## FOREIGN NEWS.

[By Telegraph to the News Room.]

The Collins steamship Pacific arrived at New-York on Wednesday morning last, from Liverpool, with dates to the 27th ult.

There was much distress in England, owing to the unusually severe winter, and great riots had occurred in consequence at Liverpool and London; but the weather having moderated, and the subsequent arrivals of ships being numerous, giving employment to many of the distressed, the rioting had latterly ceased.

The Palmerston Ministry have fallen to pieces—Messrs. Gladstone, Herbert and Graham have resigned, ostensibly on account of Mr. Roebuck's motion for a committee to inquire into the management of the war. Private squabbles in the Cabinet are also supposed to be a cause. Rumor says that Mr. Roebuck's party will not rest satisfied without the impeachment of Lord Raglan and one or more of the ex-ministers. Lord Palmerston was much troubled in reconstructing the Cabinet, and had not fully completed it. Lord J. Russell takes the colonial Office as a stop-gap, but proceeds to Vienna.

The new Chancellor of the Exchequer is Mr. Lewis, an untitled man.

Sir Charles Wood takes Sir James Graham's place as first Lord of the Admiralty. Rumor gives Lord Elgin a seat in the Cabinet as a member of the Board of Control. The members of the Government express confident hopes that pending negotiations will lead to an honorable peace.

Joseph Hume is dead; he was much respected and as much regretted.

The proceedings in Parliament have touched upon several points of interest.

On the 9th, Royal assent was given to the North American Fishery Bill.

In the House of Commons a discussion arose in regard to the commerce of Russia since the commencement of the war. It was stated in debate that under the present system of blockade, the interior trade of Russia had suffered no injury. £10,000,000 had gone from Great Britain to that country. The right of search was urged as a necessity in order to prevent the introduction of Russian goods into Great Britain. It was deemed not advisable to lay before the House correspondence between Great Britain and the United States, on international arrangements during the time of war. It was stated, however, that the two countries were on the most friendly terms.

The convention between Great Britain and the Porte for the enlistment of a Turkish contingent, had been signed, and an interesting debate occurred on going into Committee on the Army estimates.

Lord Palmerston contends that the sufferings of the army in the Crimea arose from physical causes not in the power of man to control. Those sufferings were not confined to the British army. The Russian sick and wounded amounted to 33,000 men. He further urged that the debate in Parliament had created so much indignation on the continent that the Government had been prevented from putting the foreign enlistment Act into operation.

Lord Palmerston announced that Lord Lucan had been recalled, in consequence of his differences with Lord Raglan.

In a general debate on the conduct of the war, the Earl of Harrowby expressed the opinion that a great mistake had been made in not calling the oppressed nations of Europe, to aid in the present struggle.

Lord Panmure replied that compulsory measures must be resorted to, to fill the ranks. War measures continue all over Europe. Louis Napoleon seems determined to proceed to the Crimea. England and Austria have advised him to stay at home.

Russia has declared war on Sardinia.

It is stated, but not confirmed that Tuscany has joined the Western Powers, but Naples has not.

Siege operations at Sebastopol were progressing with vigor. Orders had been received at Constantinople to prepare beds for 50,000 men, from which it was inferred that an assault was to be made on Sebastopol. The Baltic fleet consists of 55 war steamers, carry 2066 guns; 5 floating batteries, with 80 guns; 8 mortar ships, with steam gun boats, carrying 66 guns, forming a total of 100 ships and 2278 guns.

## Four Days Later!

ARRIVAL OF THE STEAMER AFRICA AT HALIFAX.

Death of the Emperor of Russia!

The Cunard Steamer Africa, twelve days from Liverpool, arrived at Halifax on Thursday last, with English dates to the 3rd inst.

In the House of Lords, on the night of the 2nd, Lord Clarendon rose and said:—My Lords, I think it my duty to communicate to your Lordships the contents of a telegraphic dispatch which I received half an hour ago from Her Majesty's Minister at the Hague, that the Emperor Nicholas died this morning at 10 o'clock, of pulmonary apoplexy, after an attack of influenza. I have also received a despatch from Her Majesty's Minister at Berlin, stating that the Emperor of Russia died at 12 o'clock this morning. An hour before this despatch arrived, I received accounts from Lord John Russell at Berlin, that the Emperor was on the point of death, and had already taken leave of his family. Although this event occurred so short time ago as between 12 and 1 o'clock, there can be no doubt under these circumstances of the authenticity of it.

In the House of Commons Lord Palmerston made a similar statement.

