

The Christian Visitor.

difficult one, some of the cuttings being over fifteen feet deep in solid loam, and the number of men employed from three to four, and sometimes as high as five hundred. The whole of the outdoor portion of the work has been under the immediate superintendence of Mr. Gilbert Murdoch, whose assiduity and unremitting endeavors to bring it to a successful termination before winter deserve the highest praise.—[Cour.]

The order for the commutation of the sentence of young Slavin having been received by the Judge, the warrant was issued for his confinement in the Penitentiary for life, and on Monday he was removed from the goal to the Penitentiary. Before leaving he was permitted to see his father, and at the interview displayed the same indifference that characterized him all through.—Freeman.

CURIOUS CAPTURE.—As the schooner *Emily* was entering this Port, from Beaver Harbor, on Sunday, a large deer was observed swimming off the West Point of Partridge Island. The animal was chased, captured, and got on board. It was about the size of a year old colt.—[Leader.]

The notes of the Central Bank, Fredericton were refused yesterday at the Banks in this City. It is said that the Central redeems its notes at its own counter. We trust that the difficulty which has arisen will be obviated in a few days, especially as there is much feeling in the community on the subject.

A dispatch from Fredericton says that the notes of St. John created a panic there, and that the Bank would suspend specie payments to day.

ATLANTIC TELEGRAPH.—The Atlantic Telegraph Company have decided to lay their cable the latter part of June next, commencing in the middle of the Atlantic Ocean, as originally designed. Messrs. Glass and Elliott have commenced the construction of additional cable, making 3000 miles in all. Messrs. Easton & Ames are building new paying machines. The London Times devotes a leader to the remarkable coolness of the Americans under the existing crisis, and strongly censures the uncontrolled issue of paper money. The Directors of the Bank of France had an audience with the Emperor, and unsuccessfully urged a duty of 3 percent. on specie exported. The Emperor reported to favor an advance in the rates of discount to 8 per cent. Accounts from the United States show that the Bank of Prussia have raised the rates of discount to 7.2 percent.

GERMAN LECYUEN.—composed of the Students and Alumni of Acadia College, are availing themselves of every opportunity of obtaining information, both for themselves and the public, by engaging the services of various gentlemen to deliver a course of lectures at the College during the winter. We are not aware what subjects the lecturers will choose, but they will, doubtless, be such as will interest and instruct the large audiences which usually assemble on these occasions.—[Christian Messenger.]

The "Western News" says:—Inglis, the man arrested in the attempt to swindle the Hon. W. A. Black out of £125, by means of threatening letters, and who is suspected of having been guilty of burning the same gentleman's house of residence some weeks ago, is a native of Annapolis county. His mother, an advanced age, was murdered in 1832, near the town of Annapolis.

CANADA.—A MINISTERIAL CRISIS.—The Toronto Colonist of the 24th says:—"We are able to state on authority that the Hon. E. P. Tache has tendered his resignation as Premier, and that it had been accepted by the Governor General. The formation of a new Administration follows as a consequence, and we understand that His Excellency has charged the Hon. John A. Macdonald with the task. The previous retirement of Mr. Cauchon from the Commission of Crown Lands, and Mr. Terrill from the office of Provincial Secretary, affected the relative position of the two sections of the late Cabinet. The balance will be restored by the reconstruction of the Lower Canadian section, which will take place immediately."

Arrival of the Steamer "Fulton" of Newfoundland.

TRENTON, N. F., Nov. 28.

The Fulton, from Havre, 17th, and Southampton, 18th, off Cape Race yesterday, 5 P.M., 27th; \$1 passengers, \$220,000 in specie—with boxes of rich freight.

Europa arrived at Liverpool 16th. Money market firm. Demand for money. Bank of England less pressing. Bank of France about to extend their circulation.

Wolverhampton Staffordshire Bank stopped payment—great excitement. Liabilities estimated at from 4 to £500,000. Several trading firms called creditors together.

Rate of discount at Hamburg received to 9 1-4. More failures, including J. Ellice and Wix, Turkey Merchants; Jose R. Sa, & Co., in Erzlan Trade; Bradgate & Pickard, Corn Merchants, liabilities £120,000.

Bourdon Dubot & Co., and Kensoe, Phillips and Vibert, Paris. Hoare, Boxon & Co., in the Swedish trade. Edwards and Matthie, East India and Colonial Brokers London.

Nothing new from India.

Consols, 17th—latest price 89 1-2 to 5-8 for money; 90 for 7th December; Bank stock 211 to 214; reduced 88 3-8 to 5-8; new three 88 1-2 to 5-2; foreign stock limited and no change in price.

