# Poetry.

LOVE IS EVERY-WHERE. The air is filled with a gentle song-An under-song of wooing— As the leaf-enshrouded woods o'erflow With the sound of the ring-dove's cooing. In Nature's deepest haunts, I hear a voice that chants:

"Why should the earth grow old with care, Since 'Love, sweet Love, is every-where!" Ye will hear at night, if ye listen well, Music in heaven ringing,

And amid the stars a melody, As of angel-voices singing; For the spirits who in the spheres of light
Have made their happy dwelling,
To each other across the depths of space Their tales of love are telling.

The sunbeams leave their glowing throne, And whisper love to the flowers; The birds outpour is it their strains, As they sit in their rose-crowned bowers. When the breeze swells mournfully Through the boughs of a swaying tree, I ever hear a voice declare That " Love, sweet Love, is every-where."

In the mosning thunder of the waves, That dash on some recky shore; Or the tuneful flow of the ripply tide, In the matempest's rage is o'er-As it rushes, the space of the brook As it rushes, the sea Of the swiftly-falling rain-

In the gleeful laugh of the dancing spray, From some skyward-leaping fountain; Or the ceaseless roar of a white cascade, In its giant bound from the mountain-There falleth on mine ear This song so sweet and clear " Ah, why should man e'er feel despair, Since Love, sweet Love, is every-where ? ' '

### A Model Prayer Meeting.

Has any Christian, now living, ever seen a prayer-meeting at which all the members of the church within whose bounds it was held were resent? I never have; and I never recollectto have read of but one such meetingthe proper meeting held in Jerusalem just before Penecost, A. D. 33. Of that meeting it is recorded, "These all continued with one accord, in payer and supplication: the number of the names together were about a hundred and twenty.

And this prayer meeting appears the more remarkable because.

1. It was held at the warmest season of the year-near the end of June-a stason at which the heat in Jerusalem is often very oppressive. In our large city churches, at the present day. it is a difficult matter to get even a handful together, for a prayer meeting, in very warm weather. Those who are regular in attendance at other seasons find in oppressive heat a satisfactory reason for absenting themselves.

2. It was held at the time of a grand festi val, and when Jerusalem was full of strangers. "Parthians, and Medes, and Elamites, and dwellers in Mesopotamia, and in Judea and Cappadocia, in Pontus and Asia, Phrygia and Phamphylia, in Egypt and the parts of Lybia about Cyrene, and strangers of Rome, Jews and proselytes, Cretes and Arabians were there.' I recollect some time ago, when a large commercial convention was in session in the city of my residence, an active member of the church came to the pastor, and suggested that it would be well to suspend the prayer meeting for that week, since the people would be so much taken up with the duties of hospitality, and so much interested in the discussions of the convention that they would not feel like going to the prayer meeting. I suppose he t) ought "We do not often have a commercial convention, but we can have a prayer meeting at any time."

3. All the female members of the church were there; and this notwithstanding the disadvantages alluded to as to its being a festival time, when they probably had guests to entertain. How they all contrived to get to prayer-meeting at such a time Luke does not tell us. He simply says, "the women and Mary the mother of Jesus" were there. At the present day there does not seem to be any insuperable difficulty in the way of the female members of our churches getting to a party, or a concert, or a popular lecture; but to get to a prayer-meeting, especially if they have not a pious father, or husband, or brother, or son, to accompany them; or if they have friends or strangers staying with them, is one of the few things in which their "woman's wit" is altogether at fault.

I once heard an old paster remark that he looked upon his weekly prayer-meeting as the pulse of his church-its beat, strong, full, and regular, indicating a healthy state of the body. Certain it is that there seems to be almost as intimate a relation between the prompt and full gathering of a church at the prayer-meeting and the outpouring of God's Spirit upon that church, as between the gathering of the cloud in the heavens and the descent of the summer's shower.

I have heard the question asked, why have we no Pentecestal revival in our day? May not one principal reason be, we have no ante-Pentecostal prayer meetings-now-a-days.

# Rising in the World.

Experience continually contradicts the notion that a poor young man cannot rise. If we look over the list of rich men in Philadelphia, we find that nearly all of them began life worth little or nothing. Girard was a poor boy. The late Mr. Ridgway came to this city a country lad, almost penniless. What is true of Philadelphia is true, also, of New York and Boston. Astor began with nothing. Abbott Lawrence had only a pair of stout hands, a willing heart, and good character, for his original capital. To any person familiar with the millionaires of the United States, a score similar examples will occur. On the other hand, the sons of rich men, who began life with the capital which so many poor young men covet, trequently die beggars. It would probably not be going too far to say that a large majority of such moneyed indiwould probably not be going too far to say at a large majority of such moneyed indicate either last outright, or gradually eat p the capital with which they commenced out career. And the reason is plain.

