

upon their passport system, which allows no one to enter France, travel through it, or leave it, without the most minute questioning; and on their police system which professes to keep a strict watch over the whole population, especially the suspicious part of it; and yet these Italian desperadoes entered France from the Belgian frontier, travelled to Paris, mingled with the people before the opera house, and by means of the most destructive hand grenades, which they carried about their persons before the eyes of the police, they suddenly killed a number of innocent citizens, wounded others, and only providentially missed the object of their attack. If France, with all her pretensions, could not detect or deter these men from accomplishing their purpose, why blame England who pretends to do nothing of the kind? I pass over the bluster of the Colonels of the French regiments, who presented addresses of congratulations to the Emperor, and in the name of their regiments, offered in aid to the countries which harboured these assassins and drag them from their lurking places against all opposition. The sad reflection is that the result of such criminal attempts will be to cause the adoption in France of measures still further to encumber the liberty of the subject; and to cast suspicion upon the plans of men who prostitute the sacred name of liberty to sanction deeds which are abhorrent to every reasonable feeling.

The Archbishop of Canterbury has introduced a bill into the House of Lords giving to Bishops a power of appointing preaching and divine services in any consecrated building for a limited time, and in parishes exceeding a certain population; notice of such intention is to be given to the incumbent, to whom is reserved the right of appeal to the Archbishop, whose decision is to be regarded as final. In consequence of this movement of the Primate, the Earl of Shaftesbury has withdrawn his Bill upon the same subject.

Exeter Hall is still occupied by various ministers of different denominations, and the Gospel is preached there every Sunday evening. Next Sunday, Rev. W. Jewell will preach a funeral sermon in memory of the lamented General Hawley, and will be succeeded by others for the next three months, among whom are the Revs. F. Tucker and J. H. Hinton.

The Levantine bowline moored in the Thames near the spot where she was built, her appearance is very imposing, and her proportions show well as she floats in the water. Her destination for a trial trip does not appear to be decided on; indeed she is not ready yet for a voyage, the length of time taken in launching her having delayed the work of fitting up the interior.

**CALAMITY BY FIRE.**—The valuable establishment of Mills, containing a Grist, Oak and new Saw Mill, with two upright and two circular saws, owned and occupied by Solomon Pearson, of Harvey, Albert County, was consumed by fire on Monday last, with a great quantity of meal and grain. The fire originated in the cat mill while drying grain. Estimated loss \$200. No insurance.

**ORATORIO OF "OUR SAVIOUR."**—This Oratorio, expressly arranged for juvenile voices, was performed on Friday evening last, in the Baptist Chapel, corner of German and Queen streets, before a highly respectable audience, by a choir of children in connexion with the Chapel. The Oratorio was composed of some thirty pieces, including solos, duets, recitatives, choruses, &c.; and the performers gave every satisfaction to those present. The girls particularly acquitted themselves well; and two or three of them gave evidence of possessing voices, that with cultivation and painstaking would while they are young, may hereafter reflect honour on the musical talent of our city. The whole performance reflected much credit on all connected with the Oratorio; and we think the parties engaged in getting it up, must have been pleased at the satisfactory manner in which the children accomplished their task. Mr. Chaloner, the leader, presided at the Organ.

## EUROPEAN.

**Four Days Later from Europe.**  
**Arrival of the "America" at Halifax.**

The *America*, Captain Moodie, from Liverpool 9.30 A. M. Saturday 13th, arrived at Halifax 5.30 P. M. Saturday 27th, she having experienced heavy weather during the passage, and was detained 9 hours on the South east of Sable Island by ice. The *America* reports Feb. 14th, off the old head of Kingsale, passed the Steamship *Europa* from New York; 27th at two A. M. exchanged night signals with a steamer bound east, supposed to be the *Niagara* from Halifax.

The *North America* arrived out at 8 P. M. on the 11th, on the morning of that day about 2 o'clock she came in collision between Tuskar and Holyhead with the Bark *Leander* of Bath, Maine, bound from Liverpool to New Orleans, with a small cargo of salt. The bark sank in five minutes, Mrs. Curtis, the Captain's wife, the second mate and eight seamen were drowned. **BRITAIN.**—In the House of Commons, on the 10th Lord John Russell's Bill modifying Parliamentary rules so as to admit of Jews taking their seats was debated and read a second time.

