On the 6th (18th) of June they made the assault on different sides, entered courageously into the town, but you received them with intrepidity, and they were driven back on all sides in the most brilliant manner. This check forced them to return to a continuation of their first plan of siege, multiplying their batteries, and increasing the activity of their trench works and mining operations.

Since the memorable day upon which you repulsed the assault, two months and a half have elapsed, during which, animated by sentiments of duty and of love to the throne and to your country, you have heroically disputed each inch of ground, forcing the assailants to advance only foot by foot, and paying with torrents of blood and an incredible loss of ammunition each yard of ground gained. In this obstinate defence your courage did not flag; on the contrary, it rose to the highest degree of self-denial. But if your intrepidity and your patience were without bounds, there are such in the nature of the possibility of defence.—As the approaches of the enemy gradually advanced, their batteries were erected nearer the walls. The circle of the fire which surrounded Sebastopol grew daily narrower, and sent death and destruction upon the defenders still further into the town.

Taking advantage of the superiority of their fire at short range, the enemy, after a concentrated action of their artillery during 30 days—which cost our garrison 900 to 1000 per day—commenced that terrible bombardment *(bombardement d'enfer)* from their innumerable engines of war, and of a calibre hitherto unknown, which destroyed our defences, which had been repaired at night with great labor and at great loss, under the incessant fire of the enemy—the principal work, the Korniloff redoubt, on the Malakoff Hill (the key of Sebastopol as a point of dominating the whole town), having experienced considerable and irreparable damage,

To continue, under these circumstances, the defence of the south side, would have been to expose our troops daily to a useless butchery, and their preservation is to-day, more than ever, necessary to the Emperor of Russia. For these reasons, with sorrow in my heart, but with a full conviction, I resolved to evacute Sebastopol, and take over the troops to the north side by the bridge constructed beforehand over the bay, and by boats.

Meantime the enemy, beholding, on the 27th of August (Sept. 8 of our calender), at 10.30, the half-ruined works before them and the Korniloff redoubt, with its ditches filled up, resolved upon a desperate assault, first on Bastions No. 2, (Kornileff), and No. 3 (Redan), and after about three hours upon Bastion No. 5, and the Belkin and Schwartz redoubts.

Of these six attacks, five were gloriously repulsed. Some of the points of attack, like that on Bastion No. 2, on which the enemy had succeeded in bringing guns by flying bridges, having at various times been taken and retaken, remained finally ours. But the Korniloff redoubt, more damaged than the others by the bombardment, was taken by the French, who brought more than 30,000 men against it, and could not be retaken after the great losses we had suffered at the commencement of this combat, for it would have been necassary to ascend in the midst of the ruins a very steep incline, and then cross a narrow ridge above a deep ditch on the rear face occupied by the French. Such an undertaktng might have prevented us achieving the proposed object, and would have cost us, without the slightest doubt, incalculable losses.

The attempt was the more needless, as for reasons already mentioned I had resolved to evacute the place. Therefore, as the success of the enemy was confined to the sole capture of the Korniloff redoubt, I ordered that no attack should be made on that redoubt, and to remain in front of it to oppose any continuation of the enemy's attack on the town itself—an order which was executed, despite all the efforts of the French to get beyond the gorge of the redoubt.

At dusk the troops were ordered to retire according to the arrangements previously made. The example of bravery you gave during that day, valiant comrades, aroused such a feeling of esteem in the enemy, that, despite the knowledge they must have had of our retreat by the explosion of our mines, which our troops exploded one after the other as they gradually retreated, they not only did not pursue us in columns, but even ceased firing with their artillery, which they might have continued with impunity.