No important news from the seat of war. Feb. 13th, Sortie during the night not formidable, only 5 French killed, 14th, another Sortie, French lost 25 men; weather warm and spring like. Condition of French army reported excellent. Reported also that the northern side of Sebastopol would be invested.

Admiral Bruat has telegraphed the following:—

Montebello, Kamiesch, Feb. 20th.

On the 17th, the town of Eupatoria was attacked on eastern side by 80 pieces of artillery, 6 regiments of Cavalry under Gen. Kerff, 12 regiments Infantry, about 25,000 men, under the orders of Gen. Ostensacken. The combat lasted from half-past 5 till 10 in the morning. The Russians were vigorously repulsed; their loss is estimated at 500 killed, and the wounded in proportion. Turks had

88 killed, 250 wounded, and lost 70 horses. Selin Pacha, Gen. of Egyptian Division, and Col. Ressem Bey were killed. 18 French were killed and wounded on ship board. The attack has not been renewed by the Russians. The steamers at anchor in the roadstead contributed energetically to the defence of the town. Admirals Lyons and Bruat have sent six steamers to Eupatoria.

(Signed.) BRUAT.

SECOND DESPATCH.

Eupatoria, Feb. 21st.—Since the affair with the Russians they have not made any attempt upon Eupatoria. To-day columns of Infantry and trains of waggons were seen leaving the vicinity of the town, and taking the direction of Simpheropol. Many villages are still in flames in the neighbourhood of Eupatoria. More guns have been landed and additional fortifications thrown up. The town is in a good state of defence.

(Signed.) DEMONT LOUIS, Commanding Steamer Velece.

Letters state that the battle consisted mainly of a heavy fire of artillery under cover of which Russians made two or three attempts to carry the town by storm. On the night after the battle the Russians bivouacked on the field in intense cold, without tents or fires, and next day commenced retreating on Simpheropol.

VIENNA CONFERENCE.—Lord John Russell had arrived at Berlin, and immediately had audience of the King and Baron Marfotelet. Prussia seems at length to be making attempts to come to an understanding with the Western Powers. General Wedell, Minister at Paris, has gone to Berlin to explain points at issue, and Lord John Russell's Mission is expected to conclude in the accomplishment of the desired arrangement.

An official editorial in "Correspondence" of Vienna says, that a Draft of a general Treaty is prepared securing the integrity of Turkey, preventing future encroachments of individual Powers, and guaranteeing the rights of the Christians. This document will be considered at the Conference.

All the Plenipotentiaries, except Lord John Russell, had arrived at Vienna. The Conference meets on the 5th of March. Hopes of peace are strongly entertained.

Notwithstanding the Russian professions of peace, all accounts state that warlike preparations were never more active in Russia.

German papers mention the capture by Russia, of Schouabkapon, Schmyls strongest fortress.

BRITISH PARLIAMENT.—The Parliamentary proceedings are not important. Chief business was the debate of Lord Godrich's motion to increase the chances of military promotion from the ranks; it was negatived.

Debate in the House of Lords on the subject of acknowledging the loyalty of Canada and other Colonies, no action came.

Roebuck's committee proceeds vigorously, and has decided that the objects of the inquiry will be best attained by keeping secret the doings of the committee. March 1st. Mr. Roebuck appeared at the Bar of House of Lords with message from Commons citing the Duke of Newcastle to give evidence before the committee.

Earl of Carlisle has been appointed Lord Lieutenant of Ireland, in the room of Earl St. Germain.

Wednesday 21st of March is appointed as a national fast for success of the War.

Meetings deprecating the conduct of the War continue to increase throughout the country with the decrease of work. Liverpool and London are again quiet.

The Earl of Lucan has published a convincing letter to Lord Raglan, exonerating himself from all blame in the celebrated Cavalry charge of Balaklava.

Letters are appearing in the English papers complaining of the non-return of goods sent to the New York Exhibition.

FRANCE.—Emperor was at the camp of St. Omer. Nothing new respecting his proposed visit to Crimea. Rumours of some important arrests having been made in Paris for political causes. Persons of high position are said to be implicated.

The Monitor announces loss of French frigate in Straits of Korofacia, all perished—six hundred and upwards.

ITALY.—Sardinia chambers voted the suppression of Monasteries. Nothing more of the adherence of Tuscany and Naples to the allies.

