRESSING COUGH of several years standing, and rendered incurable by her physicians. She was cured in one month by the Hygeana.

J. H. Gaubert, P. M. Richmond, Me.

Price three Dollars a package. Sold by CHAPIN & PERKINS & BOYD & PAUL No. 149 Chambers St. New York.

N. B.—Dr. Curtis' Hygeana is the Original and only Genuine Article, all other are base imitations or vile and injurious counterfeits. Shun them as you would Poison. Sold by FELLOWS & Co., St. John, and by all Druggists throughout the Province.

NO WONDER HE WAS THANKFUL. READ AND JUDGE FOR YOURSELF.

ROCHESTER, October 19, 1852.

GENTLEMEN—Having experienced the beneficial effects of Dr. M'Lane's celebrated Liver Pills, I take great pleasure in recommending them to the public. I feel warranted in saying, that they are a certain cure for liver complaints and all bilious diseases, no matter how difficult or long standing. I myself was afflicted with this dreadful disease for over two years, and oh how thankful I am that I heard of these Pills. I purchased one of your agents three boxes, and before I had finished the third box, was completely cured. I verily believe, but for Dr. M'Lane's Liver Pills, I should have now been in my grave, but as it is, I am now enjoying the best of health, and stand a living witness of the efficiency of Dr. M'Lane's Liver Pills. Besides recovering my health, I consider that I have saved in pocket some two or three hundred dollars physician's fees.

This testimony I give you with the greatest pleasure, and hope it may do something towards making these invaluable Pills known to all who are suffering with liver complaint.

WILLIAM HISS, Traveler in Western N. Y. P. S. The above valuable remedy, also Dr. M'Lane's Celebrated Vermifuge, can now be had at all the respectable Drug Stores in this city.

Purchasers will please be careful to ask for, and take none but Dr. M'Lane's Liver Pills. There are other Pills, purporting to be Liver Pills now before the public. 6

COUNSEL.—But few of the reading public are aware how continually an editor is called upon to advise his patrons on every subject, from politics to the breed of cattle. Through the whole range of our duties none has perplexed us more than to tell our readers what to take for a cure when they are sick. Hitherto this has been a severe trial to all our skill, but it will not be hereafter. We have been taking, and have seen the evidence from others that have taken Doctor Ayer's Cherry Pec-

toral and Cathartic Pills. They need but a slight trial to convince the most sceptical how far they are superior to the other medicines we have had in use. They have one single property of great importance to the sick and that is they cure.—Boston Herald.