Valiant comrades it is painful, it is hard to leave Sabastopol in the enemy's hands. But remember the sacrifice we made upon the altar of our country in 1812. Moscow was surely as valuable as Sebastopol—we abandoned it after the immortal battle of Borodino. The defence of Sebastopol during 349 days is superior to Borodino, and when the enemy entered Moscow in that great year of 1812, they only found heaps of stones and ashes. Likewise it is not Sebastopol which we have left to them, but the burning ruins of the town which we ourselves set fire to, having maintained the honor of the defence in such a manner that our great-grand children may recall the remembrance with pride to all posterity.

Sebastopol kept us chained to its walls; with its fall we acquire freedom of movement, and a new war commences, a war in the open field, that most congenial to the Russian soldier. Let us prove to the Emperor, let us prove to Russia, that we are still imbued with the spirit which animated our ancestors in our memorable and patriotic struggle. Wherever the enemy may show himself, we will present our breasts to him, and defend our native land as we defended it in 1812.

Valiant warriors of the land and sea forces! In the name of the Emperor I thank you for the unexampled courage, firmness and contancy you have displayed during the siege of Sebastopol, &c. &c."

KONIGSBERG, OCT. 4.—The St. Petersburg journals announce the return of the Empress from Moscow, and of the Grand Duchess and their children.

VIENNA, OCT. 4.—A letter from Vienna of the 50th ult., says the Czar is expected here on the 7th Oct.

ANOTHER DEFEAT OF THE RUSSIANS.

CAVALRY CONFLICT IN THE FIELD.—CAPTURE OF GUNS, HORSES, AND AMMUNITION WAGGONS.—A despatch, of which the following is a translation, was posted yesterday afternoon at the Paris Bourse:—

Marshall Pelissier reports under date of the 1st instant, that a brilliant combat of cavalry was fought on the 29th ult., at Youghil, about five leagues to the north east of Eupatoria, in which the Russian cavalry, commanded by General Korf, were defeated by the French cavalry under General Allonville.

Six guns, twelve ammunition waggons, and a campaign forge with all the appurtenances, besides 250 horses, belonging to the Russian Hulans, were captured.

The French took 160 prisioners including two officers.

The Russians lost 50 killed, and among them was Colonel Androwsky.

The French casualties were six killed and 27 wounded.

DESPATCH FROM PRINCE GORTSCHAKOFF.

HAMBURGH, OCT. 5.—Intelligence from Prince Gortschakoff, bringing news from the Crimea to the 3rd instant, has reached St. Petersburg.

Prince Gortschakoff reports that on the previous day the enemy had made an effectual flank movement.

The Prince, under date of the 3rd inst., further reports:—

"Yesterday the enemy effected a movement against our left flank and then withdrew.

"Our advanced posts still occupy their former line. Nothing has yet been undertaken against the north forts."

Major-General Wyndham is likely to be placed at the head of a division in the Crimea.

It is said that the Grand Cross of the Bath has been conferred upon General Simpson, to whom the Emperor of the French has awarded the Grand Cross of the Legion of Honour.

We have already announced that the Queen has forwarded the Grand Cross of the Bath to Marshal Pelissier.

THE BALTIC FLEET.—Advices from Dantzic, dated yesterday, informs us that the Allied fleet is still off Nargen and Cronstadt.

UNITED STATES.

THE GRAVE DIGGER GONE.—The following touching paragraph is contained in the Norfolk correspondence of the Petersburg ***Express***:

"Wm. Loring died last night. Mr. Dubbs is also dead. Mr. D. deserves more than a passing notice. He had had the superintendance of burying the dead in the three Protestant burying grounds of the city, and most faithfully has he performed his melancholy duties. From the commencement of tho fever he has been incessantly engaged, and assisted during that time in consigning twenty-three hundred to the grave.—About three days ago his wife was interred, when he was taken with the fever, and has now shared the fate of the many hundreds who preceded him. He leaves several small children, who in less than one week have been deprived of both father and mother."

After consigning twenty-three hundred to the grave—his own wife among them—the grave digger himself goes at last into the common mother earth?

