

Mechanics' Institute.

THE LECTURE SEASON of the above Institution will commence on the evening of Monday the 27th inst. at 8 o'clock, when the Rev. A. FORRESTER, A. M., President of the Halifax Mechanics' Institute, will deliver the Introductory Address.

The following Gentlemen have kindly consented to lecture during the season, viz:—

The Rev. Messrs. Ferrie, Cooney, Lightbody, and Bennett; Dr. Robinson and Dr. Sibby, of Carleton; Messrs. Barker, C. Duff, Charles A. Hartt, S. R. Thomson, H. W. Frith, Wm. P. Dole, R. Foulis, and Wm. Hill, Jr.

The Directors have also made arrangements with the Rev. Mr. Forrester for a Course of Lectures on Botany, which are to be delivered on certain successive evenings after the opening Lecture.

Besides the Gentlemen above mentioned, others are expected to lecture during the season, whose names will be published when the arrangements are completed.

The present position of the Institute offers great advantages for persons to become Members. The Library contains 3000 volumes of Literary and Scientific works, and an additional supply is daily expected.

The Reading Room is open every evening in the week (Sundays and Sunday excepted,) and has on its tables the news of the day, a variety of British, Colonial, and Foreign Newspapers, the Quarterly and Monthly periodicals published in Great Britain and the United States.

The Museum will be open at 7 o'clock on each Lecture evening during the season, for Members and their families. This collection of Curiosities and Specimens of Natural History is well worthy the inspection of visitors.

Members and others wishing to obtain Tickets, can procure them at the Library of the Institute, on the evenings of Mondays and Tuesdays, or by application to the Secretary.

The Library, on and after Monday the 27th November, will be open between the hours of 7 and 8 o'clock, on the evenings of Monday and Friday.

Season Tickets for the Course of Lectures, 15s. Ladies' and Youth's Tickets, 5s. each; single admission, 1s. 3d. WM. HUTCHINSON, Secy.

Nov. 14.—11.

CAUTION.

ALL persons are hereby notified not to trust AMOS KEITH, of Butternut Ridge, with any orders on our account, as he has very unexpectedly deserted our agency.

Those also who have given orders to the said Amos Keith, to be executed by us, must excuse our apparent neglect, as those orders have most treacherously been handed over to another concern, for whose work we are most earnestly desirous not to be held responsible.

McKIM & CLEAR,
Marble Cutters.

St. John. N. B., Nov. 3. 1854.—31.

REPLY.

To the above "Caution" given by "McKim & Clear" I regret that, out of self defence, I am compelled to reply. My reasons for leaving the above establishment are—

1st. The name the establishment bears does not warrant success to any Agent.

2d. The Subscriber could not endure to be treated that he was representing a firm that did not pass current in the world for being the most pure and unsullied.

3d. The Subscriber promised his patrons good work, but finding that the establishment which he was representing was incompetent, he thought it his duty to obtain orders for such parties as could be relied on.

4th. Immediately after his withdrawal, the Subscriber sent a note to McKim & Clear, informing them of the reasons for so doing, and at the same time intimated to them that the orders he had supplied them with, were gratis—the receipt of which note was acknowledged by Clear with cards and handbills.

5th. The Subscriber claims the right of self-government, to act for whom he pleases—for those of whom he holds the best opinions, as regards business qualifications and upright conduct. And, he begs to add in conclusion that it is nothing but maliciousness that has instigated this precious pair of worthies to advertise him for being a sort of bad fellow.

AMOS KEITH.

Butternut Ridge, Nov. 6, 1854.

HIGH SCHOOL.

THE undersigned embraces the present opportunity to tender his thanks to his friends for the confidence imposed in him, while associated in the teaching department with Mr. BILL, and to announce that he purposes to open his School on MONDAY, 31st inst., at the Room occupied last term, on Charlotte Street, St. John.

Terms from 20s. to 30s. per term of 12 weeks, according to age and progress.

No pains will be spared to render his School worthy to be ranked among the Seminaries of learning of high order, at the same time thoroughly adapted to the necessities of Agricultural Mechanical, Commercial and Professional life.

He will be prepared to take youth at any stage of progress and carry them forward to a full preparation for entering upon a Collegiate course.

The importance of teaching the child those things that man should practice, will not be lost July 1.

S. H. FOLSOM,

TEACHER.

THE CHEST.

SIR ASTLEY COOPER, BART. M.D.
THE EMINENT MEDICAL PRACTITIONER, HAS LEFT A VALUABLE LEGACY TO THE WORLD IN HIS Great Preventative of Consumption,

AND
UNFAILING CURE FOR PULMONARY DISEASES, WITHOUT THE USE OF MEDICINE.

Sir A. C. Bart. invented and advised the use of the Medicated Fur Chest Protector.

