

crow, in a state of mutiny; they had had possession of the ship for two weeks, committing all kinds of outrages, and using abusive language to the captain. Captain Titecomb informs me that for two weeks he had to submit on preserved meats and anything else that could be found in the cabin, the cook and steward having refused to cook any victuals for him. Immediately upon his arrival here he obtained assistance, and had all the crew in the castle.

**ATLANTIC TELEGRAPH.**—Another extraordinary event in the history of this expedition has also been passed over without any attempt at explanation. It will be remembered that the day before the cable parted the community was interrupted for two hours and a half. During that interval the electric current refused to pass to the coast of Ireland or back to the Niagara. The scientific men on board took counsel, and decided that the gutta serena had worn off a portion of the wire, and that the insulation was hopelessly destroyed. It was actually agreed on to cut the cable and return to England; when suddenly, as if by magic, the continuity was restored, and messages began to flash along the wire. A more wise heads, which surround the machine at day are those none who can furnish a theory upon which to account for this phenomenon? If a submarine line is subject to such eccentricities as this, its value will be materially decreased.—N. Y. Herald.

**ARRIVAL OF THE "ARAGO" AND "NORTH AMERICAN."**

**Four Days Later From Europe.**

**FURTHER DECLINE IN BREADSTUFFS!**

New York, Sept. 7th.  
The steamer Arago, with dates to the 26th ult., arrived this morning.  
The Europa, from Boston, had arrived on the 23rd, and the Circassian on the 22nd—8 days from Newfoundland.  
Warlike rumors are reported from the principalities, but they are rather indefinite. There is no general news of importance. Cotton was very active at a high advance.

Breadstuffs—the weather was brilliant, and flour had declined 1s. Wheat 4d; Corn 9d 1/2 on Yellow; White firm.  
Other markets present no notable change. The Steamer North American arrived at Quebec this morning.  
SHIP NEWS.—Arrived from St. John the Solina, at Queenstown; Midleton, at Liverpool; Daniel Shattuck, at Stranorlar.

The steamer Vanderbilt, from Havre and Southampton, and the Asia, from Liverpool, arrived at New York on Wednesday last, with dates to Aug. 22nd. The papers contain some further items of interest.

The Divorce and Matrimonial Causes Bill was read a third time and passed in the House of Commons on the evening of the 1st. It now goes back to the Lords for concurrence. The clauses so objectionable to the Clergy of the Church of England, were modified by Ministerial consent as to the equivalent, almost, to a "surrender by the government."

In the House of Lords, on the 20th, the bill authorizing the embodiment of the militia was passed. During the debate upon it, Lord Palmerston observed that although it was only intended to call out 10,000 men at present government by no means bound the militia to call out more if the necessity arose for so doing. He also stated that it was not intended to withdraw the whole of the British forces from Persia, until that government had fulfilled the stipulations of the treaty by evacuating Herat, which was not only unaccomplished, but there was a rumor that additional troops were being sent there.

Mr. Disraeli reiterated his strictures upon a government for the conduct in the affairs of India, and was replied to by Mr. Vernon Smith, who asserted that it was the full intention of government to put down the revolution, which purpose the force sent out was in an opinion of eminent authorities sufficient. Steps would afterward be taken to reorganize a native army in a manner that would prevent the recurrence of such unfortunate results. In reply to an inquiry, Lord Palmerston said no application had been made by the French Government for the expulsion of political refugees from the country, and that if such an application had been made, Her Majesty's Government had no power which could enable them to accede to it.

It was generally supposed that Parliament would be prorogued on Tuesday, the 5th of August.

Queen Victoria and the Prince Consort are in France, "returning the visit" of an Emperor and Empress.

