From long practical observation of the treatment pursued in the various Institutions of London and Paris for those diseases referred to in the above work. the Author has had somewhat unusual facilities for cess, which have characterized his practice for so many years in this country, in which the lamentable neg ect of these diseases by medical men generally, and their futile attempts to cure by mercury, copaiba, Sursaparilla, &c., have produced most disastrous results. Lasting benefit in such cases can only be reasonably expected at the hands of the legally qualified medical man who devotes his chief attention to beir removal; and to him only who can show his pos-

session of the necessary qualifications can confidence be safely extended. Dr. de R. refers with pride to the numbers he has been instrumental in restoring to health and happiness; and to those who may be in need of such aid he offers every assurance of speedy restoration.

PERSONS RESIDING ABROAD can be successfully treated by correspondence, on sending a full detail of their case, with a Bank note, or Bill on a London house, for £5, in order to have a packet of medicines sufficient to meet the exigencies of the case, sent out by next mail ; thus avoiding unnecessary loss of valuable time, and much suffering which might otherwise occur.

The death of Edward B. Fisher, Esq., of Fredericton, is deeply regretted by his numerous friends. We are informed that his intellectual endawments, both natural and acquired, were of a high order. These associated with virtuous and industrious habits furnished good reason to hope that his life would be one of distinguished usefulness; but he has been suddenly removed to the eternal state, leaving a blank not easily filled. Mr. Fisher was about 30 years of age, and had been married some eight months.
