Steves was among the sufferers by the fire. He had just fitted up a fine dwelling house and office at considerable expense, both of which were consumed, We believe, however, that he was tolerably well insured.

RAILWAY PROGRESS.—We understand that it is intended to survey, focate and put under contract, those portions of the E. and N. A. Railroad extending from Hampton to Sussex Vale, about twenty five miles, and from the Bend to Salisbury, fifteen miles, this fall.— We think this a good arrangement for two easons; first, from the abundant harvest and prospect of cheap provisions and dulness in trade in the Province, these contracts will probably be taken at low rates, and afford employment to many who otherwise would have to leave the country, and second, because until the Railway is connected and running through, it can neither benefit the country as it ough to do, nor begin to pay. We hope to see at least two steamers next summer between St. John and the Bend .-One stenwer iri-weekly between Shediac and Miramichi and a line of propellers between Quebec and Sheding.

This will connect North and South, and we believe will bring a new era in the Provincial basiness. There is now we believe, every reason to hope that the trains will ran by the 12th June next to the nine-mile house from S . John .- Courier.

By Telegraph to the News Room. Arrival of the "Baltic." Four Days Later from Europe

andilated Boston, Sept. 14 The "Baltic" arrived at New York

day. English papers discredit French rumors of mutiny at Bombay.
The French settlements in India are tran-

quil. Private letters say that the mutineers are short of ammunition. CHINA.

A correspondent of the London "Times" gives the following as the course resolved upon by Lord Elgin: —He will proceed with 6 vessels to the mouth of the Pei Ho, near Pekin, whence he will it insmit to the Emperor a letter, requiring him within a specified time either to recognise or repudiate the acts of his officers at Canton, If he repudiates and makes compensation for the past and gives security for the future, well; if otherwise, Lord Elgin will declare war, occupy Canton, and take further measures to bring the Emperor to terms.

The news from India is again sufficient to y patience, but not to shake confidence. he Bombay despatce confirms, it is true, the orst communications from Calcuta, leaving Delhi still in the hands of the mutine rs : but t adds other facts which are on the whole encouraging. Sir Henry Barnard, who died of cholera on the 5th of July, was succeeded in the command by General Reid. The date from the camp is the 14th, when the new commander did not deem his force sufficient for attack. There is reason to reckon the Europeans at 7000 men; but, with due regard our extended positions, not more than a hird of these could be spared for an assault. in outside skirmishes, however, we continued to be successful, having repelled, with loss to the enemy, three sorties since the preceding

Besides Sir Henry Lawrence, we have to. ament the death of another gallant defender a Sir Hugh Wheeler. The little garrison of ucknow still held out, no withstanding the fall of its cistinguished commandant.

But Nana Sahib, the monster who whetted his appetite for blood on women and children, verpowered the little band of heroes enrenched near Cawapare. Constrained by lunger, they capitulated under promise of eing spared; but the perfidious wretch detroyed every man General Havelock, owever, had promptly avenged the death of his brothers in arms and those helpless vica flying brigade of 2000 Eurodeans, he freed the district from the presence of the sive attacks, capturing six-and-twenty guns. Sir Henry Barnard died of Cholera, before Delhi, on the 5th July, and Sir Henry Lawrence, died from a wound on the 4th at

The Mutineers still held Delhi, and on the 4th July had made three more sorties, but were totally defeated in each with a heavy s. Sir Hugh Wheeler was killed at Cawnpore. The garrison, pressed by famine, sur-rendered the place to Neha Sahib, by whom, in violation of solemn promises, all were inassacred. Nama Sah,b was subsequently twice attacked, and utterly defeated with great loss by General Haveleck, who rescued Cawapore. Sahib murdered 240 women and children at Cawapore; amongst the killed at that place are Sir George Parker, Col. Williams, Brigadier Yack, audother officers. On the 5th July, an obstinate battle was On the 5th July, an obstinate buttle was fought before Agra, etween the Garrison of hat place and the Neemash inutineers, who had marched thither with reinforcements, which brought their numbers up to ten thousand men. The British forces were obliged to retire with heavy loss, having several officers killed. Two native regiments had mutirs killed. Two native regiments had mutinied at Salkote. At Punjaub, on the 19th o July, they massacred Captain Bishop, Dr. Graham, Rev. Mr. Hunter, with his wife and shild. The remaining Europeans were safe a a fort. These mutineers were totally befeated on the 16th.