To all persons of all ages and conditions, as a certain and a safe shield against those fearful diseases, Consumption, Bronchitis, Ashma, Coughs, Colds, and other affections of the Lungs, which arise from the exposed state of the chest, according to fashion, and the continual changes of our climate.

"The Protector" is simply a chemically prepared fur, lined with silk and padded, which suspended from the neck, covers the chest, in so agreeable a manner that, once worn, it becomes a necessity and comfort.

"The Protector," although but recently introduced in America is making rapid progress through the United States, the Canadas, South America, and the West Indies. It has for a long time been a staple article in England and on the continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts enquire of an English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector, WITHOUT RECOURSE TO DOCTORS OF ANY KIND. The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co., of London, and Manchester, England, were originally entrusted with the manufacture of the Protectors, by the lamented Dr. Cooper, and continue to manufacture according to his original instructions, and therefore recommend those who would wear "The Protectors," to see to their being genuine.

REMEMBER THIS IS A STAPLE ARTICLE AND NO PATENT MEDICINE.

THE HYDROMAGEN,

OR,

WATERPROOF, ANTI-CONSUMPTIVE

CORK SOLES,

MANUFACTURED BY

HARCOURT, BRADLEY & CO.,

44 MARKET ST., MANCHESTER.

PRINCIPAL WAREHOUSE, 102 Wood Street, Cheapside, London, England. AMERICAN ESTABLISHMENTS, 38 Ann Street & 102 Nassau Street, New-York, U. S.

THE Hydromagen is a valuable discovery for protecting the feet from damp or cold, and for preventing the use of many Lung Diseases, without any doctoring whatever. The Hydromagen is in the form of a sole, and wears inside the boot or shoe. Its medicated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm and healthy, to wear in the coldest or rainiest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest of boots or shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede oiled shoes, as the latter cause the feet to perspire in a very unhealthy manner, and besides, are not dangerous to wear to pedestrians in any weather, like the rubbers. While the latter cause the feet to perspire extremely, the Hydromagen, being a mere thin slice of cork prepared by a very special process, does not increase the size of the foot, or cause the foot to appear untidy. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to cause no mind in any; besides, those who patronize them will find their yearly doctor's bills much diminished thereby.

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Amberg, Hamburg, and Berlin our sales reached 173,450 pairs of Cork Soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventive for COUGHS, COLDS, BRONCHITIS, ASTHMA, and CONSUMPTION.

MEN'S SIZE, pr. pair, 35 CENTS.

LADIES' do. do. 30 do.

BOYS' & MISSES do. 25 do.

AYER'S CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD WITH HEADACHE AND SORENESS OF THE BODY.—take the Cherry Pectoral on going to bed, and wrap up warm to sweat during the night.

FOR A COLD AND COUGH, take it morning, noon and evening, according to directions on the bottle, and the difficulty will be soon removed. None will long suffer from this trouble when they find it so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night; will find by taking the Cherry Pectoral on going to bed, they may be sure of sound unbroken sleep, and consequent refreshing rest. Great relief from suffering, and an ultimate cure, is offered to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effects in these cases, many find themselves unwilling to forgo its use when the necessity for it has ceased.

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by Cherry Pectoral. But there are some cases so obstinate as to yield entirely to no medicine. Cherry Pectoral will cure them if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

FOR CROUP—Give an emetic of antimony, to be followed by large and frequent doses of the Cherry Pectoral, until it subdues the disease. If taken in season, it will not fail to cure.

WHOOPING COUGH may be broken up and speedily cured by the use of Cherry Pectoral.

THE INFLUENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were protected from a serious consequence, while their neighbors without the Cherry Pectoral, were suffering from the disease.

Repeated instances are reported here of patients who have been cured from

LIVER COMPLAINTS by this remedy, so many that there can be no question of its healing power in these diseases. It should be perseveringly taken until the pain in the side, and other unpleasant symptoms cease.

FOR CONSUMPTION in its earliest stages, it should be taken under the advice of a good Physician if possible, and in every case with a careful regard to the printed directions on the bottle. If judiciously used, and the patient is carefully nursed meantime it will seldom fail to subdue the disease.

For settled CONSUMPTION in its worst form, the Cherry Pectoral should be given in doses adapted to what the patient requires and can bear. It is a safeguard some relief, and not unfrequently cures those who are considered past all cure. There are many thousands scattered all over the country who feel and say that they owe their lives and present health to the Cherry Pectoral.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety far exceeding the most sanguine expectations of its friends. No drug but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on them they can never forget and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure all there is abundant proof that the Cherry Pectoral does not only as a general lung, but almost invariably cures the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted from the log-cabin of the American Peasant, to the palaces of European Kings.

Prepared and sold by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.

For Sale by T. Walker & Son, Chalmers & Hunt, Fellows & Co., W. O. Smith, &c., and by all the Druggists in the Provinces.