On the 11th in the House of Lords Earl Carnarvon asked when the Government intended to introduce into the House of Commons their new Reform Bill.

Earl Granville said the Bill would be introduced in the course of the Session, but was not prepared at present to fix the date, due notice would, however, be given in the Commons.

Earl Grey presented a petition from the East India Company against any changes at present in the Government of India, and gave his concurrence to the views entertained by the petitioners.

Sir J. Pakington in a long speech moved that an address be presented to Her Majesty for a commission to enquire into the present state of popular education in England, and to consider and report what changes, if any, are required for the extension of sound and cheap elementary instruction to all classes. The motion was agreed to after some debate.

On the 12th the proceedings in the House of Lords were unimportant. In the Commons Sir Geo. Grey in response to enquiries said the evidence offered by the French Government of the complicity of Mazzini, Ledru Rollin, and others in Piamori's attempt on the Emperor's life some time since was insufficient to justify proceedings against these parties, and the British Government declined to interfere.

Lord Palmerston explained that so far from Louis Napoleon having paid the legacy bequeathed by Napoleon 1st to Cantillon for an attempt to assassinate Wellington, an application for it had been rejected on the ground that the testator must have been in a state of mental aberration when he made the bequest. A part of the bequest was paid under the Bourbon Regime.

Lord Palmerston moved for leave to bring in his new India Bill, to transfer the Government of India from the India Company to the Crown. He explained that the Bill proposed was confined to changes in the administrative organization of the Company which it was intended should in future be centered in the Imperial Government. The alterations proposed were to be as little as was consistent with the object the Government had in view, namely, to make the advisers of the Crown responsible for the Government of India. It was proposed to abolish the Court of Directors and in lieu thereof to establish a Council to be mainly composed of persons who had been in India, or who knew Indian affairs well. The Council to consist of eight persons, to go out in rotation every two years. The President of the Council would be appointed by Government, the power of the President would not extend the matters of finance; in such matters the President would have the assistance of four councillors. The President would be one of the Secretaries of State with special responsibility. He further explained the provisions of the measure and urged the House to consent to its introduction.

T. T. Baring moved an amendment that it is not at present expedient to legislate for the Government of India. The matter was then debated at some length, but without arriving at any result.

The Bank of England reduced its rate of discount from 3½ to 3 per cent. on the 11th. The movement was anticipated and the effect slight. The rate has not been so low for nearly five years. The applications at the Bank were slightly increased after the reduction.

The *Daily News* says a meeting of the Shareholders of the Illinois Central Railroad was held on the 11th. Mr. Osborne, President of the Company, was present. The appointment, as auditor, Mr. Fisher, who is now on a visit of inspection to the States was confirmed. Resolutions were passed recommending the Directors not to enter into any fresh engagements without previously submitting them to the shareholders in public meeting. Various explanations were given by Mr. Osborne, relative to the position of the Company, and were received with satisfaction.

Pelissier is expected to be appointed Commander-in-Chief of the army in Paris, in place of Magan, who is spoken of as Ambassador to Russia.

The *Times* correspondent says Espartero, the new Minister of the Interior, who is known to possess the Emperor's confidence, will not only attend the Cabinet Councils but will wait on the Emperor every morning to receive his orders direct, in his double capacity of Minister of the Interior and Aide-de-Camp.

Three per cents closed dull on Friday at 69½.

**LATEST.**—(By Telegraph from London to Liverpool.)—London, Saturday morning. The *Times* City Article says the Funds to day have steadily maintained the firm quotations of yesterday, and transactions were not numerous, but there is a general tendency to an increase of animation. In foreign exchanges this evening the rate on Hamburg is lower, while Paris and Amsterdam are about the same as last post. Nearly £90,000 in gold was taken to the Bank to day, part of which was the remainder of the specie by the *Austrian*. No further orders have been given for the continent.

The dollars by Mexican packet have been disposed of at sixty pence per ounce being a decline of one-fourth price.

The *Daily News* City Article of Friday evening says the funds to day were stationary in price, with little business. In the Discount Market this afternoon there was a sensibly increased demand, but first class bills were still readily negotiated at 2½ per cent. In exceptional cases transactions took place at lower rates.

The Bank of Holland has reduced the rate of discount from 4½ to 4 per cent. The Bank of Frankfurt also lowers its rate to 3 per cent., and the Bank of Bremen from 5 to 4 per cent.
