#### A FEW SHORT YEARS.

A few short years-and then What changes Time hath wrought! So strange they seem, we scarce can deem The world, our life, ourselves are ought. But one long fitful dream. The clouds that fly

Across the sky, Waves tossed upon the sea; Shadows that pass Before a glass, Our fitting emblems be

A few short years-and then Where are the hopes that shone When youth with flowers in wreathed the hours, And earth had but one music tone Of joy for us and ours?

The rainbow's hues, The morning's dews, The blossoms of a day, The trembling sheen On water seen. More stable are than they

A few short years-and then Where is the adamant chain That passion wrought, and madly thought Nor time nor change could ever strain Till life's last strife was fought?

> A rope of sand, A gossamer band, The filmy threads that e'en The spider weaves Among the leaves. A firmer bond had been

Where is Ambition's pile, That rose so high against the sky, O'ershadowing all around the while With its proud boast might vie? A shadow's shade, A card house made By children for their play; The air-blown bells

A few short years-and then

Tha folly swells May vaunt a surer stay. A few short years-and then Where is the mighty crief That wrung the heart with torture's art, And made it feel that its relief

Time's hand could ne'er impart? A siream that's burst And done its worst, Then left the heaven more clear; A nigh mare dread, With morning fled, These sorrows now appear.

A few short years - and then What of our life remains, The smiles and tears of other years, Of passion's jo s, of sorrow's pains, Ambition's hopes and fears?

A SKETCH OF EARLY WESTERN LAFE.

When Kentucky was an infant State, and before the foot of civilization had trouden her giant forests, there lived upon a branch of the Green River, an old hunter by the name of John Slater. His hut was upon the southern bank of the stream, and save a small patch of some dozen acres that had been cleared by his own axe, he was shut up by dense forests. Slater had two childrenat home with him-two sons, Philip and Daniel-the former fourteen and the latter twelve years of age. His elder children had gone South. His wife was with him, but she had been for several years an almost helpless cripple, from the effect of severe

It was early in the spring, and the old hunter had just returned from Columbia, where he had been to carry the produce of the winter's labor, which consisted mostly of furs. He had received quite a sum of money. and had brought it home with him. The old man had several years been accumulating money, for civilization was gradually approaching him, and he meant that his children should start on fair terms with the

One evening, just as the family were sitting down to their frugal supper, they were attracted by the sudden howling of the dogs, and as Slater went to the door to see what was the matter, he saw three men approach-

He quieted the dogs, and the strangers approached the door, They asked for something to eat, and also for lodgings for the night. John Slater was not the man to refuse a request of that kind, and he asked the strangers in. They sat their rifles behind the door, unslung their packs, and room was made for them at the supper table. They presented themselves as travellers bound farther West, intending to cross the Missis sippi in search of a settlement.

The new comers were far from being agreeable or prepossessing in their looks, but Slater took no notice of the circumstances. for he was not one to doubt any man. The boys, however, did not like their appearance at ail, and quick glances which they gave each other told their feelings. The hunter's wife was not at the table, but she sat in her great easy chair by the fire.

Slater entered into conversation with the guests, but they were not very free, and after a while the conversation dwindled to an occasional question. Philip, the elder of the two, noticed the men cast uneasy glances about the room, and he watched them narrowly. His fears had become excited and he could not rest. He knew that his father had a large sum of money in the house, and his first thought was that these men were there for the purpose of robbery.

After the supper was over, the boys quick ly cleared off the table, and then went out of doors. It had become dark or rather the night had fairly set in, for there was a bright moon, two thirds full, shining down upon the

The undertaking was a dangerous one; for the least noise would arouse the villians-and the consequence might be fatal. But Peter Slater found himself strong in heart, and he determined upon the trial. His father's life might be in his hands! This thought was a tower of strength within itself.

Philip opened the window without moving from the bed, and it swung upon its leathern hinges without noise. Then he threw off the sheet and ried the corner of it to the staple by which the window was booked. The sheet was then lowered on the outside, and carefully the brave boy let himself out upon it. He enjoined his brother not to move, and then slid noiselessly down. The hounds had just found the meat, and they drew back at their young master's beck, and Philip gathered the flesh all up. He easily quieted the faithful in the sheet. There was a light ladder But, standing near the dog-house, and setting this up against the building. Philip made his way back to his little loft, and when once safely there he pulled the sheet in after him. The strangers had not been aroused, and with a beating heart the boy thanked Go: He had performed an act simple as it may appear, at which many a stoutheart would chest heaved faintly-spasmodically have quailed. At length the hounds ceased their noise, and all was quiet. An hour passed away, and so did another. #### Mother.

