General Larandi is manœuvering near Balaklava with an army of 40,000 men. The allies however are well situated, and are waiting the arrival of the railway materials so as to carry on those operations, which the wretched state of the country has almost entirely stopped. The skirmishes and small sorties which have heretofore beguiled the monotony of the soige, still continue, but the issue is almost invariably in favour of the allies. The Russians actually ventured to make a small naval sortie, but they were at once repulsed, and driven back into the harbor. So much for the mere operations of

### LINE OF CIRCUMVALLATION.

The army has been employed for some days past in making a line of circumvallation. This line, and the reinforcements which are every day arriving, will allow us to brave all the rage of the Russian Generals. This line will completely surround us; we shall be, therefore, guaranteed against all the efforts of the enemy. By the 15th, at the latest, all will, I hope, be finished, and we shall then turn again against this place. This line is a frightful work, and this you will not doubt when you figure to yourself a field work with a development of twelve kilometres seven and a half miles.) There are a number of salient bastions on the curtains in order to defend the approaches, and according as the ground may require it, these curtains are sometimes broken in order to defend the bastions. At the points where these bastions and let that response come forth—not in notes and these curtains unite, in the corner most out of jarring discord, nor yet "in bondsman's of the way of the action of the enemy, these key with bated breath"-but with gathered lines have been interrupted in order to leave an outlet to our troops when necessary to fall point, let there come from every manly heart, on the columns of the assailants. On the 15th, therefore, we shall be able to place a part of our men in the defence of the work and the others in the attack of the place.

THE RUSSIAN FORCES. A letter from Warsaw, in the Augsburg Gazette, shows that the Emperor of Russia is not neglecting any means to augment his forces against the allied armies in the East: -" All the intelligence that arrives from the different parts of Poland scems to prove that as many troops as possible are being despatchserve corps of Moscow commanded by General Tcheodatieff, were marched towards the to more than 80,000 men, in spite of the arrival of the corns of Dannenberg, and taking into account the losses of the 5th.

THE SICK AND WOUNDED AT SCUTARI. One thing which impresses itself very strongvupon the mind of a visitor to the hospitals at Scutari, is the patience and the quiet manly fortitude expressed in the countenances of so many men-suffering as they are from the most dire bodily injuries. You may pass from one gallary to another between rows of poor fellows, for the most part still stretched upon shakedown mattresses; and though you see many who have undergone amoutation, still more with fractured limbs, others with their heads or faces bundaged, not a murmur or groan is heard, and the vast majority look chearful and contented. The recent mails have brought them out a welcome supply of papers, and it is not uncommon to find all the nen within ear-shot of some strong voiced convalescent who can read fluently, carnestly stening while he recites how the progress of the war is described, and what the people at home think of the deeds and devotion of the army. The general management of the hospitals is now approaching a point which, considering the exigencies of military life, leaves little ground for serious complaint.

## RUSSIAN LOSSES AT SEA.

The Russians have suffered a loss on the Sea of Azoff, corresponding in magnitude to our losses in the storm of the 14th. In an unpublished portion of Prince Menschikoff's despatch of the 24th ult., he states that, near roted by Ragian and Canrobert. This is merely a rumour how- ven guns, have been erected round the town; four citadels also have been built, which in some measure supply the place of ramparts, and will enable the troops to maintain the defence. In the immediate neighbo rhood a fort has also been crected on the hill Kosciusko, and the hill Krakus has now a wall round it. The old royal castle on the hill Wawel is being strongly fortified, and supplied with barracks and magazines.

THE NEWSPAPER CORRESPONDENTS. The special correspondents have braved the pestilence, the diseases, and the privatlons, more fatal than the sabre and the musket, which have smitten our troops, in common with all their fellow-countrymen out here, and they certainly cannot be supposed to have special interest in the success of our enemy's arms. So far as I am concerned, I never will state any fact which I think likely of £372. This was sent to England, as 'a to be of service to the Russians, seeing that this war may last some time to come in this place, but I will ever endeavour to combine that reticence with a due regard to the fulfilment of my duties as special correspondent of The Times, and I hope to prove that the obligations are not incompatible with each other. Hitherto it has been our misfortune not only to find that our anticipations of the speedy reduction of Sebastopol were unfounded, but to ascertain that our enlightened Gouernment utterly failed in conveying intelligence to the ublic of these most important Fund, and the 'Widows and Orphans Fund. and all-absorb ng operations, while the barbarous administration of the Czar, succeeded in acquainting us only too accurately with their progress and details.