The minister and chief and second mates of the ship Martha & Jane, of Sunderland, have been sentenced to death at Liverpool, for murdering Andrew Ross, a seaman, by conning him to death and brutal usage. The London Times has the following remarks on this case:

The Liverpool Jury has done justice to the case of the "Murder on the High Seas" on Thursday. The spirit of the captain of the Martha appears to have fastened on the first instance, partly because he had some unusual demonstrations of good spirits. He was "fond of singing," and on a Sunday morning, "Oh! let us be joyful," upon which the captain, with the observation, "I'll make you sorrowful," thrust a iron bolt into his mouth, and kept it there for an hour and a half. He was day after day whipped, beaten with a rope's end and at times in irons. The captain trained his dog to attack him, and with so much success that the master and the dog acted in concert, and the master whipped while the dog bit. The dog bit off pieces of flesh. The man was put into dry water barrel, described as a small one, and rolled about deck. He was kept in this barrel from 12 at noon to 12 at night, only reaching fresh air through the bung hole. We cannot describe other punishments, which indeed illustrate the epicureanism of cruelty. With all this fertility and ingenuity of torture, cruelty was still unappeased. What was to be done? The captain said, "Rose, I wish you would do for me," upon which the captain hanged him. We say

"hanged him," because the man hung for two minutes, was taken down with face black, eyes protruding out of their sockets, and froth coming out of his mouth, and died a day or two after.

General Gustavus Von Degenfeld, one of the most distinguished officers in the Austrian service, 50 years of age, has blown out his brains through a disappointment in love.

**Russia.**—A letter from St. Petersburg says that the Russian Government has just given orders in France and England for the construction of nine line-of-battleships, four frigates, two corvettes, two galleons and four transport ships.

**THE ATLANTIC TELEGRAPH CABLE.**—Mr. Charles T. Bright's report of the operations on board the Niagara up to the date of the accident, is published in the *London Shipping and Mercantile Gazette*. Mr. Bright states that as the water deepened after leaving the coast of Ireland, it became necessary gradually to increase the retarding weight to the cables, so that when 2000 fathoms water was reached the strain was increased to a ton, by which the rate of the cable was maintained in due proportion to that of the ship. As the wind and sea increased, the speed of the cable gained more upon the ship than it was considered prudent to permit, the brakes were applied with a force equivalent to 35 cwt., soon after which the cable parted.

Up to the 23d of August, the Directors had not decided as to the propriety of making another attempt to lay the cable this season.

A correspondent of the *London Times* suggests with forcible arguments, that the steamship Great Eastern, which could with ease contain the entire cable, should be employed to lay it.

It is understood that two officers have been made for the purchase of the cable, with a view to its being applied to a communication with India.

The embarkation of troops for the East continues without cessation. The East India Company have dispatched to India since the 10th of June, 44 sailing vessels with 14,000 men; 14 steamers with 6,400 men; 8 ships were to embark 3000 men on the 15th and 25th August; and 6 steamers would embark 3,600 men during the same period. Total 72 vessels and about 27,000 men.

A letter from Hamburg, in the *Berlin Zeitung*, says:—  
"It seems that England is about to enlist a foreign legion for the East Indies and that, as was the case during the Russian war, the Isle of Heligoland will be used as a recruiting station."

The *Paris Pays* says:—  
"We learn by a letter from London of the 19th, that permission has been definitely granted for the passage of English troops across the Isthmus of Suez. These troops will take the railway, and will first at Suez boats, taken up at Calcutta by the East India Company, waiting for them. According to arrangements made by agents of the company, these ships were to be in the Red Sea by the end of August at the latest. The authorization granted by the Viceroy of Egypt does not extend to the future; it is only temporary and special for the occasion."

The *Times* says:—The rumor lately circulated of a merchant at Liverpool having died suddenly, leaving liabilities for £300,000, of which £100,000 had been found to be forgeries, appears to have been an exaggeration compounded from two incidents. A share-broker, in extensive business, was found dead in his bed, as it now appears, from disease of the heart, on the morning of the last sitting day, when he had to pay large differences; and it is since been ascertained that he left himself in a very unsatisfactory state. A few days previously, a partner in a respectable mercantile firm disappeared, having, it is said, forged acceptances for £25,000. In both cases the details are kept private; and, as is usual under such circumstances, they have created needless excitement and alarm."