CHINA.—The intelligence from China is important. Dates from Hong Kong are to Jan. 15th.—Insurgents hold Canton in state of siege, and have command of whole river, their fleet having gained several victories over Imperial flotilla; consequently supply checked. Provisions, especially rice, raising rapidly. Fight took place at Whampoa anchorage in presence of American and English ships of war. Foreign shipping was considerably damaged by guns of beligerents. English and American commissioners have drawn a line around the factories and given notice that no hostilities will be permitted within it. Difficulties had occurred between the insurgents at Shanghai and the French, whereupon Admiral Laguerre, with the ships Jean d'Aere and Colbert bombarded the city, which were this has probably surrendered or been stormed.—Insurgents have met with reverses east of Peking.

DESTRUCTION OF 20,000 RUSSIANS.—A letter received from Malta, dated Feb. 21, contains the following:—"The Arabia, one of the Cunard line, has performed the trip from Constantinople to Malta in the incredible short space of 63 hours. This vessel brought a report that 45,000 Russians had marched for Sebastopol, under the command of the Grand Duke Michael; but they had lost 20,000 by the ice thawing, and consequently, detaining them long on the road. The remainder had reached Sebastopol but in a pitiable condition."

## UNITED STATES.

SHIPWRECKS AND LOSS OF LIFE.—The storm of last Friday night and Saturday was unusually severe on Cape Cod, and was more like the great storms of last year than anything we have experienced this season. The wind was about north-east, blowing a gale, and accompanied with a heavy fall of snow, which was so badly drifted in many parts of the Cape as to render the roads impassable. The storm was severely felt by mariners on the coast, and we have already heard of several shipwrecks—in some cases attended with loss of life.

HORRIBLE MURDER.—At South Gardiner, Worcester County, Mass., on Wednesday night, two elderly ladies, sisters of the late Abner Kneeland, an infidel, were murdered in the house where they lived alone, as is supposed by persons who were after money. From the appearance of their heads they had been beaten with clubs and stones until life was extinct. The house was then completely ransacked. A vagrant Frenchman has been arrested on suspicion of having committed the deed.

POWDER MILL EXPLOSION.—Wilmington March 10.—Three buildings, belonging to Gareches Powder Mills, were blown up this afternoon, instantly killing a man named John Kane, and seriously wounding three others, who are not expected to recover. The explosion was terrific, the shock being felt a distance of several miles.

DREADFUL ACCIDENT.—On last Wednesday in Meredith Village, near Boston, while the citizens were balloting in the new Town Hall, the floor fell in, precipitating about 300 persons 18 feet on the stones and rubbish. Six persons were fatally injured and forty others seriously bruised, &c.

EARTHQUAKE IN COLUMBIA COUNTY.—Two distinct shocks of an earthquake were felt in Columbia County and at Studycant Falls on Wednesday. The houses were shaken to their foundations, and the next morning the earth in some places was found opened to the breadth of three or four inches. The shocks were felt about twelve o'clock at night.—N. Y. Times.

WHAT NEXT.—A secret association has been formed in Albany, called "The Rabbits."

NOVA SCOTIA.

It will probably have become known to most of our Temperance friends throughout the Country, that the Prohibitory Liquor Law, which has for some time past been before the Lower House, passed that branch of the Legislature, little altered in its principal features, by the large majority of Ten. The time for its commencing operation was finally fixed at the beginning of April, 1856. We hope no condition may be annexed to the Bill in the Lower House, which may peril its safety in passing thro' the other Branches, as the Country will not now be satisfied without a fair and honest trial of the measure.—Christian Messenger.

DOMESTIC.

HOUSE OF ASSEMBLY.

March 12th.—A Bill passed to continue the cash credit on the Bank of New-Bruns- wick, City of St. John.

The Hon. Surveyor General and Mr. End eulogised the hon. member from St. John, Mr. Partelow, for being the means of making the arrangements some years ago, as no doubt it had been the means of preserving the credit of the Province.

Progress was made in the Statute Labour Bill, several hon. members spoke on the Bill, but there seemed to be a great diversity of opinion as to its details.

Hon. Mr. Smith brought in a Bill to provide for the payment of Petit Jurors, in this Province, one hundred copies to be printed for the use of the Legislature.

Mr. Cutler, Chairman of Public Accounts, made a Report on the several Sheriff's Accounts in different parts of the Province.

Mr. Cutler said all the Sheriff's Accounts had been received, except those from Carleton and Queen's Counties.

The House then took up the "Order of the Day" and went into further Supply for the use of the Public Service, and continued in Supply 'till the hour of adjournment.