### CANADA.

Canada seems to be rising universally to show a daughters love and duty to the mother country. We, loyal colonists of New Brunswick, cannot avoid feeling a thrill of pleasure as we read of the zeal and energy displayed by brethern in behalf of Old England. Among the specimens of public spirit we may mention that the Saint Andrew's Society, in Montreal, denied themselves the pleasure of their annual festival, and made a stirring appeal to the members, which met with a response in ' hard cash,' to the amount slight manifestation of regard.' If this causes our hands unvoluntarily to search our pockets, what shall we say when we hear of the offer of a Canadian, to raise a regiment of colonists for the Russian war. All these things show that the British American Colo nies still cherish that noble loyalty and warm love for Britain, which are the best bonds of unison in our empire. We will not mention the many subscriptions to the Foreign which have been made in Canada, but we only say, that the feeling illustrated by the above mentioned examples, seems universal

MRS. WINSLOW, an experienced Nurse an Fe-male Physician presents to the attention of Mothers her Soothing Syrup, FOR CHILDREN TEETHING. For the Nervous Affections, Convulsions, Fever, Inflamation of the Bowels, &c. that atttend this period of children, she recommends it as sure to produce the desired effect, giving REST TO THE MOTHER, and relief and health to the infant. A child in Congress Street was cured by the Soothing Syrup, of infantile Dysentery or Diarrhœa, after being given over by the attending physician. Mr. Blackman, of Eddington says it has never failed to cure the Dysentry or arrhœa in children whenever used in the village. Lots of it is sold. One parent informs me his child has suffered to an alarming extent with Flatulence or Wind Cholic. But they have used the Soothing Syrup, and it effects a sure cure. Hundreds of like instances might be enumerated, MOTHERS TRY IT.

Hear the Prooklyn Daily Advertiser, of June 13th We cheerfully comply with the request of a friend to insert the following letter, which we are assured is from a lady of the first respectability, residing in Lowell,

DEAR SIR :- I am happy to be able to certify to the efficiency of Mrs. Winslow's Soothing Syrup, and to the truth what it is represented to accomplish.—Having a little boy suffering greatly from teething, who could not sleep and at night by his cries would not permit any of the family to do so, I purchased a bottle of the Soothing Syrup in order to test the remedy,—and when given to the child according to the directions, its effect upon him was like magic, he soon went to sleep, and all pain and nervousness disappeared. had no trouble with him since, and the little fellow will pass through with comfort the excruciating process of teething, by the sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children, should possess it.

Lowell, Mass., May 29, 1853. H. A. ALGER. Every mother who regards the

WONDERFUL CURES by the Cramp and Pain Killer.—De . Henry Hunt was cured of NEURALGIA or SCIATIC RHEUMATISM after having been under the care of a physician six months. The Cramp and Pain Killer was the first thing that afforded him any permanent relief. David Barker was enred of a Rheumatic Pain in the Knge, after three or four days and nights of intense suffering, by one bottle of the Cramp and Pain Killer. T. H. Carmon—suffering from Cramp in the Limbs, the cords of his legs knotting up in large bunches, was cured by the Cramp and Pain Killer. At another time a few application entirely cured him of an exceedingly bad RHEUMA YIC AFFECTION IN THE BACK.

A young lady, fifteen years of age, daughter of John W. Sherwood, was long affected with SPINAL COMPLAINT, after being reduced to the verge of the grave, was cured by the Cramp and Pain Killer.

JOHN BUCKMAN, after having suffered everything but death from RHEUMATISM which seemed to pervade almost every part of his body was cured by the Cramp and Pain Killer.

Mrs. D vis was cured by it, of Billious Cholic.

A man in Portland was also cured by it, of Billious Cholic, when his life was well nigh despaired of.

Hundreds have been relieved by it of tooth ache, ague in the face, &c.