MERCANTILE FLUCTUATIONS.—The Philadelphia Ledger in an article on business matters, well says: "If a man would see gray hairs upon his head before their time; beggary and ruin the sole legacy left to a wife and children, now rolling in every luxury, and brought up to it all; if he wants to see defrauded and indignant creditors, an old age of penury and dependence, a family driven by debt and false ideas into every degradation and crime, then let him spread all sail which he can borrow, give credit to every reckless customer, boast of his sales, live in brown stone and rosewood, surround himself with carved furniture and costly imported luxuries of all kinds; let him bring up his children to be waited upon by troops of servants—the end will come sooner than he expects; he will be caught in some nip of the ice, and sunk like lead in the mighty waters."

SIXTEEN DAYS LATER FROM CALIFORNIA.—The Northern Light brings important news from all parts of the Pacific. The California election, quite unexpectedly, had resulted in favor of the Know Nothings, their whole ticket being elected. The report of cholera on board the Nicaragua steamer Uncle Sam is confirmed, and the deaths are reported by the captain at one hundred and twenty, while the passengers insist that the deaths were two hundred and upwards. Two towns had been nearly destroyed by fire. From Oregon we have a distressing rumor that Gov. Stevens and company have been murdered by the Indians. The news from the whalers is of a disastrous character, it being reported that fourteen had been lost, and that up to July the fleet had taken but little oil. From Japan, the Sandwich Islands, the Isthmus, &c., the news is important and interesting.

NOVA SCOTIA.

The Congregational Union of Nova Scotia and New Brunswick has been in session during the last week, and we regret to say have decided to rebuild Gr2ham College in Halifax, N. S—[Liverpool Transcript.]

CORONER'S INQUEST.—On Friday last an inquest was held by J. F. Forbes, Esq., M. D., on the body of a man found at Broad River beach. It appears to have been some time in the water before being washed on shore. The head and arms were off, but no marks of violence could be discovered to have caused the loss of them. The clothing remaining on the body was a knit woolen shirt and part of two other shirts; a pair of woolen trowsers, with a belt around the waist, and a pair of boots on his feet. It was supposed that when alive the man would have stood about five feet ten inches or six feet high, and stout in proportion. No person present could identify the body. The verdict of the jury was in accordance to the facts above stated.—Ib.

A Correspondent of the Christian Messenger says:—

"Gideon Eaton, the man who shot Mr. Harris at Kentville, was tried on the 10th, and found guilty, (I suppose of aggravated manslaughter) and sentenced to five years imprisonment in the Provincial Penitentiary. Previous ill-feeling appears to have existed."

THE CROPS IN NOVA SCOTIA—Potatoes are injured by the blight, and in most localities are short of the usual yield. Apples in some places are not up to the average quantity, but taken as a whole the crops are said to be tolerably good.

DOMESTIC.

Destructive Fire.

About 6 o'clock, on Monday evening, the wood framed building covering McGrath, Harding, & Co's. Oilworks, at Spurrs Cove, opposite Indian Town, was entirely destroyed by fire. The damage done being chiefly confined to the shell of the building.

The main body of the works, including retorts, stills, the brick work, in which these are placed, engine and boilers, condensing coils, (except the wood water-cisterns about the latter) and other appurtenances have received, but little injury. Two long ranges consisting of 47 large brick tanks, all lined with lead, some of which were filled with oil, remain entire with the oil therein preserved.

These works have been in course of construction since August 1853, and were but just completed at a cost of upwards of £20,000. the damage done is estimated not to exceed £2,000, and it is affirmed that had the building been of brick or stone, it would not have been £50.

The fire originated by the light of a candle being brought too near an aperture in a round wood tank, closed at both ends, which had but a few minutes before been discharged of its contents of oil and acid, these having been agitated previously together in the tank, had as usual become warm, and the tank being still warm, there was at the time an escape of vapor from the aeprture of the empty tank, which ignited, and the flames entering it, causing for a few seconds a rumbling noise within, burst one of the heads out, seriously injuring one of five workmen, who were standing immediately before it at the time. The tank being on fire and close to the side of the wood-framed building, the flames spreading throughout, the whole was soon burnt to the ground. The property was not insured.