Advance of 4s. per cwt. in sugars, rice and coffee. Markets dull. Tallow flat.

Cotton at Manchester unaltered in price; slight improvement in wool on trade at Lees. At Huddersfield a good feeling exists.

LIVERPOOL, 17th.—Wheat and Flour met slow retail at decline of the week of 4d. to 6d. per 70 lbs. Flour 1s. 6d. to 2s. per bbl.—Sack Indian Corn little inquiry.

LONDON, 17th.—Great fall in grain. Market Lane yesterday, caused panic in the extending circulation.

Later from Europe.

The Boston Journal says:—The momentary news from England, as telegraphed to us yesterday from the Vanderbilt's dispatches, is exceedingly interesting. A panic, apparently as wild as that which has just swept over this country, has been arrested in mid career. All the Banks had come to refuse discounts in any shape. But suddenly a Treasury letter appeared, suspending the Bank Charter Act, and authorizing, say the dispatches, "the issue of notes to any amount on approved securities." The effect was instantaneous, and the panic ceased, as if by magic. This is very gratifying; the only question that arises is, will it be permanent? At present for every note issued by the Bank of England over the amount of £14,000,000 secured by Government, that institution may have an equal amount of gold or silver in its vaults, thus ensuring the perfect convertibility of the paper into specie which it represents on its face, and maintaining its par value. In the other part of the present century, an excessive issue had depreciated the value of paper currency. But in 1810 Sir Francis Horner began those legislative acts to restrict the paper circulation, which terminated in the present regulation, originated by Sir Robert Peel in 1844. The Bank Charter Act, therefore, has been in uninterrupted operation thirteen years, & remains to be seen whether its suspension will

restore complete confidence or relief, or whether, by making paper money cheap, it will still more enhance the value of gold and give an impulse to its exportation. The practical effect created by the announcement of the suspension, would lead us to hope that its benefits may prove permanent. But all signs fail in a dry time."

The news from India is encouraging to the British, on the whole, though it is defective in many points of public interest. Delhi was taken with an immense loss to the captors. Sorely less important than the taking of Delhi—perhaps a consequence of that event—is the bold stand of the native prince, Scindia, against the mutineers. Of affairs at Lucknow, we are greatly in the dark. Gen. Havelock is said to have got possession of "part of the city," and now we are told that he is besieged by 50,000 rebels under Nana Sahib. The connection between Cawnpore and Lucknow, is, therefore, broken up again. Such are some of the discouraging features of the news. But in such a sentence as this—"All the citizens of Delhi found in, that city after the capture, were banished by the British troops."

NOTICE.—The next session of the Queen's and Sudbury Quarterly Meetings will be held with the Baptist Church in Jemseg on Friday, the 1st day of January, 1858, to commence at two o'clock, P. M. Ministers and others are invited to attend.

ISA. WALLACE,
Secretary.

AYER'S AMERICAN FOR 1858 is now ready for distribution, by S. L. Tilley, who are happy to supply all that is wanted. It is worth having. Comprising much general information of great value, it gives the best instruction for the schoolroom. Its advice is sometimes worth to the sick the wheat's weight is not metal. Its calculations are made purely for the use of the poor. They are true, and are kept in the book. And are there current. Call and get an Ayer's almanac.

Read the Circular of Regular Practitioners. This may certify that I have used Perry Davis' Vegetable Pain Killer in numerous cases, and believe it to be a very valuable medicine. I have prescribed it extensively in bowel complaints, particularly for children. It is a safe medicine superior to any preparation I have ever used for the relief of these diseases. When given to children, I have always found it to be well mixed. Others have added it with milk and molasses, equal parts.

Perry Davis' Pain Killer, as an internal remedy, has equal value. In cases of Colic, Summer Complaint, Dyspepsia, Internal and External Hemorrhage, it will act in one night, by taking it internally, and nothing else is required. It is a safe medicine in America. Its action is like magic, when externally applied to bad sores, burns, scalds, and sprains.

MEMORANDA.

Steamer Creole, St. Lucia, master, from Anna polis, for this port, went ashore at Granville, on Monday night, stirring a gale. From the injuries sustained a survey was held and she was condemned. Her passengers arrived here yesterday morning by steamer Maid of Erin.

The schr Nonpareil from New York for this port, wrung off her rudder head, became unmanageable, and came on shore at Stratford Point on Saturday week. She is laden with flour, and will probably bulge.

Wreck.—Passed at sea, Nov. 17th, in lat 35° 37', long 60°, the wreck of a brig hailing from St. John, the last letter of her name being E.