LI. Persons having any demands against the Estate of the late of EORGE DEWAR, are required to make immediato paying the capital with which they commenced out career. And the reason is plain.

#### ~~~~~ Make Your Hens Lay.

First make a house eight by ten feet; put in a window on the south side: a double door on the west a ventilator eight inches square in the top—let it run up two and a half feet above the ridge-board: line the inside of the building with boards, leaving a space of four inches, and fill it with sawdust; let the room be six feet between joists: lath, plaster, and whitewash it; bank it up on the outside with horse that will not freeze. This room is sufficiently 500 BARRELS Superfine FLOUR; 100 do Plot large for twenty-five heus and one cock; put do; 60 do Pinch; 20 do Rosin; 5 do Spirits Turgen in the corner a box one foot square, with five tine; 10 do Burning Fluic; 5 do Cod Fish Oil; 160 Qtls Cod Fish; 50 do Pollock; 500 Bags Liverpool Salt; 300 do fine do; 25 Hh s Bright P. R. Sugar; let the front be open except a four inch strip for protection to each nest. Let the roosts be in the shape of a ladder. Your house is finish-

Keep two inches of sand upon the floor; put in a box for ashes; another with slacked lime; one with gravel; one with old lime mortar. Occasionally throw upon the floor dry muck, plaster, ashes, and lime dust sparingly.

Feed as nature requires, corn, oats, buckwheat, screenings, boiled potatoes, cabbage, Indian meal ground with the cob. apples, cut hay, warm pudding, with a little sulphur mix ed with it, and " many other things too numerous to mention."

Fresh water or milk always, as well as feed, on hand. Give them fresh-boiled meat three times a week; fail not at your peril.

In cold days let them stay in. In warm tions and your hens will lay in winter as well lotte has State-rooms well fitted up, and affords exceller, accommodations either for freight or passengers. The 14th of December I found the -we have sold five hundred and fifty-two eggs, or forty-six dozen of eggs for \$10, minus two cents, and the hens continue laying.

Hens kept in this way will lay in the summer as well as if they were idle in the winter; but two years will use up any hen; therefore, sell the old, and keep the young. I bave kept from three hundred to five hundred kens for years, and if rightly managed they are profitable ; if not, vice versa .- Rural American.

# Agriculture.

[From the Examiner. The Farm and Garden.

MATERIALS FOR THE COMPOST-YARD.—The old dung from decayed hot-beds is a favorite manure with most cultivators, and it is very useful for general purposes, provided it has been frequently turned, and well handled by the spade. But the most useful manure of G.F. Everett & Co. all, is very old cow dung. This should be, at least, twelve months old, resembling in its appearance well-reduced peat soil. Sand is another important article to add to the compost-yard-indeed, a material that cannot be dispensed with. There is scarcely a compost made up by a good gardener, but sand, in greater or less quantity, finds a place in it. Sand for this purpose should be a very sharp, fine and clean. A compost-yard must be perfectly dry beneath, no water must lodge there, or the composts will be seriously damaged. All soils, or composts, should, at all times, be piled up in the form of a sharp ridge, in order to exclude rain, which deprives them of their virtues. and anded boo

Causes of Canker .- The opinion that canker is occasioned by the weakness of a tree's constitution, by a distemper in all its juices, or by a deficiency in its functional energies, and by a consequent inability to imbibe and elaborate sufficient nourishment for TRY IT. existing organs, and sufficient matter for the formation of new parts—this opinion makes ample allowance for the malign influence of bad climate, bad soil, bad cultivation, bad variety of tree, and all sorts of accidents and unfavorable circumstances. Johnson maintains that all facts unite in confirming the opinian that canker arises from the tree's weakness. It matters not whether its energy is broken down by an unnatural rapidity of growth, by a disproportioned excess of branches over the mass of roots, by old age, or by the disorganization of the roots in an ungenial soil, they render the tree incapable of ex tracting sufficient nourishment from the soil, consequently incapable of developing a sufficient foliage, and, therefore, unable to digest and elaborate even the scanty sap that is supplied to them. SAVE PLUMS FROM THE CURCULIO .- A iquid may be applied after the curculio has

begun its ravages, which will not only save

Brought up in expensive habits, they spend as follows: One peck of unslacked lime, six

CHOLERA.

A certain eure for this disease may be found in the use of Perry Davis' Vegetable PAIN KILLER.

Sr. Louis, Mo.