FORGERY.—A few days ago, some very accomplished gentleman, with all the *sang froid* of a Jack Sheppard, stepped into the St. Stephens Bank, and presented to the Cashier, a check drawn on G. D. King, Esq., of Calais, for $251 50c., which was cashed, and it was only after the gent had been absent long enough to be out of "harm's way" that the fraud was detected.—*St. Stephen's Patriot.*

SOMETHING DREADFUL.—It is our painful duty to chronicle a most distressing occurrence which transpired in this town at the private Boarding house of Mrs. Holmes.

On Friday 12th inst. about 2, p. m., two boys, one ten years of age, the other a few months over 4 years, and adopted by Mrs. H., went into a closet in an upper room, where was a loaded gun—this became the children's plaything. The youngest had hold of the barrel and the other the butt-end—when its contents by some means or other were discharged—entering into the little fellow's head above the right eye! He died instantly. The lady of the house, and the gentlemen boarders feel deeply the mournful casualty, as the child was greatly beloved.—*Ib.*

ARDUOUS MINISTERIAL DUTIES.—Having attended at the Baptist Chapel a few Sundays ago, we were not a little surprised at the close of the afternoon meeting, which commenced at 3 o'clock, to hear the minister, the Rev. Thos. Todd, give notice that he would preach at Northampton at 5 o'clock that afternoon, and at seven o'clock in the evening, in Union Hall, Upper Woodstock. We thought we had either misunderstood the appointments, or that Mr. Todd had made a mistake. We were aware that he had preached the same day at Jacksontown; and that he was in the habit of preaching three times on Sunday, but that he should make an appointment for a fourth service on the same day we could hardly credit. We made some enquiry, and found that when not called from home, Mr. Todd had preached four times every second Sabbath for more than a year, and that when other duties claimed his absence—such as attending funerals, &c., the labor was invariably performed on every third Sunday.

The following routine for one day will give some idea of the duties discharged by that gentleman; and when it is borne in mind that this occurs every second Sunday, or at least on every third Sunday, it will be readily admitted that Mr. Todd does not pursue the course of the sluggard. Attends the opening of the Sabbath School in Union Hall, at 9 o'clock, A. M.—Examines the S School in Upper Jacksontown, at 10 1-2 o'clock.—Preacher there at 11 o'clock.—Woodstock at 3, P. M.—Lower Jacksontown or Northampton, at 5, P. M and Union Hall, at 7. To this may be added a travel of about 24 miles every day. Think of this ye industrious preachers, who, with a special effort, can manage to prepare two—perhaps one—sermon each week.—*Carleton Sentinel.*

Letters and Monies Received.

All directions in the above attended to.

A CERTIFICATE.

FROM ONE OF OUR WILLIAMSBURGH FRIENDS.

New York, Aug. 30, 1852.

I hope every one, whether adult or child, who may have reason to believe they are troubled with worms, will take Dr. McLANE'S CELEBRATED VERMIFUGE. I firmly believe it is one of the greatest worm destroyers of the age—certainly the most extraordinary I know of.

A child of mine, about five years old, has been troubled with worms about six months back; we could get nothing to relieve it until we came across Dr. McLane's Vermifuge, of which we gave but a small quantity. The result, however, was extraordinary. The child passed over three hundred worms.

MR. LENT, Williamsburgh, Long Island.

P. S. The above valuable remedy, also Dr. M'Lane's Celebrated Liver Pills, can now be had at all respectable Drug Stores in this city.

☞ Purchasers will please be careful to ask for, and take none but Dr. M'Lane's Vermifuge. All others, in comparison, are worthless.

Sold in St. John by T. Walker & Son, and Chaloner & Hunt.

HYGEAN VAPOR.

From the New-York National Monitor of Feb. 24.

