

FURTHER FROM CALIFORNIA.

NEW YORK, May 28.

The steamship Illinois, from Aspinwall the evening of the 19th inst., arrived here at four o'clock this afternoon. She brings 800 passengers. She connected with the steamer Golden Gate, which brought down the California mills of the 5th inst.

Semi-official information received at Panama from Bogota, states that the Island in the Bay of Panama, together with tonnage dues from American vessels, have been ceded to England.

Information of the execution of Col. Crabbe and party had been received at Panama. Lieut. Strain of the United States Navy, died at Panama on the 14th inst.

Rivas was evacuated on the 1st of May by Walker, he having capitulated to the Costa Ricans, and has been allowed to retire on board the St Mary's, together with his officers. The remnant of his army was sent down in the steamer Panama. The Costa Ricans record the news of Walker's surrender with great rejoicing, and were making great preparations for the reception of Gen. Mora at San Jose, on his return from Rivas.

Advices at Panama from Valparaiso are to the effect that Callao to the 26th.

Gen. Vivanco with two steamers and 500 men attacked Callao at midnight of April 20. A brisk fight ensued in the streets, which resulted in Vivanco's total defeat. A large part of his force being made prisoners, Gen. Lopez and Col. Rodriguez, insurgents, were killed. General's Vigil, and Machuca, insurgents, were wounded and taken prisoners. Vivanco escaped with his steamers. He says that he has 3,500 troops at Arequipa, and does not acknowledge a final defeat.

Four days after the fight, during the funeral obsequies of Gen. Plaza, a report that Vivanco's troops were again landing, created great excitement, and during the confusion, Mr. Eaton, clerk of the American Consul was shot dead.

The custom house at Callao was closed, and business suspended.

The California Legislature adjourned on the 30th ult., having passed 280 bills.

The Mining news is favorable. The supply of water at the mines is more abundant this spring than usual. Grain and fruits are suffering from drought.

Ragtown, in Carson Valley, had been destroyed by fire.

The Indians in the Oregon, in the Umpqua country threaten hostilities.

The crop prospects are bright. San Francisco markets are dull.

MEXICO.—Accounts from the city of Mexico to the 5th inst., bring some details of the filibuster failure in Sonora, under Colonel Crabbe, of California. It appears by these accounts that Crabbe's force numbered about 150 men, and the Mexican force, under Capt. Rodriguez, some 700—that the fight was severe and bloody—that Rodriguez fell mortally wounded on the first onset, and that Col. Crabbe was also severely wounded.

The fight occurred at Cabora, a village which the filibusters seized immediately on entering the State of Sonora. They were there attacked by the Mexican force on the 1st of April, and finally surrendered at discretion on the 6th of that month, their number having been reduced to fifty-nine, their loss resulting largely from an explosion of gunpowder in a house in which they had taken refuge.

It appears by these news that there is considerable doubt about the truth of the former statement that Col. Crabbe and his followers had been shot. It is now said that orders had been issued to send the prisoners to the city of Mexico for trial. It is asserted that some 500 more California filibusters had entered Arizona, (Gadsden Purchase,) near the line of Sonora, and were awaiting a favourable opportunity to invade that State.

This arrival announces another conspiracy in the city of Mexico to revolutionize the country. The plot is said to have contemplated the seizure of the person of the President, and then to attack the capital.

The account goes on to state that Captain Noguera, a portugee of Comonfort, was to plunge a dagger into his patron's breast, and his death was to be the signal for the attack.

The ringleaders in this conspiracy had all been arrested, and it was rumoured that they would be beheaded. Others had also been arrested, said to be concerned in the affair. It was reported that ex-Minister Aguilar was also implicated.

THE LIVERPOOL AND PORTLAND STEAM LINE, INTERESTING WELSH COMPANY.—The new line of steamers between Liverpool and Portland, via Halifax and St. John's, N. F., has proved eminently successful. The boats engaged in it, the Khersonese and Circassian, are constantly crowded with passengers, and every cabin is engaged a voyage ahead, as is the case with the next trips of both of them from Liverpool. Freight, too, offers so freely, that on the last trip of the Circassian she was compelled to leave some lying on the wharf at Liverpool, for want of time to take it on board; that trip occupied but fourteen days from Liverpool to Portland, including stoppages at the two way ports. St. John's having been reached in 84 days. Among the 400 passengers who arrived by her last Monday, was a colony of 300 persons, in families, from among the mountain recesses, of Montgomeryshire, in central Wales, under the care of Rev. Mr. Roberts, their pastor. They are bound for one of the beautiful valleys of Eastern Tennessee, East of Knoxville, near the head waters of Cumberland river, where they have provided themselves with houses, and purchased large tracts of land of unequal richness, at the low price of fifty cents an acre.

There was a very pleasing festive scene among the cabin passengers, including the ladies, on the evening of the arrival of the Circassian, as she lay in the channel, when a complimentary supper was given to her commander, Capt. Powell, at which, among others, a speech was made by the Rev. Mr. Roberts, in reference to the object and wishes of the enterprising Cambrians of whom he was the representative and head. Attracted to the spot where they are going by the fertility and cheapness of the soil, the mildness of the climate, and its charming mountain scenery, they hope to find, even in that slave State, a home for free labor and free men.

The Portland Advertiser says, that but for the interruption of the telegraph line, we should have had the quickest communication by the Circassian, via Newfoundland, ever yet received from England. She leaves Portland to-day, (May 30th.)

Arrival of the "Arabia."

GREAT RAILWAY FRAUDS.—Three Committees of the Canadian Parliament are now in session in Toronto, investigating the affairs of the new Canadian Railroads. In addition to the regular railroad committee, there are two special committees, one upon the affairs of the Grand Trunk road, the other upon those of the Woodstock and Lake Erie road. The amount of corruption which has been exposed fully justifies the exclamation of the Toronto Colonist, "that there is great need of a road to the Penitentiary from the Parliament House, which is not yet constructed." Members of Parliament, crown officers, and even persons still higher in station, are implicated. Bribes of almost inconceivable magnitude, in one instance exceeding \$100,000, are sworn to have been offered in connection with the construction of the Woodstock and Erie road. Testimony is also given to the fact that the grossest perjuries were committed by its officers, in order to induce municipalities to grant loans for its construction.

Oxygenated Bitters.—A sure cure for Dyspepsia.

The history of this remarkable medicine, and its astonishing success in curing Dyspepsia, Asthma, and General Debility of the System, places it among the most wonderful discoveries in medical science and has given it a reputation far beyond any remedy known for these complaints, in all their various forms.

The Oxygenated Bitters contain nothing which can intoxicate; and the medicine has no similarity whatever to the various alcoholic mixtures disguised as "Bitters," being purely a medicinal compound, in which are combined the most valuable remedial agents, and a peculiar oxygenated property, hitherto unknown, but highly efficacious in all complaints arising from weakness and derangement, or prostration of the stomach and system generally. It is a mild and agreeable tonic, removing all disagreeable symptoms, and assisting nature in her efforts to restore the impaired powers of the system.

S. W. FOWLE & CO., 138 Washington Street, Boston, Proprietors. Sold by their agents everywhere.

Holloway's Ointment and Pills.—Nothing tries the temper like malignant ulcers and painful boils. They almost tempt even Job to blasphemy.
