

member. He declared, freely that he had committed the deed, that he had been instigated to it by the bad conduct of Clawges, and he expressed no regret at the occurrence.

Mr. Clawges lies in a perfectly hopeless condition; his recovery is pronounced impossible by the physicians. His wife went to the institution last night, and has since remained by the bedside of her dying husband. The sufferer is about forty-five years of age, he has four children living. One of them is grown up. Mr. C. was well known in the city.

From the statement of Mr. Shurlock, it seems that for some time past an intimacy has existed between Mr. Clawges and Mrs. Shurlock. Mr. C. had first been introduced by Mr. Shurlock to the wife of the latter, and he took frequent occasion to poison the mind of Mrs. S. against her husband, by telling her stories of his infidelity to her and striving to undermine her virtue. Clawges, it is alleged, drugged wine in the house of Mrs. S. and then took advantage of her condition to accomplish his bad designs. Quite recently the lady told the story of her wrongs to her husband, and the tragedy of last night was the result. It was further asserted that Clawges had borrowed several sums of money from Shurlock, and his refusal to repay the amounts thus borrowed, has probably added to the indignation of the injured husband.

Mr. Shurlock is about twenty-three or twenty-four years of age; he has been married about two years, and has one child living.

Mr. Shurlock was subsequently sent to Moyamensing Prison in a chaise.

This painful affair has created a great deal of excitement. Both parties, as well known, and the prisoner has hitherto borne an excellent character.—[Philadelphia Bulletin, Nov. 6.]

THE MAN WITH THE WHEEL BARROW.—Boston, Nov. 7th.—Major Ben Perley Poore, late Fillmore Candidate for Congress in the 6th district, arrived in the city this afternoon, with his wheel barrow and barrel of apples, which he had wheeled all the way from Newbury, 36 miles, in two and a half days. The job was in fulfillment of a bet with Col. Burbank, Fremont State Senator elect, that Fremont would get more votes in Massachusetts than Fremont.

The Major, wheeling his apples, was escorted up State street, about 2 o'clock, by the Fillmore Clubs of Boston and Charleston, a military company and mounted cavalcade of citizens. The novelty of the performance collected many thousands, and the Major was greeted with tremendous and tumultuous applause on all sides. He delivered the apples on the steps of the Tremont house, where both gentlemen delivered congratulatory speeches mounted on the barrel. Probably 10,000 people were present.

GROWTH OF NEW ORLEANS.—The commerce of New Orleans for the past year has been larger than for any previous year. We also learn from the *Crescent* that a large number of buildings are in the course of erection in that city, involving an expenditure of more than two millions of dollars. Among them are two splendid churches, two orphan asylums, one Jewish and one Catholic, a Mechanics' Institute, one Medical School, a Jewish synagogue, a cotton press, to cost \$150,000; a house for James Robb, to cost \$75,000; several other houses, costing from \$12,000 to \$35,000 each, and a large number of stores, costing from \$10,000 to 20,000 each. The new Custom House will not be completed in several years. It will cost \$3,250,000. We are happy to record such unmistakable evidences of the prosperity of New Orleans, one of the most patriotic and enterprising of American cities.—*Boston Daily Times*.

THE NEW PRESIDENT.—The domestic policy of the new administration already promises an excitement. Mr. Buchanan, it appears by our telegraphic despatch from Washington, has declared that he is in favor of the admission of Kansas as a free State. Now that he is elected he admits the necessity of his course. The South will be indignant, and efforts be made at an early day to obtain two new States from Texas to offset Kansas in the United States Senate.—*New York Herald*.

Late California News.

New York, Nov. 13th.—Steamer George Law, from Aspinwall 3rd, arrived this morning. She brings San Francisco dates of the 20th ult., and upwards of \$1,600,000 in treasure.

The news from California is meagre. The markets during the last fortnight had been excessively dull, and prices nominal.

The primary elections in San Francisco had resulted in favor of the Broderick faction. The Republicans had withdrawn their County ticket, and adopted the people's nominees.

John Briggs, brother of ex Governor Briggs, of Massachusetts, died suddenly on the 15th.

A collision occurred in Chilton Valley, Mendocino County, between the whites and a party of Indian cattle thieves. Fifty of the latter were killed.

Advices from Southern California state that ex-Governor Gandara had attempted to revolutionize Sonora, but was baffled and fled to the Indians.

Parties had arrived at Tubac, for the purpose of working the silver mines on the Gadsden purchase.

The copper mines were already in successful operation, and large quantities of rich ore were being turned out.

A severe earthquake shock was felt at San Diego on the 20th of September.

LETTER NEWS.—The U. S. ship Independence and sloop-of-war St. Mary's, were off Panama, and the Saratoga off Aspinwall, all well.

Diplomatic relations have been suspended between England and New Granada, in consequence of the latter Government failing to liquidate the Macintosh claim. The British West India fleet has been ordered there to enforce the claim.