Dear Sir :—I felt it a duty I owe to the public, to make known the value of Davis' Pain Killer, and my experience in using it for some of the complaints for which it is highly recommended. In April last, on your recommendation, I purchased a one dollar bottle of you for pains with which I have long been afflicted, and made use of it on my trip down to New Orleans, with the most gratifying and heneficial effects. On my return trip to this city, the Cholera made its appearance among some of my nascengers. A made appearance among some of my passengers. A made use of the Pain Killer, having no other remedy on board, and to my surprise and gratication found it gave immediate relief. On my arrival in St. Louis, I gave immediate relief. On my arrival in St. Louis, I called on you and got four large bottles, and stated to you my confidence in it as an infallible Cholera remedy, and remarking to you that I wanted no other Cholera remedy on my boat. I made use of the four bottles on my trip to New Orleans and back, for Cholera and some other complaints for which it is recomlern and some other complaints for which it is recom-mended, and met with the most astonishing success— when I ordered from you six more one dollar bottles. Since then I have made two more trips to New Orleans and back, and on my previous trip up, I had more than Seventy cases of Cholera on board, when the PAIN KILLER was immediately used with the most astonishing results. In all cases where it was most astonishing results. In all cases where it was used in time it gave relief in a very short time; and I can with confidence say to the public, that in all of the first stages of Cholera, when taken in time, it is in my opinion an infallible remedy: and after a fair trial with it for several wocks, and for four trips to New Orleans and back, and using it for Cholera and for other complaints for which it is recommended, no consideration whatever would induce me to leave port without a good supply—believing it to be a medicine that no officer of a boat or any family would be with-

out a single day after using one bottle.

J. M. BROADWELL, Capt. Stm'r Atlantic.

I most cordially unite with Capt. Broadwell in recommending Perry Davis' Pain Killer to the public, having myself been severely attacked with the Cho-lera, and found relief in a few hours by using the Pain Killer, and have administered it to more than fifty persons attacked with the Cholera, and when used in time, a cure was effected in a few hours, and take pleasure in recommending it to the public as an invaluable medicine, that no individual should be with

out a single hour.

JOHN N. BOFFINGER, Cl rk Stm'r Atlantic. DAVIS' PAIN KILLER.—The certificates appended from the captain and clerk of the Steamer Atlantic, we know to be genuine, and founded on facts, as they verbally stated in our office the substance of

ROUSE'S POINT, Clinton Co. N. Y.

Perry Davis—Sir:—The benefits I have received from the use of your invaluable remedy, the Pain Kil-ler, induces me to pen a word of praise for it. Experi-ence has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, Severe Chills, Weakness, Common Colds, Iloarseness, (HOLERA, CHOLERA MORBUS, Diarrhoea, Dysentary, Tooth Ache, a.c. &c. there is nothing better than the Pain Killer. I have this hour received from a severe attack of the Sick Headache, using up two teaspoonfuls, taken at thirty minutes nterval, in a wine glass full of warm water. I am confident that through the blessing of God, it saved me from the cholera during the summer of 1849 Travelling amid heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my sys tem was daily predisposed to dysentary, attacks, ac-companied with pain' for which the Pain Killer was a sovereign remedy: one teaspoonful curing the worst case in an hour, or at most, half a day !—My brothers in the ministry have used it with much success in various diseases. I have heard many cases the country over, of Dysentary being cured by its use. Put in the teeth, it would stop the tooth-ache. Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its

Sold by Fellows & Co., St. John, N. B., and by Druggists and medicine dealers generally.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.—DR. KENNEDY, of Rex-bury, Mass., has discovered in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a co and never failed except in two cases (both thunder humour). He has now in his possesion over two bun-dred certificates of its virtue, all within twenty miles

Two bottles are warranted to cure a nursing sore One to three bottles will cure the worst kind of pin

ples on the face.

Two to three bottles will clear the system of biles. Two bottles are warranted to cure the worst canker n the mouth and stomach Three to five bottles are warranted to cure the worst

case of crysipelas.
One to two bot\*les are warranted to cure all humor Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt

and running ulcers. One bottle will cure scaly eruption of the skir.
Twoto three bottles warranted to cure the worst case Two to three bottles are warranted to cure the most

desperate cree of rheumatism.
Three to par bottles are warranted to cure the salt Five to eight bottles will cure the worst case of scro

A benefit is always experienced from the first bottle and a perfect cure's warranted when the above quan

tity is taken.
Reader, I peddled over a thousand bottles of this in case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day: in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the vicinity of Boston. I know the effect of it in every

business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found

medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who ave seen more of it than I have.

I know of several case of Decrease of the control of the contro

1 know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known. No change of diet ever necessary. Eat the best you can, and enough of it.

No change of diet ever necessary. Eat the best you can, and enough of it.

DIRECTIONS FOR USE.—Adults, one table spoonful per day: Children over ten years a dessert spoonful. Children from five to eight years, a tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.