Dr. Curtis has done more to ameliorate the condition of humanity afflicted with lung complaints, than any other practitioner of medicines that has struggled with the secrets of the *materia medica*, for the last century, by the invention and perfection of an instrument that will convey to the lungs a medicine in the shape of a highly Medicated Vapor, which acts directly on the disease, and not, as hitherto, by sympathy. Those who are troubled with diseases arising from disordered lungs, will subserve their interests by giving the Hygean Vapor a trial.

CAUTION.—Dr. Gurti's Hygeana is the original and only genuine article.

☞ For sale by Fellows & Co., Germain-street, opsite Market-street.

VERY IMPORTANT INFORMATION.

DR. JOHNS, one of the most celebrated physicians in New York, writes as follows:

DR. CURTIS—*Dear Sir*—Having witnessed the excellent effects of your *Hygeana, or Inhaling Hygean Vapor, and Cherry Syrup*, in a case of chronic Bronchitis; and being much in favor of counter-irritation in affections of the throat, bronchil tubes and lungs. I can therefore cheerfully recommend your Medicated Apparatus as being the most conveient and effectual mode of applying any thing of the kind I have ever seen. No doubt thousands of persons may be relieved, and many cured, by using your remedies.

You are at liberty to use this in any way you may think proper. Respectfully, yours, &c.

C. JOHNS, *M. D.* No. 609 Houston St., New York.

Prof S. CENTER writes as follows:

Gentleman—I have recently had occasion to use your Cherry Syrup and Hygean Vapor in a case of *chronic sore throat*, that had refused to yield to other forms of treatment, and the result has satisfied me, that whatever may be the composition of your preparation, it is no imposition, but an excellent remedy. I wish, for the sake of the afflicted, that it might be brought within the reach of all.

Rev. Dr. Cheever writes:—

New York, Nov. 15, 1854.

Dear Sir—I think highly of Dr. Curtis's Hygeana, as a remedy to diseases of the throat and lungs. Having had some opportunity to test its efficacy, I am convinced that it is a most excellent medicine, both the Syrup and the inhaling application to the chest.

The Hygeana is for sale at St. John by FELLOWS & Co., wholesale and retail. See Advertisement in another column. Jan. 5.—1yr.

REMOVAL.—D. & J. LEAVITT have removed to the store in Prince William-street, formerly occupied by Messrs. Flewwelling & Reading, where, with an entirely new and large Stock of FLOUR, GROCERIES, PROVISIONS, &c., they beg to solicit a continuance of the patronage they secured at their old stand. oct. 17.

MARRIED.

On the 11th inst., at the residence of the bride's father, Salem, County of Cumberland, by the Rev. E. B. DeMill, Jones C. Cole, of North Joggins, to Lydia Ann, daughter of Mr. Samuel Taylor.

On the 7th inst., by the Rev. B. Scott, Mr. Hector Morrison, of the Parish of Nelson, to Miss Ann Chaplain, of the Parish of Northesk.

THE COTTAGE STREET LOTS.

ARE fully equal in point of beauty of situation and healthness of locality to any in the suburbs of the city, only ten minuits walk from the Ferry landing in Carleton, and within the proposed line of the city extension. They are situated immediately in the rear of the Tower and Fort, and lie east of the properties of N. S. Demill, Z. Ring and William Short, presenting an unbroken view of the Bay and harbour, protected by the hills from the North winds. The atmosphere is particularly pure and the locality is comparatively free from fog, this may seem singular to strangers; but we have the statements of residents who affirm that the city of St. John is immersed in fog before it covers this locality.

The lots on top the hill numbering from 1 to 10 and from 16 to 22 are particularly beautiful situations, from 11 to 13 and from 23 to 26 are on the side of the hill, and face the south, being the proper exposure for gardens from the foot of the hill to the sea, the land is particularly good. A street is laid out 50 feet wide, and is partly made, running to the water where immense quantities of sea weed may be obtained for manure, sand of excellent quality for building purposes, and gravel for the walks, while large blocks of granite lay strewed over the ground suitable for building.

