

NOVA SCOTIA.

FOR AUSTRALIA.—The fine brigantine "Active," Irvine, master, left Commercial wharf on Thursday evening last, for Melbourne, Australia. "Active" is owned by Mr. David R. Gabriel who has again embarked for the gold regions. The vessel had been recently coppered and put in excellent order at New York, where the provisions for the voyage were mainly provided. A great number of persons of both sexes visited the vessel previous to her leaving port. Capt. Irvine has the reputation of being a clever shipmaster, and we have no doubt that the voyage will prove a pleasant one to all concerned. The following is a list of the passengers:—Patrick Murphy, Mrs. Murphy, 7 children and servant, John Trew, William Gabriel, Mrs. Gabriel, Mrs. Irvine and 2 children, Mrs. Cross and son, John Sheers, Henry Deal, Alexander Wiseman, Mrs. Wiseman, D. R. Gabriel, Mrs. Gabriel, Mr. Parker, Joshua Mahoney.—*Chron.*

In connection with the above we regret to say that two young men from the families of two of our first merchants, clandestinely left their homes, and two days after the sailing of the vessel their friends discovered that they had secreted themselves in the vessel and were gone with the other passengers. We are not aware how far the Captain and owners of the vessel were cognizant of their intention, but if they had any previous knowledge of it, which can hardly be doubted, the heartlessness of taking them away from their homes to endure much danger and suffering themselves, as well as involve their friends in deep distress, deserves the severest reprobation. As they were both minors, we doubt not that the parties concerned have dealt themselves open to legal damages.—*Chris. Mes.*

CANADA.

SIR EDMUND HEAD.—We understand that at a public meeting of our French Canadian citizens, held last evening, it was unanimously carried on motion, that they shall not turn out to receive his Excellency on his visit to this city on Saturday. The reason assigned for this discountenance if not disloyal determination, is that His Excellency in an after-dinner speech at Hamilton, last year, had cast some reflections upon them as being of an inferior race to those of British origin; which charge His Excellency in his reply to the Address of the Corporation of Toronto, on taking up his residence in that city, most distinctly denied. Now, we would ask, how does this continuation comport with the fact of the members of the Philharmonic Society chiefly composed of French Canadians and, with two exceptions, all Roman Catholics, with their earnest request that he would be pleased, not only to become their Patron, but also to countenance the same by his presence at their Concert on Saturday evening next. Could impudence further go? We trow not. We trust that should our Canadian citizens adhere to their resolution of last evening, His Excellency will find some other agreeable mode of spending Saturday evening, than becoming the fool of those who appear to despise him; and that the audience will be found to consist of French Canadians alone.—*Ottawa Times.*

UNION OF THE PROVINCES.—Let us rejoice and be thankful that this great Provincial undertaking has been so far completed; and let us hope that the extension of the line eastward till it reach the ocean on British territory, will no longer be sneered at and obstructed by the illiberal jealousy of our western brethren. The Provinces of British North America must be firmly clenched together by the talons of the Iron King, one with another, and without the intervention even of friendly neighbors, and in these days of clouded politics, the sooner, the better.—*Quebec Chronicle.*

DISTURBANCE AT BRANTFORD, C. W.—The Brantford *Expositor* gives an account of a serious riot in that town on Friday night. A Mr. Lund who keeps a boarding-house in the rear of the depot, sent away a number of his boarders, railway laborers, who became much enraged at him in consequence, and having obtained liquor enough to make them reckless, returned to Lund's in a body. After driving him and his bar-keeper out of the place they took possession. A constable named McQuillan, having been sent for, came to the spot, but was set upon by a man named Shannon, assisted by a number of his comrades, who desperately wounded him, leaving him for dead in the house. A number of the ringleaders have since been arrested and committed for trial.—*Montreal Pilot.*

EUROPE.

RUSSIA.—The coronation festivals at Moscow have nearly come to an end, and the assiduous reporters are winging their way home from the stormy North. Three prominent incidents are recorded in the letters from Moscow—the dinner given by the merchants to the army, the feast of the people on the Kadinka plains, and the supper of the mujiks in the Kremlin.

The first division of the Russian squadron of evolutions, under Vice-Admiral Schantz, has received orders to be ready for sea. Its destination is said to be the Bay of Naples, and its presence there is no doubt intended as a demonstration in favour of the King and against France and England.

The disagreement with Russia respecting Belgrade and the 1st of September has led to the adoption of some rather hostile movements on the part of England. Admiral Houston Stewart is to return to the Black Sea, and the squadron of Admiral Lyons is to receive reinforcements.

AUSTRIA.—The *Times* Vienna correspondent writes on the 25th ult., that the state of the Neapolitan question continued to give uneasiness to the Austrian Government, which appears to look with some suspicion on the more recent movements of France.

