

**To the Electors of the City of Saint John.**

**GENTLEMEN,**—Having been Nominated by the Temperance Electors of this City, and having also been presented with a Requisition, numerous and respectfully signed by my fellow Citizens, to allow myself to be put in nomination as a Candidate at the approaching Election, I have concluded to place my services at your disposal. In deciding upon this course, I have not consulted my own interests or feelings. Duty however demands from every man some sacrifice for the Country's good. That sacrifice I am willing to make, provided a majority of the electors desire it. If chosen one of your Representatives, I shall seek to promote the social and political welfare of the inhabitants of this my native Province. The measures, in my opinion, best calculated to secure this end, I will enumerate on the day of nomination.

I have the honour to be, Gentlemen,  
Your obed't servant,  
May 30, 1854. **S. L. TILLEY.**

**To the Electors of the City of Saint John.**

**GENTLEMEN,**—ON the day of nomination I will appear at the Hustings and explain to you my views on the following important measures, which I will advocate in the event of being returned one of your City Representatives to the Legislature of this Province at the coming Election.

- 1st. EDUCATION.
  - 2nd. A PROHIBITORY LAW against the Importation, Manufacture and sale of Spirituous Liquors.
  - 3rd. A TARIFF to protect the industry of our Province against foreign labour, until our neighbours are prepared to reciprocate on fair and equitable terms.
  - 4th. THE BALLOT, with Registration.
  - 5th. AN INCREASED REPRESENTATION for the City of St. John.
- As it is impossible to enter into details in a Card, I respectfully solicit a hearing from my fellow Citizens on the day of nomination.
- Your Obedient,  
May 26. **J. W. LAWRENCE.**

**To the Freeholders of the City and County of Saint John.**

**GENTLEMEN,**—I intend to be a Candidate for your suffrages at the coming election. Eight years' experience in the Legislature, a part of which time I have been a member of the Government, has, I hope, better qualified me to understand your interests, and more effectually promote them. Although numerous and respectfully solicited in other quarters to become a Candidate, I considered it my duty, from the substantial support I received from you when appointed Surveyor General, not to withdraw from this County. I trust the confidence hitherto reposed in me has not been misplaced, and will be continued.

If I should again be honored with a majority of your votes, I will endeavour faithfully to fulfil my duty as your local representative, and in every way promote the prosperity of this flourishing Province.

I have the honor to be  
Your obed't servant,  
May 30. **R. D. WILMOT.**

**To the Independent Electors of the City and County of Saint John.**

**GENTLEMEN,**—HAVING been requested by a number of respectable Freeholders of the City and County, to offer myself as one of the Candidates for the honour of representing you in the General Assembly; under this pressing invitation, I have been induced to come forward and offer my services, and therefore now solicit your suffrages and support at the approaching Election.

May 30, 1854. **WILLIAM HAWKES.**

**TRUNKS, &c.**

**THE TRUNK FACTORY** business hitherto conducted under the name of JOHN SIME, will in future be carried on by and on account of the Subscriber, who has on hand a general assortment of

**TO TRAVELLERS.**

**THE** Subscriber having taken the commodious House, on the Salisbury Road, near Steve's Hotel, formerly occupied and now owned by Jacob C. Jones, begs to say that he has every accommodation for TRAVELLERS, and good and convenient Stabling for Horses. The Mails stop to change at his place, and he hopes the public and his friends will give his House a fair trial. It is conducted on strictly Temperance principles.

March 14. **WILLIAM GRAVES.**

**To the Freeholders of the City and County of Saint John.**

**GENTLEMEN,**—FOR the past four years during which I have had the honor of representing you in the General Assembly, I have endeavoured to make myself practically useful. It is a very simple matter to make a speech, denounce a system, or abuse some great wrong; but not so easy to devise in reality a remedy, or when devised, to reduce it to a shape which will admit of being worked out. No law can be made to please everybody, but it ought to protect the rights of all; and the difficulty of carrying out even the best of objects by legislation, can only be realized by those who have calmly sat down and tried to frame an Act which will in its general tenor accomplish the object in view, without defeating it in the details, or infringing on some other right or principle that ought to be maintained. With a conviction of the care that is requisite for such purposes, I have endeavoured to be a working member,—to apply common sense views to necessary changes and reforms, and not to refuse the improvements we can obtain, simply because we can't get all we think we ought to obtain. Legislation cannot make, but may essentially aid, a Country's progress;—and during the time I have had a seat in the House, I have done my utmost to promote the prosecution of those great Public Works which are not merely to bring the distant portions of the Province together, but to extend its commerce, open its resources, and promote in every way the comfort, convenience and prosperity of our people. I always have been and am still warmly in favor of encouraging, by every legitimate means, home industry and manufactures. The latter constitute a material element in a country's prosperity. During the last three or four years the skill and energy of our artisans have not only proved that capital judiciously expended here, is sure of a remunerative return, and that ample compensation is the certain attendant upon honest labor; but has also strikingly elevated the reputation of our Province, and its Mechanics abroad.