**SEIZURE OF RUATAN.**—News of an unpleasant case which has reached Jamaica from Belize. It is said that serious disturbances, supposed to have been promoted by American filibusters, have occurred at Ruatan, one of the Bay Islands, the occupation of which by Great Britain has been so seriously questioned by the Washington government, and that the jail has been broken open and the prisoners liberated. The celebrated Colonel Kinney, by a curious coincidence, happened to be at Ruatan at the time. On the main and matters have been represented to have been in a still more equivocal state. A large body of American filibusters had established themselves with arms and ammunition at a place called Corozal, in British Honduras, affirming it to belong to the State of Honduras. It is stated that Superintendent Seymour has found it necessary to apply for armed assistance.—*London Chronicle*.

Oxygenated Bitters is a safe and sure remedy for Dyspepsia, Asthma and General Debility in all their various forms. Let all affected with any of these distressing diseases, try the medicine, and they will be satisfied. It never fails.

**Remedy for Asthma.**—We think we are benefiting our readers when we inform them that a relief for the Asthma can be found, in using Jones' Whitebait's Remedy.

**Good Advice.**—The Cincinnati Evening Nonpareil says of the Perry Davis Pain Killer—it removes pain as if by magic from any part of the body, and no one who knows its virtue would willingly be without it.

**Notice.**

The Meeting House just erected at the Marsh Bridge, will be opened for public worship on next Sabbath, the 13th inst., at 3 o'clock, P. M. A collection, a good substantial one, is expected to be taken up on the occasion, to aid the Trustees in settling with the Contractors.

**Mothers! Mothers! Mothers!**

AN OLD NURSE FOR CHILDREN.—Don't fail to procure Mrs. Winslow's Soothing Syrup for Children. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's Soothing Syrup for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If it is worth its weight in gold, it is worth its weight in silver. Millions of Bibles are sold every year in the United States. It is an old and well tried remedy.

**PRICE ONLY 25 CENTS A BOTTLE.**  
It is not a general medicine, but a specific for Children. Sold by Druggists throughout the world. Agent at St. John, G. E. EVERETT & CO.

**Perry Davis' Vegetable Pain Killer.**—Voluntarily, and without any reward, we have prepared this medicine for our readers the above named medicine. We speak from our own observation and experience when we say that it removes pain as if by magic from all parts of the body, and is one of the best medicines in use for checking Diarrhea, and relieving the primary symptoms of Cholera. It is applied both internally and externally, with the best effect, and none who have once used the Pain Killer, would willingly be without it constantly in their houses.—A. C. MONTAGUE, Esq., New York.

**Dr. McAlane's Vermifuge.**—Another Medical Witness.

It is no small evidence of the intrinsic value of this great Vermifuge, when even physicians, who are generally prejudiced against patent medicines, voluntarily come forward and testify to its triumphs in expelling worms. Read the following:

**HENRIETTA WILSON, Shelby Co., Ky., April 2, 1857.**  
I have been afflicted with worms for some years, and have tried many remedies, but have not been cured. I have been informed of your Vermifuge, and have purchased a box of it. I have taken it, and in a few days I have been cured. I have been informed of your Vermifuge, and have purchased a box of it. I have taken it, and in a few days I have been cured.

**JOHN WHITEBAIT'S REMEDY FOR ASTHMA.**  
Messrs. J. B. BARNES & CO., Gent.: When I read your advertisement in the *London Times*, I was very much interested. I have been afflicted with Asthma for many years, and have tried many remedies, but have not been cured. I have been informed of your Vermifuge, and have purchased a box of it. I have taken it, and in a few days I have been cured.

**WATER'S BALM IN VERMONT.**  
Mr. S. W. FOWLE Dear Sir, I am a sufferer from the Balm of Water. I have been afflicted with Asthma for many years, and have tried many remedies, but have not been cured. I have been informed of your Vermifuge, and have purchased a box of it. I have taken it, and in a few days I have been cured.