March 13.—The House has been occupied in Supply all day, and some small grants have been rejected.

Hon. Mr. Smith on a question from Cutler, stated that the information on Railway matters would shortly be furnished.

A grant of £2,000 for repairing the Roads and Bridges destroyed last Fall, has been agreed to.

A grant to Mr. Neville, for education of Indians in York County, was passed after several divisions. The blank filled with £50.

The grant to Mr. Sears, for Coppers (not imported by him, was lost on a division of 8 to 19.

In the Legislative Council they have passed all the appropriations of the 7th and 9th insts.

March 14.—After the transaction of some routine business the House proceeded at 12 o'clock to ballot for members to serve on the Carleton scrutiny, but on making the trial it was found it could not be proceeded with, and only six unengaged members could be found, the Scrutiny Committee requiring seven. The trial will be probably made again to-morrow morning. A number of the members afterwards went up to hear the debate on the Election Bill in the Legislative Council, when the Hon. Messrs. Harrison, Stevens, Botsford and Kinnear spoke at considerable length, and with a degree of excitement not always exhibited in the Council. The Bill will probably be debated for two or three days, after which it will most likely pass without any important amendment.

MARCH 15.—Scrutiny Committee in the case of Carleton Election struck—M'Phelim, M'Adam, Sutton, Ryan, and Botsford. Mr. End nominee for Sitting Candidate, and Mr. Taylor for Petitioner. A Bill to incorporate the lower Bridge Company in St. Stephens was afterwards agreed on.

MARCH 16.—Progress was after a long discussion reported this morning on a Bill brought in by Mr. Harding, regarding the Corporation debt in St. John. Progress was also reported on a Bill appointing a Port Warden at Indian Town.

The resolution for increasing the salaries of Tide Waiters in St. John, was withdrawn.

House in Supply.

In the Legislative Council an amendment to the Election Bill was brought in by the Hon. Mr. Botsford, and lost on an equal division and the bill agreed to—Contents for the amendment.—The President, Hon. Messrs. Botsford, Hatch, Peters, Hazen, Harrison, Davidson, Odell, and Gofford. For the Bill—Hon. Messrs. Saunders, Kinnear, Minchin, Hilk Wark, Stevens, Ryan, Todd, and Seely.

The Bill on Tenders, introduced by Mr. End, is not for legalising money tenders as stated in a former report, that being the law already, but to prevent costs after a previous

confession of judgment has been tendered to the amount of the verdict afterwards returned in court.

MARCH 17.—A Bill to regulate the navigation of the River St. John, and the appointment of a Harbour Master at Indian Town, committed, and progress made.

A bill relating to the service of process on persons out of the jurisdiction of the Supreme Court of this Province, committed and passed. Mr. Wilmot moved that it be postponed for three months—Yeas, Messrs. Wilmot and Gillmor—Nays, all the rest of the Committee.

Hon. Mr. Smith, Chairman, when the speaker resumed the Chair, spoke in favor of it.

MARCH 19.—The Temperance Bill has been under discussion during the greater part of the day. Tilley's was the opening speech, and was clear, sound, conclusive and logical, bringing a large number of facts in support of his arguments. M'Phelim followed and made a short but strong speech against the Bill. Next came End, with all the appropriate epithets which the English language could furnish in climax after climax heaped on the Bill and its operation in Massachusetts; next Johnson, expressing himself willing to vote for the Bill if so directed by his constituents—but in the absence of such direction affirming that he would vote against it, because he believed that as a coercive measure it would injure the cause of Temperance.

SAKEVILLE, March 16.—A party crossing to P. E. Island, from the Cape, on last Saturday, got blown off in the ice boat and arrived at Wallace on Tuesday, with one man frozen to death—a Dr. Johnson from the Island—and the rest with arms and legs badly frozen.

RECIPROCITY TREATY.—The President having been this day (16th March) officially notified that the necessary Act of Parliament has passed, will issue his proclamation to-morrow morning, bringing the Reciprocity Treaty into full effect.

M. H. PERLEY.

MAINE LAW.—We are glad to inform our readers that a Bill to prohibit the importation and manufacture of intoxicating liquor is now before the Legislature, and is likely to be passed. The Temperance community in New Brunswick is now so numerous and influential, that, if passed, we have no doubt the Law will be effectually carried out.

MURDER.—A man named Spencer, belonging to Carleton, was murdered by three Irishmen, in a drunken quarrel, on the 10th inst. A Reward of £50 is offered for the apprehension of the offenders.

Letters and Monies Received.