At Moeiut, General Hewitt had been removed from the Command for Supine-

Davis' Pain Killen.—I was attacked with dysentery, and it soon became very distressing; I used this medicine according to the directions, and was cared in three days. My wife was also attacked with pain in the stomach, in consequence of cating too soon after aft of sickness; she was relieved in a few minutes after taking this medicine. To use her own words, she said she felt the pain remove after she had taken it, as quick as you could see a lump of stigar dissolve in coid water. My son was burnt so badly the skin was off; I applied the medicine immediately, and it took the fire out and healed the wound in less time than I ever saw one healed before. The of my children felt over a chair and bruised its head very bad, but the bruisse was soon dispersed by bathing in this medicine. I will mention one case more of its wonderful effect in curing a wound inflicted by my son's falling out of drors and cutting himself badly; the pain was soon releved, annithe wound healed by this medicine. I was family the pain was soon releved, annithe wound healed by this medicine.

THE NEW-YORK TRIBUNE. 1857-8.

THE TRIBUNE was first issued as a Daily on the 10th of April, 1841. Its Weekly edition was commenced in S. ptember of the same year; its Semi-Weekly in May, 1845. It was the first daily in America to issue a double or eight juge sheet at a low price, and a has kept at least even with the lowmost of its rivals in the rapid expansion of News-paper enterprise, which the great extension of Rail-roads, and the establishment of the Telegraph system have crowded into these last exteen eventful years. No larger journal is afforded at so low a price in any quarter of the world; none in America, no matter at what price issued, pays an equal amount, weekly or monthly, for intellectual labor. It empoys correspondents regularly in the leading capitals of Europe, and at the most important points on this continent, with a liberal staff of writers and reporters at home, regarding (all, carly and accurate Information as the first object of a Newspaper, and the timely and thorough elacidation thereof as the chief end of its Editories. In that spirit, THE TRIBUNE has been and will be conducted, extending and perfecting its correspondence so fast as the increase of its patronage will justify the expense. Should the current attempt to consect the Old with the New World by the magnetic wire prove successful, we shall very soon at a heavy cost to ourselves and, we trust, a correspondmg advantage to our readers publish each morning a expopsis of the preceding day's occurrences throng hout Europe, Northern Africa and Western Asia, with regular reports of the markets, the monetary aspects and harvest prospects of hither Europe. With a good atlas beside him and his daily paper on his fireside table, the American farmer or artisan within a day's rule of the city may then study each evening the doings of the civilized world throughout the day preceding; and a seems hardly possible that any who can read, but especially one who has children to educate, will longer deny himself the pleasure and protatofa daily jou and. The same is true measurably of those who live tur her inland; though, where mails are infrequent, a Semi-Weekly, or even a Weekly

proper, may seem sufficient.

THE I'RIBUNE deals with questions of Political Economy, Public Policy, Ethics, Material Progress and whatever may affect the Intellectual, Moral, Social and Physicial well being of manking, dogmatic Theology alone excepted. Its leading idea is the honoring of honest, useful Work in whatever spiece or capacity, and the consequent elevation of the Labor-ing Class in knowledge, vi. too and general esteem. It is necessarily hostile to "livery nuder all its aspecta," to Intem, erance in whatever form or degree with as accessories to War save is the defence of Country and Liberty against actual invasion, and to every form of Gambling. Desiring to see Production extended and encouraged, while wild Speculation and use ess Traffic are curtailed, it favors the policy of sustaining and diversitying Home Industry by a discriminating Tariff—a policy which tends to increase the price of Taill—a policy which tends to increase the price of Grain to the tarmer while diminishing that of Bread to the artisan, by reducing the distance across which their respective producting the exchanged and of course, reducing the cost of their transfer. Regarding Falubusterism in all its phases, and every form and device of National coverousness, with unqualified abhorrence as the bane of Republics and in their triumph the grave of Equal Human Rights, we seek by every meters to woo and win the attention of our country-men from projects of aggrandizement abroad to enter-prises of development and beneficence at home, foremort among which we rank a Railroad through the heart of our territory to connect the waters of the Atgoods of this life are not yet fairly distributed, and that no one ready to work should ever famish in unwilling idleness, it lends an open ear to every sugges, vail the dictates of eternal Morality nor war toon that natural right of every one to whatsoever he has bely produced or honestly a quired, whose denial most sink manking into the chaos and night of harbarism and universal squalor. With a profoun consciousness that idlers, drunkards, therefore and profligates can never be other (in the main) than needy and tion is setter than Punishment—that the child trained up in the way he should go, will rarely in after years desert that way for the thorny paths of Vice and Crime—that a true Education—Keligious, Moral and Industrial as well as Intellectual—is the most eff elive temporal autidote to the errors and wors of our race. Recognizing in the most degraded specimen of illuminity a divine spack which should be reverently cherished not ruthlessly tro-tden out, we have characy tor all forms of evil but those which seek personal advantage through the debasement of our fellow-beings. The crampion of no class or caste, the de-votes of no sect, we would fain be the interpreter to each other of men's better impulses and aspirations, the harbinger of general concord between Labor and Capital, and among those whom circ matances or misapprehensions have thrown into unnatural antagonism. A cotemporary once observed that he never knew a hard, grasping, niggardly employer who did not hate THE TRIBUAE, nor a generous, large-souled, kindly one, willing to live and let live, who did not like it. We ask no higher praise, no warmer