In matters of trade and revenue, in matters connected with the expenditure of the Public Money, in matters of Education, of Agriculture, of Law Reform, and of a general character, I have always advocated such measures as at the time I conscientiously believed best adapted to the general good. In matters of a local nature more immediately connected with the City and County of Saint John, I have endeavored to carry out the interests of those inhabitants, and to secure for them a fair proportion of the benefits which result from the appropriation of Public Funds to works of local improvement.

**GENTLEMEN,**—As not one man in ten will read a long Card, I shall reserve further remarks until the day of nomination, when I hope to have the honor of addressing you from the Hustings, in furtherance of the views I entertain with reference to matters of Public interest; and should I have the honor of obtaining a renewal of your confidence, which I now solicit, I shall endeavour to the best of my power to promote the public welfare.

**J. H. GRAY.**  
St. John, N. B., May 26, 1854.

**To the Freeholders of King's County.**

**GENTLEMEN,**—AT the request of a number of the Electors from different parts of the County, I have consented to come forward as a Candidate at the coming election for King's County.

In Politics, I believe in such a liberal line of policy as will give to all men equal rights and privileges. Salaries in proportion to the duties required to fill the office. Protection to the Farmer and Mechanic, as will give them the benefit to the Home Market without injury to the consumer. Reciprocity in trade with such nations as accede with like terms to us.

I believe in placing all Money Grants in the hands of the Executive, so long as the Executive possess the confidence of the people. I also will, if elected, give my support for the adoption of the Ballot system, with a proper registration of voters in each County.

As a Temperance man, I am for the Prohibition of the Liquor Traffic, believing that this Traffic is promotive of crime, disease, pauperism and death, and one of the chief instruments employed by the Evil One in building up and strengthening the kingdom of darkness.

On the day of nomination, I will be fully prepared to give you a more lengthy explanation of my views and principles. If you choose to elect me on the principles enunciated in this Card, my best abilities will be devoted to the general welfare of the County and Province at large, and if you think me not worthy of a majority of your votes on the principles on which I come before you, I will feel perfectly pleased to remain at home.

I am Gentlemen,  
Your obedient servant,

April 6th, 1854. **G. F. & CO.**

**To the Electors of the County of Sunbury.**

**GENTLEMEN,**—HAVING been induced by a large number of respectable and influential Friends to offer myself as a Candidate for the House of Assembly, at the coming General Election, and having consented, I feel called upon to lay before you a brief sketch of my Political views.

First, I am an advocate of civil and Religious liberty.

I am an unflinching friend of Agriculture, but will only encourage and support it before other interests in proportion to its rank and character among them.

I am neither an ultra Free Trader nor an ultra Protectionist; all articles, the production of other countries, and that cannot be produced in our own in anything like a proportion to the demand, I would admit duty free or impose only a nominal duty; articles that can be produced in anything like a proportion to the demand, I would protect so far as would be consistent with a liberal course, and would tend to create competition and draw out the abilities of our Province in their production. Upon all luxuries I would impose a heavy duty.

I will advocate Reform in the sale of Crown Lands and Timber berths, believing, as I do, that the present system is calculated to make the rich man richer and to keep the poor man poorer.

I believe that initiation of money Grants should be in the hands of the Executive so long as they possess the confidence of the people's representatives.

I will advocate a reasonable extension of the Elective Franchise, also, VOTE BY BALLOT, with a proper Registration of Voters. A liberal distribution of the Public Money, for Schools, Roads and Bridges, will receive my best support.

Upon the subject of TEMPERANCE my principles are too well known to need comment.

I am a decided unbeliever in the principle of making extensive promises and leaving them unfulfilled. Upon the day of nomination my views will be more fully explained—and in the meantime I will endeavour to see as many of you as possible that we may talk the subject over together, after which I am quite willing to be guided by your decision in the matter.

I am, Gentlemen,  
Your obedient Servant,  
May 26. **DAVID TAPLEY, Jr.**