SAN FRANCISCO, Oct. 20th.—Since the sailing of the mail steamer of the 5th inst., we have to report a marked degree of im-

activity in our general market. In fact, we have seldom been called upon to chronicle a fortnight of more excessive dullness in business than that which has characterized the one now closing. Orders for goods have come in very sparingly from the country, and the trade who purchased extensively from the fleet of vessels which arrived during the past month, have had, with few exceptions, no occasion to enter the market for additional supplies.

The fresh occasion by the late rains have raised a large number of miners to abandon the rivers and repair to the dry diggings, where, for the want of sufficient water, they are compelled for the present to remain in comparative idleness. The general impression now existing is, that the coming winter will be early and one of unusual severity.

RELIGIOUS AND MISCELLANEOUS.
Rev. J. F. Barbour informs the *Watchman and Reflector* that twenty-five young people in Greenfield Centre, N. Y. have recently given evidence of saving conversion to God.

The *Reflector* reports the death of Alexander M. Beebe L. D., for thirty years Editor of the *Baptist Register*. He died on the evening of the 6th inst. We had the pleasure of forming an interesting acquaintance with this lamented servant of God some twelve years ago in the city of Albany, and we were exceedingly pleased with his intelligent and unassuming piety. The *Reflector* speaking of him says:—

"Of the *Register* commencing its existence if we rightly remember—about the year 1825, Mr. Beebe was the intelligent, judicious, devoted editor, until its union with the New York city paper, within the last two years, and to this he has been an active contributor to the time of his decease. We can call to mind no man among us who has served so long an editorial term, and whose services in that relation have been more acceptably and usefully performed. It is not claimed that he combined every element which is of importance in the religious journalist, but he united qualities which were admirably adapted to the field in which he was called to act—to the times and the necessities of a denomination of Christians, then youthful, and in all their leading agencies of enterprise, and growth, in a formative condition."

The increase of that denomination in the great State of New York, and States adjacent, may be traced in no small degree to such an auxiliary and helper as the *Register* always proved itself. Few men have earned a better record on the roll of a widely diffused usefulness, than our lamented friend. May it be the lot, as the purpose of many who survive, to serve as faithfully their generation, that like him they may live in the memory of those who shall come after, as having "well done."

Good News.—The *Univers*, a leading Catholic newspaper in Paris, says, "In all the Catholic cities of Germany, the statistical returns make it apparent that the number of Protestants is increasing in a fearful manner."

DISEASES OF THE LIVER.
When the celebrated Dr. Rush declared that drunkenness was a disease, he enunciated a truth which the experience and observation of medical men in every day confirming. The many ap, recently issued excesses of those who indulge in the use of spirituous liquors, may be thus accounted for. The true cause of conduct, which is taken for intemperance, is very frequently a diseased state of the Liver. No organ in the human system, when deranged, produces a more frightful catalogue of diseases. And if, instead of applying remedies to the manifestations of disease, as is too often the case, physicians would prescribe with a view to the original cause, fewer deaths would result from diseases induced by a deranged state of the Liver. Three-fourths of the diseases enumerated under the head of Consumption, have their seat in a diseased Liver. Dr. McLane's celebrated Liver Pills, prepared by Fleming Bros, are a certain cure.

Purchasers will be careful to ask for DR. McLANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS. OF PITTSBURGH, PA. There are other Pills purporting to be Liver Pills, now before the public. Dr. McLane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. None genuine without the signature of

The Times throws the greatest possible doubt on statements via Trieste, as published last night's Globe, adding that in the opinion of those best qualified to judge, the Shah had not only not yielded, but was not likely to yield.

LONDON, Friday evening.—The English

funds opened steady this morning, and the improved prices of yesterday, and subsequently, exhibited increasing animation. In the discount market, at the Bank to-day there was a very active demand. It was not, however, beyond what was anticipated for the end of the month. There has been an absence of gold withdrawals.

LONDON, Friday Evening.—[From the Daily News' city article.]—The tendency of the funds is still upward. The market opened at a reduction of 3 per cent, but quickly recovered, and closed 4 per cent, higher than yesterday. Most descriptions of Railway Stock were also quoted higher. To-day's advance in consols was stimulated by some large speculative purchasers, but the investments of the public have also continued. Money was easy in the stock exchange at 4 and 4 1/2 for loans on consols up to the close of the settlement. In shares and foreign stocks there has been but little demand for money. In the discount market to-day there was a steady pressure. The Three per Cent. are reported by telegraph, as closing to-day at about 1 1/2 per cent, higher than yesterday. The purchasers appear chiefly to have been speculators.

MARSEILLES, Oct. 21.—Intelligence from Constantinople of the 26th, state that in reply to a demand by Baron Bouteneff, the Russian Ambassador, Lord Lyons has stated that the English squadron will remain in the Euxine till the stipulations of the treaty of Paris are fully carried out.

The copression of the Turkish railways has been granted to the houses of Stieglitz A Hope, Periere & Hottinguer & Son, and other German bankers.
