Oxygena ed Bitters in Canada.

The Editor of the Montreal Pilot, Sept. 2, 1856, says: There is no medicine we take so much pleasure in recom-mending to our friends as Dr. Green's Oxygenated Bitters, Unlike most proprietory medicines; it does not profess to cure " all the ills flesh is heir to," but simply Dyspepsia and its attendant symptoms of derangement of the stomach. It has long been held in favor with our first medical men; some of whom are never back ward in awarding merit where it be longs. Its success in our city has given it a reputation sur-passed by no other similar preparation. Our attention has been called to this subject by a young man in our office who had been suffering for some weeks severely from indiges

AYER'S CATHARTIC PILLS.

AYER'S CATHARTIC PILLS. The sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these fulls have virtues which surpass in excellence the ordinary medicines, and that they win unprecedently upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimu-late the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffle I the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the suffest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent cler-gymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurace of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fullow-men. The Agent below named is pleased to furnish gratis my llow-men. The Agent below named is pleased to furnish gratis my

DOMESTIC.

FIRE ON TUESDAY MORNING .- Between 7 and 8 o'clock yesterday morning, two barns, together with all the out-buildings on the place belonging to Robert Jardine, Esq., on the Marsh Road, were consumed by fire. The fire engines were early on the ground, and with great difficulty saved the cottage. The barns were large, containing some 80 tons of hay, in addition to a quantity of grain and other produce. Loss said to be not less than £500, and no insuracne.

It is supposed to have been the work of an incendiary. This supposition is founded upon the fact that a fire was discovered in the wood house the evening before, which must have been kindled by some one, and just before the fire broke out in the morning a man hiving on a blue shirt was seen to leave the
