THE FALL OF KARS.

In referring to the fall of Kars, The Times, of Thursday, while admitting that it is a considerable triumph, shows that it is only temporary. The Times says :- Erzeroum is fortified even more strongly than Kars, and we believe that General Mouravieff will lapse before commencing a contest similar to that in which he has been so narrrowly successful. By the beginning of the summer the Allies have it in their power to carry on war in earnest in Asia as well as in the Crimes or the Baltic. The least chance of successful and lasting aggrandisement would suffice to call down such an invasion as would speedily make the Russians tremble for Georgia itself. We have, therefore, no cause to be discouraged, although it would be absurd to affect inlifference.

MINGRELIA.

The Military Gazette of Russia learns that Prince Bettofe has fixed his head quarters at Kutais, and intends very shortly assuming the offensive against the Turkish armies, They are lying encamped at Anaklada and Redoubt Kaleh.

The Cologne Gazette publishes the follow-

THE NEW RUSSIAN LEVY : MORE BANK SUS-PENSIONS.

A letter from Hamburg, of the 7th instant, in the Moniteur, says :

" According to accounts from St. Petersexecution throughout almost the whole emmeets with coasiderable difficulties. In he parts of the empire bordering on Prussia the greatest discontent is experienced. Desertions are frequent; and the misery must be very severe, to force men to adopt a step which is attended with such danger. The Imperial Bank of Odessa is not the only one that has suspended payment. The same has taken place in other Government establishments of the same kind."

THE NEW RUSSIAN LOAN. This is, if we mistake not, the third attempt that has been made by Russia to raise a loan upon the Continent since the beginning of the war. Her two former proposals failed, and the success of the present application is exceedingly problematical. The assertion that the loan has been contracted for is, it is presumed, pertectly unfounded. The arrangement entered into is supposed to imply merely an engagement, on the part of certain firms, to act asagents for the Russian Government in offering to the public the new stock now proposed to be created. The Russian Government, of course, will pay a commission upon such sum as shall be raised. Subscribers to this stock, however, will lie under several serious disadvantages, inasmuch as England and France will have a perfect right to demand of the Government in whose states the loan is announced, a prohibition of all recognized dealings in it on the Bourse. It may be inferred, to, from the manner in which a similar attempt was made by Russia in Northern Germany some months ago, that the Gov. rnment will be glad to dispose of parcels of the new stock, at prices far below those ostensibly fixed. This knowledge can only end to disparage the whole negotiation, and o discourage applicants, each of whom will lear that he may be undersold in the market by a next subscriber. A fall has at once taken place in Russian Securities upon all he Continental markets, amounting to 2 per cent, at Hamburg, 3 per cent. at Berlin, and per cent. at Amsterdam .- Daily News.

THE LATE SKIRMISH IN THE CRIMEA. The Globe, alluding to the recent affair in e Crimea, on the 8th instant, says, "It was sibly a simple reconnoisance, with the view lesting the vigilance of our allies, and of astaining whether a surprise was practicable that quarter. These small incidents of warmay be expected to occur throughout the er; but the enemy is mistaken if he exels that he can make any impression on the meh position in the valley of Baidal.

REDUCTION OF THE AUSTRIAN ARMY.

The alleged reduction of the Austrian army is explained by the Globe, as not having the importance which has been attributed to it, It is true, says the Globe, that numbers of the Austrian soldiers have been allowed to leave their regiments, and return home. These men, however, are all soldiers of experience. They are all liable to serve again, and the nature of their furloughs are such that a very landing the mails and passengers. few day's notice would suffice to render every one of them again effective for service. The measure, we believe, is dictated by motives of economy, both of money and of men. The place of the old soldiers thus sent from their have been drawn from it.

VALUEY.

The Moniteur announces that the Minister dispatch from Marshall Pellissier:

The news is important. The present position of peace prospects is this-it may be remembered that Austria made suggestions of certain terms not known to the public, which the Austrian Cabinet considered might constitute a basis for pacific negotiations. These suggestions Austria regiments is supplied, to some extent, by re- sent to Paris through the French Minister at Vicruits. The measure in reality is one rather enna. The French Government sent a copy of of increase than of diminution, and, therefore, such suggestions to London, and much correspondoes not fairly warrant the conclusions that dence ensued between London and Paris, resulting in the original suggestions being sent back, altered by France and England, to Vienna. NO FAMILY SHOULD BE WITHOUT THEM.

We speak of M'Lane's Liver Pills, which have become an indispensable Family Medicine. The frightful symptoms which arise from a deceased Liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepatic derangement—and for these Dr. M'Lane's Pills are a sovereign remedy. They have never been known to fail, and they should be kept at all times by families.

DIRECTIONS.—Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more, A slight breakfast shoul I invariably follow their use.

The Liver Pill may alse be used where purging is simply necessary. As an anti-billious purgative, they are inferior to none. And in doses of two or three, they give astonishing relief to sick headache; also in slight-derangements of the stomach.

If Purchasers will be careful to ask for Dr. McLane's Celebrated, Liver Pills manufactured by Fleming Bros. of Pittsburgh, Pa. There are other Pills purporting to be Liver Pills, now before the public. Dr. McLane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all the respectable drug stores. None genuine without the signature of FLEMING BROS.

CARD.

To those wishing to purchase good Piano Fortes, I shall be happy to communicate gratuitously such knowledge as will enable them to secure what they desire without risk, either from England, France, or America, as may be preferred. To make the Piano a desirable Instrument, it must possess certain qualities; what these are, and how the instrument should be tested, will be explained.

tested, will be explained.

Nusical progress is enhanced, and a true taste acquired, nearly as much from the quality of the instrument used, as from the style of the compositions practised

DAGUERREOTYPE, AMBROTYPE, AND CHRYSTALOTYPE ROOMS.

BARLOW'S CORNER, KING STREET.

THE Proprietor would most respectfully solicit a call from the Ladies and Gentlemen of this City, to his Rooms, and examine the beautiful and excellent specimens of these new style of PICTURES, called the AMBROTYPES. This new method of taking Pictures resembles a Mezzotint, and has a life-like roundness and softness, which is not attainable in a Daguerreotype; and being taken on Glass instead of a metallic surface, is not subject to change or corrode. A further advantage it has, is that the face of the setter is not reversed, nor is the view of the picture affected by the position in which it receiver the light,—Whoever wants a bold life-like LIKENESS, with none of that inanimate chalky flatness so inseparable frem of shat inanimate chalky flatness so inseparable from a Daguerreotype, and in all respects far superior, would do well to visit my Rooms, (as I am the only Artist who can take Ambrotypes in this City.).