The Paris correspondent of *The Morning*

Post says:—"I have received a strange communication to-day, which, however, is declared to be founded on good authority. It is asserted, that Austria has agreed with Naples to get up political demonstrations in various parts of Italy, should the English and French fleets appear in the Bay of Naples. These demonstrations will be organized by the police, and are to express Republican opinions. M. Hubner is said to have been the medium employed to agree with Naples on this policy. Austria will thus turn to the Western Powers, and exclaim, 'You see what your interference has done; you have encouraged republicanism throughout Italy!' Events alone will show if there be any truth in these assertions: I give them just as I receive them."

A letter from Vienna, of the 25th September says:—"A conference, which lasted a considerable time, took place yesterday between Count Buol and the French, English and Neapolitan Ambassadors. After the conference, despatches were sent off by the latter to their respective Cabinets, and it is now stated that the English and French demonstration will be adjourned for a short period, in consequence of the representation of the Austrian Cabinet."

The *Times*' correspondent states that Austrian finances are in an infinitely better state now, than they have been for the last eight years. An outcry has been recently raised in Paris and London at the great dearth of silver, but it does not seem to strike the foreign public that almost £4,000,000 of the missing coin is now lying in the Vienna Bank, and a long time will elapse before the £8,700,000 in silver, which forms its reserved fund, will again find its way into circulation.

SPAIN.—The Madrid *Gazette*, of the 24th ult., contains the decree which suspends the *desamortissement* of the estates of the church in Spain. The decree is found to be without a preamble, a precaution, it is to be supposed, designed to exclude any admission of which the Court of Rome might take advantage in the approaching negotiations. All officers of the army residing at Madrid, who did not present themselves to the authorities in the *coup d'etat* of the 14th July, and those who having presented themselves do not possess property or families in the capital, have been ordered to leave Madrid and to reside at a distance of twenty leagues from it. A letter says:—"The sequestration on the property of Queen Christina has been removed by royal ordinance." The Government is about to send a squadron mounting two hundred guns to the Mediterranean.

General Narvaez has received his passports, and was to leave Paris for Madrid on the 2nd.

TURKEY.—The Sultan has accepted the decorations of various Orders from England, Prussia, and Portugal; and has sent a splendid diamond necklace to the Empress of Austria. The authorities are ordered to aid and protect General Chesney and his comrades in their operations for the Euphrates Railway. The English telegraph from Varna to the Bosphorus is broken. Greece is tranquil, except on the frontiers. Unfavorable news from the Sea of Azoff has caused a sudden rise in grain. It was said that the Porte had annulled the acts of Prince Gika, out of complaisance for Austria. Admiral Stewart has received orders to remain in the Euxine.

The Prince of Montenegro has issued a diplomatic document to the European Powers, in which he says:—"The claims of Montenegro are confined to the following points:—1. Diplomatic recognition of her independence. 2. Extension of her frontiers towards the Herzegovina and Albania. 3. Definitive settlement of the boundary line towards Turkey, such as it exists for the Austrian frontier. 4. Annexation of the port of Antivari to the Principality."

The Berlin correspondent of a Frankfurt journal states that a second note has been addressed to Russia on the subject of the Isle of Serpents by Great Britain, and that its tone is more peremptory than that of the former note; in consequence of which the irritation which was felt by each party has been much augmented.

NAPLES.—No apparent progress has yet been made in the endeavor to effect a settlement of the Neapolitan question. The French journals continue to speak of the combined expedition as a project suspended in order to give time for a final effort to be made at Naples by General Martini, on the part of Austria. The partisans of the King of Naples boast of the immense "moral support" which his Majesty cannot fail to find in the circular of Prince Gortschakoff.

Recruiting for the army of the King of Naples, according to the Augsburg Gazette, is going on with great activity in Switzerland, and every week are to be seen fresh detachments of Swiss soldiers, who have been enlisted in that service, marching through Bormio, with cries of *Vive le Roi Ferdinand!* A telegraphic despatch from Naples, of September 25th, says:—"The arrival of the Allied squadrons is expected daily. The English fleet has arrived at Ajaccio, the appointed rendezvous. The Russian circular is generally known here. This declaration however, has produced rather a moral than a material agitation. The preparation of the batteries and defences goes on; the King, at Gaeta, is busy in superintending the armament of the works. The minister has offered a pardon to Poerio and Settembrini, is they will solicit it at his hands. They have refused to do so. King Ferdinand has proposed a customs union with Austria, but difficulties as to the superintendence have stopped the project." The *Times* has the following from Paris:—"A telegraphic despatch from Ajaccio, of the 30th Sep., announces the arrival of two English ships of war at Malta, and another despatch dated from Toulon, informs us that the French fleet was still there. Moreover, Admiral Trehouart has been called up to Paris, no doubt to meet the Emperor before any decisive step is taken."