A street is proposed, connecting with the street crossing the properties, which will give to purchasers in that locality a comparatively level road to the Ferry.

Consider those facts, you who have small amounts, you have desire safely to invest by instalments, or desire one or a dozen of those handsome lots together for a suburban residence very easy of acess to the city.

So apparent has the value of land become in this locality, that a great part is now held by wealthy individuals in the city, and cannot be purchased for any amount of money. They hold it for the future

Already that future is becoming apparent, a good street has been cut out through Mr. Everitt's property, extending from Charlotte Street to the road leading to the bay, new houses are springing up, and walks are being made through the spruce groves on various Estates. In connection with this there are other operations which sooner or later in their own good time, will come to fulfillment.

The regular progress of the value of property in the whole of this section is truly wonderful, and is shown by land adjoining those properties which three years since was bought for £75, and was sold this spring for £300, here then would have been an investment which in two or three years would treble itself, in three years more the same property will not be bought for £1000.

Another matter to be taken in view is, that being just outside of the City limits, persons doing business in the City may live here and be free from the greater portion of taxes.

The cottage Street lots will range from 40 to 52 feet wide, by from 30 to 125 in length, just as the ground will be cut up by the Streets, and will be disposed of at

AUCTION.

at the Sales Room of WILLIAM GARNETT, on THURSDAY,

November 1st, next.

Here then is a chance for investment; it will be but an effort to save a small amount sufficient to purchase a lot, and yet once saved you have something that grows as you grow, that every year increases in value and finally becomes an object of importance to yourself and those who come after you. How many wealthy men are there who would never have been worth more then the law allows them had it not been for some such fortunate commencement as this. It is the only safe and unchangeable investment, the only one that cannot be burned, blown, or wasted away, the only one that does not require the assistance of the insurance office.

All persons should seize this opportunity of connecting themselves with so lucrative an investment, such an occasion may not occur again for years.

And as to profit, no means of investing money could produce more, all we ask is 10 per cent. down, 25 per cent. in three months, 25 per cent. in six months, and the balance in twelve months. Men are content to invest in the Savings' Bank at 3 or 5 per cent., while they have no security for their money, save the reputation of the Office itself.—Here not only will lots double themselves in value every year, but persons are secured by a lot of land, with an unquestionable title, and free from all encumbrances. Moreover, legal interest will be paid for every dollar, paid three months in advance of the time specified.

This should be an inducement for men to withdraw from other less profitable institutions, and invest them in this.

A coper-plate engraved Plan on a small scale, with a Prospectus will be in readness on Thursday next, and may be had on application to

WILLIAM GARNETT,
J. & A. McMILLAN,
and CHUBB & CO., or to
FELLOWS & CO.

Oct. 20.

ELLISON'S DAGUERREOTYPE, AMBROTYPE, AND CHRYSTALOTYPE ROOMS.
BARLOW'S CORNER, KING STREET.

THE Proprietor would most respectfully solicit a call from the Ladies and Gentlemen of this City, to his Rooms, and examine the beautiful and excellent specimens of these new style of PICTURES, called the AMBROTYPES. This new method of taking Pictures resembles a *Mezzotint*, and has a life-like roundness and softness, which is not attainable in a Daguerreotype; and being taken on Glass instead of a metallic surface, is not subject to change or corrode. A further advantage it has, is that the face of the setter is not reversed, nor is the view of the picture affected by the position in which it receiver the light,—Whoever wants a bold life-like LIKENESS, with none of that inanimate chalky flatness so inseparable from a Daguerreotype, and in all respects far superior, would do well to visit my Rooms, (as I am the only Artist who can take Ambrotypes in this City.)

Sep. 14 THOS. H. ELLISON.