A little girl, in a family of my acquaintance, a lovely and precious child, lost her mother at an age too early to fix the loved features in her remembrance. She was as frail as beautiful, and as the bud of her heart unfolded, it seemed as if won by that mother's prayers to turn instinctively heavenward. The sweet, conscientious, prayer-loving child was the idol of the bereaved family. She would lie upon the lap of the friend who took a mother's care of her, and, winding one wasted arm about her neck, would say :- " Now tell me about my mamma?" And when the oft-told tale had been repeated, would softly ask, "Take me into the parlor, I want to see my mamma." The request was never refused; and the affectionate child would lie for hours, brutes, and then he quickly tied the meat up contentedly gazing on her mother's portrait.

"Pale and wan she grew, and weakly-Bearing all her pains so meekly. That to them she still grew dearer, As the trial hour drew nearer.'

All at once a brightness, as if from the upper world, burst over the child's colorless countenance. I demanded of my physicians, after several things had been tried, to give me several things and been tried, to give me something to relieve my back and head of pain. He said I must bathe, and wait till the ague wore off, and the pain would wear away. I had too much pain to feel easy; and sent and got a 25 cent bottle of the "Vegetable Pain Killer." K ENNEDY'S MEDICAL DISCOVERY.—
The Greatest of the Age.—MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases and never failed except in two. He has now in his essesion over two hundred certificates of its value all within twenty miles of Boston.

One to three bottles will cure the worst kind of pin: Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker the mouth and stomach Three to five bottles are warranted to cure the wors ase of ervsipelas. One to two bottles are warranted to cure all humo

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed, growing in the pastures, and along old stone walls should cure humor in the system yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has alread done some of the greatest cures ever done in Massa chusetts. He gave it to children a year old; to old people of sixty; and has seen poor, puny looking children, whose flesh was soft and flabby, restored to perfect state of health by one bottle.

To those who are subject to a sick headache on bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. A child in Congress Street was cured by the Soothing Syrup, of infantile Dysentery or Diarrhoa, after being given over by the attending physician. Mr. Blackman, of Eddington says it has never failed to cure the Dysentry or Diarrhoa in children whenever used in the village. Lots of it is seld. One parent informs me his child has sufof it is sold. One parent informs me his child has suf-fered to an alarming extent with Flatulence or Wind Cholic. But they have used the Soothing Syrup, and it effects a sure cure. Hundreds of like instances might be enumerated, MOTHERS TRY IT. Hear the Prooklyn Daily Advertiser, of June 13th:

We cheerfully comply with the request of a friend to insert the following letter, which we are assured is from a lady of the first respectability, residing in Lowell

Mass.

DEAR SIR :—I am happy to be able to certify to the efficiency of Mrs. Winslow's Soothing Syrup, and to the first what it is represented to accomplish.—Hav ing a little boy suffering greatly from teething, who could not sleep and at night by his cries would not permit any of the family to do so, I purchased a bottle of the Soothing Syrup in order to test the remedy.—and when given to the child according to the directions, sit effect upon him was like magic, he soon went to sleep, and all pain and nervousness disappeared. We have had no trouble with him since; and the little fellow will pass through with comfort the excruciating process of teething, by the sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children, should possess it. Lowell, Mass., May 20, 1853. H. A. ALGER.

MEDICATED INHALATION. — A New Method !—A most wonderful discovery has recently been made by Dr. Curtis forthe cure of Asthmaticonsumption, Bronchitis, Coughs, colds, and all Lung Complaints, by Medicated Inhalation. The Inhaler is worn on the breast under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid.—supplying the lungs constantly with a bearing and agreeable vapor passing into all the air-cells and passages of the lungs that cannot possibly be reached by any other medicine Here is a case of ASTHMA CURED.

BROOKLYN, N. Y., Dec. 20th., 1853.

For about eight years I have been severly afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing and my sufferings, were so great at times that for hours together in the past six years I have had the aid and attendance of some of the most cele basted physicians, but have received no permanent. bsated physicians, but have received no permanen benefit, and but little relief. I at length had the good benefit, and but little relief. I at length had the good fortune to procure Dr, Curtis's Hygeana or Inhaling Hygean Vapor, and Chrery Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost sufficating for want of breath. In less than ten minutes from the time Iapplied the inhaler to my stomach, and took a teaspoon full of the Cherry Syrup I was relieved in a great measure from the difficulty of breathing and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved mc from. My advice to the suffering is—TRY IT.