The re-examination of Captain Acuti in connection with the statement he had made that the King had authorized the illegal lashing of some of the Neapolitan political prisoners, took place on the 23rd ult., when the witness said that either he had misunderstood the court, or the court had misunderstood him.

but that "it had been his intention to say exactly what the court had said." His meaning was, that he had not received a direct order from the King, but from the minister in the name of the King, and that such an order was called "rescript of the fourth class." The political trials have at length been concluded, the Attorney-General summing up the case for the Crown on the 24th. Against three of the prisoners—Mortati, Avitabile, and the priest—he declared the proofs to be insufficient. "The others," says the *Times*' correspondent, "will probably be condemned to perpetual exile; but this will remain for the consideration of the judges. Already, however, be it remembered, they have suffered fourteen months imprisonment. In the course of his speech, the Attorney-General denounced twice, as revolutionary in its character and tendencies, a work of Massimo d'Azeglio, entitled 'Il Lamento dei Lombardi.' This book had been found in the cell of Padre Ruggiero. Whenever the term 'liberal' was introduced, it was evidently as a term of opprobrium."

Belgium.—The Belgian Government is at present engaged in a series of scientific inquiries, with a view to the vigorous prosecution of the deep sea fishery on the coast of Scotland. Beyond certain limits, foreigners are permitted to fish on the British coasts, and Belgium is determined to take advantage of the tracks by which herrings reach the Scotch shores to deposit their spawn. A few weeks ago, the officers of the Atalanta, in pursuing their inquiries off the Orkney Islands, fell in with a shoal of herrings; information was speedily communicated to the nearest Belgian boat on the coast, the fishermen in which proceeded to the spot where the fish were seen, and at the first haul their deep sea nets got sixty barrels of fish of the finest quality. The Belgian government is determined, therefore, to take advantage of the wealthy mine thus opened.

Switzerland.—The National Council of Switzerland, on the 27th ult., passed a vote unanimously that the Republicans of Neuchâtel had deserved well of their country, and that the Federal Government ought to persist in the conduct which it has hitherto followed. The Council of the States passed a similar vote, also without a dissentient voice.

The Grand Council of Neuchâtel has voted, by a majority of forty-eight to thirty-one, the dissolution of the bourgeoisie, the creation of a municipality, the expulsion of the compromised clergy, and the dismissal of officials who had secretly or openly aided the late insurrection.

Swords of honor have been voted to Colonels Denzler and Girard.

DENMARK.—All the Ministers of the King, with the exception of M. Scheele have resigned. The real cause of this split in the Cabinet is not yet known, but it is very generally rumored that it is connected with certain proposals for changing the law of succession in order to unite eventually the three Scandinavian kingdoms under one dynasty.

SWEDEN.—A mixed commission of six Swedes and six Norwegians has been appointed to meet at Christiania, under the presidency of the Norwegian Viceroy, for the better determination of the act of union between the two countries. Among other uncertainties, the mutual obligations of the two countries in time of war are still undefined. This might prove a serious danger in the event of hostilities. It is evident, from the serious attention given to the minutest details of the defence of the country, that the Swedish Government well understands the danger to which the honorable and independent position taken by the signature of the treaty of the 21st November, 1856, exposes it. Sweden appears well disposed to co-operate in raising a mighty bulwark in the North against Muscovite ambition, but she naturally expects that the sympathies of the Scandinavian people will be supported by the Western Powers, and allowed to develop themselves by a still closer union, and that statesmen will more fully understand the capabilities of the north, and its vital importance in the great European question of the day.

NEW ZEALAND.—Advices from Nelson, New Zealand, dated the 20th of May, confirm the report of gold discoveries in the neighbourhood of that settlement. They are at a distance of about twenty miles, and a considerable number of persons were flocking to them. The deposits lie at a depth of about five or ten feet, in a gravelly soil, and consist of flakes, or pieces, ranging from minute grains to the size of a pea. At the latest dates about 300 people were at work upon them, and the report was that no one obtained less than half an ounce a day.

INDIA.—The overland mail arrived in London on Friday night. The latest dates are Hongkong, August 10; Bombay, August 28. It is reported that Herat has been stormed by the Persians, with a loss of 1,500 men; but the intelligence was looked on with suspicion at Bombay. However that might be, active preparations were in progress for a naval and military demonstration in the Persian Gulf. Lord Elphinstone had gone up to Poonah to consult the Commander-in-Chief. The land force employed, it is said, will be 15,000. Dost Mahomed was at Haundahar; and it is reported that Csa Lahn, who defended Herat against the Persians, had repeatedly urged the old Afghan to advance his aid.

WORMS! WORMS!

A great many learned treatises have been written, explaining the origin of, and classifying the worms generated in the human system. Scarcely any topic of medical science has elicited more acute observation and profound research; and yet physicians are very much divided in opinion on the subject. It must be admitted, however, that, after all, a mode of expelling these worms and purifying the body from their presence, is of more value than the wisest disquisitions as to the origin. The expelling agent has at length been found—Dr. M'LANE'S VERMIFUGE, prepared by Fleming Bros. is the much sought after specific, and has already superseded all other worm medicines, its efficacy, being universally acknowledged by medical practitioners.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of PITTSBURGH. All other Vermifuges in comparison are worthless. Dr. M'LANE's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS.