M. N. POWERS, UNDRTAKER,

Respectfully gives notice that he will attend to all the duties connected with the management of Funerals at the shortest notice; also keeps at his Wareroom a large assortment of Coffins, of every size and description, consisting of Mahogany, Walnut, and covered, at all prices.

Coffin Mounting of all descriptions—English and American—Japanned and Plated. Plates Engraved and Lettered. Grave Clothes of all sizes and Qualities.

Orders left at Wareroom or Residence over Wareroom, thankfully received and promptly attended to, day or night. M. N. P.

P. S.—Two superior Hearses, with quiet horse, and careful driver. Palls, &c., furnished.

Aug. 16

DR. NOBLE'S INVIGORATING BALM.—This admirable preparation is the most effectual remedy known for Baldness and falling off of the Hair, giving it a rich glossy appearance, unequalled by anything of the kind. It contains no alcohol or alkaline substance, (as all the washes do which are now used,) and will restore the natural colour after those articles have deprived the hair of it. We can refer enquirers to persons, both old and young, many of whom have been bald several years, and have had their hair restored by this preparation. It acts by assisting nature and will in no way prove injurious. Prepared and sold by, FELLOWS & CO.,
oct. 3. Germain-street.

Patent Magic Soap.—Of superior quality, warranted to do no injury to Clothing.—The above is one of the best preparations of the day, and intended to supersede the use of Washing Powder and Fluid; being far superior to any of them. By the use of this Soap, Washing becomes both easy and pleasant, and the most delicate Female, can in an hour's time, wash as many clothes, as a hale and hearty person could in a day, by the use of any other preparation. It will be found upon using, to be truly a Magical Soap, and all we ask is a fair trial of it. Price 9d per package. Sole Proprietors. GEO. C. GARRISON & CO.
Oct. 3. No. 46 Charlotte-street, and Reed's Point.

ATTENTION!—Guard against Autumn Frosts.—*Health in Preference to Wealth!*—Just Finished at GRANITE HALL, No. 1, DOCK STREET, Fine Beaver and Broad Cloth OVER-COATS, cut and made according to Fall Fashions for 1855, in Browns, Olives, Drabs and Blacks, superior material and Trimmings.

Parties in want of a really good article, will find on inspection that they are what they require, and will be sold at prices to suit the times.

Sept 26. THOS. R. JONES.

DISSOLUTION.—The Copartnership heretofore existing between DANIEL DAVIS and JOHN P. WELLS, as Grocers and General Dealers, is this day dissolved, by mutual consent. All debts due to and by the same firm, will be settled by Daniel Davis.

JOHN P. WELLS,
DANIEL DAVIS.

Carleton, sept. 22d, 1855.—4w. (p.)

KENNEDY'S MEDICAL DISCOVERY.—*The Greatest of the Age.*—MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases and never failed except in two. He has now in his possesion over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed, growing in the pastures, and along old stone walls, should cure humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old; to old people of sixty; and has seen poor, puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can, and enough of it.

Principal Office of the Medical Discovery for the State of Maine and British Provinces, is at the Drug Establishment of H. H. HAY, *15 and 17 Market Square, Portland, Me. To whom all orders should be addressed.*

Thomas Walker & Son, Wholesale Agent, also for sale by Chaloner & Hunt, Fellows & Co., G. C. Garrison & Co., J. F. Secord, R. D. McArthur, O. R. Arnold, S. L. Tilley, Charles Esterbrooks, Canning, Burpie & Co., Sheffield, R. P. Yeomans, Canning, Daniel Briggs, Salmon River, Q. C., C. Burpie, Chipman, H. & B. Babbitt, Coal Mines, Q. C., Thos. Davis, Chipman, John Wiggins, Jr., Young's Cove, S. V. White, Cambridge, S. Black, Cambridge, J. T. Toole, Washdemoak, Y. A. Crandall, Springfield, T. S. Davis, Springfield, Samuel Foster, Kingston, and John Taylor, Indiantown. oct. 10, 1y.