The circulation of THE TRIBUNE is at this time The circulation of THE TRIBUNE is at this time as follows: Daily 32,000 copies; Weekly, 176, 800 copies; Send-Weekly, 16,000 copies; Callorina and European, 6,000 copies; Total, 230,800 copies. That of the Semi-Weekly and Weekly we believe to be exceeded by no other newspaper published in the world; that of the Daily fails behind that of some of our contemporaries. Had our hostili-ty to Human Slavery and the Liquor Traffic been more guarded and politic, our Darly issues would dow be some thousands heavier and our Advertising far more lucrative; but of our pationage generally we have no recon, no wish, to complain.

Of late, a concerted effort has been made to duning ish our rural circulation through the influence of the

Postmasters, some of whom embark in it eagerly, others under political constraint; while a large number we are happy, for the sake of Human Nature, to state, refuse to be dragooned into it at sil. Still, we have been made to feel the heavy hand of Power, and have doubtless lost thousands of subscribers in consequence. Presexts to which no individual in his private capacity would have stooped have been relied on to justify the stoppage of our papers within reach of their surscribers and rightful owners, and their retentage in the Post-Office till their value was destroyed. Postmasters have been schooled by rival journals—several of them living on their self-proclaimed ability to serve as an antidate to Tile. I have BUNE—as to their political duty to promote at our expense the dissemination of gazettes of auverse politics. We shall outlive this warfare, but we do not affect indifference to it. In the open field of discussion, we fear nothing; but in the tens of thousands of rural neighborhoods where the Postmaster can induce many of his quiet heighbors to take the journal he recommends, we have already lost some parrons, and
expect to lose more as our subscriptions for this year
expire. We appeal, therefore, to the hearty, landful
fearless advocates of Fire Labor and Free Soil
throughout the land to take care that this official warfare on our circulation be not prosecuted without counteraction. We employ no traveling agents, low we will not consent to have the public harassed with the solicitations of strangers in our benail. We strave the name of each subscriber to our Wickly or Semi-Weekly from our books so soon as his term has expired, for we will not haunt our patrons with dons for arrears which they may say they never intend to incur, for papers which per haps they never read; we rely for the tenewal of our cast subscriptions solely ca the volunteered efforts of those who, liking our paper, believe its influence salutary and worthy to be extended; and thus far our reliance has been justified, as we trust

it may continue to be.

THE TRIBUNE is printed on a large imperial sheet, 32 by 44 melies, toided in quarto mailed to subscriber, at the following TERMS

Devote a few moments to the consideration of the TONIC EXTRACT.

A Medicine which possesses extraordinary virtues, and has made many cures.

THE proprietor has been for years experimenting and endeavouring to discover a medicine, which A and endeavouring to discover a medicine, which could be relied upon in the above complaints, and is happy to inform the afficted that he has at last succeeded beyond the informations; having never known an instance where

good.
It is necessary, however, to use this medicine according to the printed directions which accompany each bottle.—
This may, in some cases, involve self-denial on the part of the patient, but is the only course which will bring about the patient, but is the only course which will bring about restoration to health.

This medicine is not introduced for the sole purpose of making money, it is a useful article and ought to be generally known. The Proprietor purposes to supply the afficted poor without charge, upon the recommendation of a respectable party, on condition that the patients, will from time to time, make a statement of the effects of the medicine. The Tonic Extract will make the flesh firm, give a good appetite, and bring about a regular state of the system; when this happens, of course the spirits will be enlivened, and there will be a prospect of health and long life.

The Proprietor takes the liberry of using the name of the Rev-J. Blakeney, Baptist Missionary, for a reference in support of the good qualities of this Medicine.

The Tonic Extract is put up in four ounce phials—price is 3d per phial.
