But if the works are not pushed more than they have been, as a gen eral thing, the road will not be opened before sometime next summer. We consider, then, that the responsibility of having the read openthis winter for traffic, will devolve upon the Government: and if they do not assume this responsibility at the proper time, we shall have to remind them of an important neglect of duty.—We believe, however, that they will exhibit the right spirit at the right time, and take this work into their own hands, TM GOOP

THE GALWAY STEAMERS .- The Steamer "Pacific' made her recent trip from Newfoundland to Galway in five days and 17 hours. This is evidently destined to become the leading line in Atlantic navigation. Letters from St. John, N. F., were brought to Galway in six days, and were on the night of the 7th day in London. This is an interesting fact in the history of Steam Communication.

We call special notice to the advertisement of F. A. Cosgrove will be found below. The variety is ample, the quality of the goods, ex-cellent, and the terms reasonable.

A letter from Rev. J. Bleakney informs us that during the two months he has been absent from home he has travelled 653 miles, held 70 meetings, and baptized 22 converts. His third son is with him preaching the gospel of the blessed God.

Change of Name.

THE public are doubtless aware that I have made an improvement in Stove Varnish, and named it BRUNSWICK BLACK VARNISHthis name has been appropriated to a different article by another party, consequently I have determined to change the name of my preparation, which will henceforth be called—
CHALONER'S STOVE VARNISH.

I truly affirm that my Varnish is superior to any other that I know of at present, having subjected them all to fair competition. This Varnish is put up in bottles containing a half pint, at 1s.; and is applied with a Brush like Paint.

This Varnish is jet black, which will not burn off, though the Polish may be at a red heat. It is cheap, comparatively free from smoke or smell, and all ready to put on, gives a magnificent appearance to Church or Hal, Stove Pipes, Frankins, etc. etc. oros

Look here? good news for you to a W Devote a few moments to the consideration of th TONIC EXTRACT.

A Medicine which possesses extraordinary virtues and has made many cures. THE proprietor has been for years experiment-

ing and endeavouring to discover a medicine, which could be relied upon in the above complaints, and is happy to inform the afflicted that he has at last succeeded beyond his expectations; having never known an instance where the timely administration of the Tonic Extract failed to do good. It is necessary, however, to use this medicine ac-

cording to the printed directions which accompany each bottle.—This may, in some cases, involve self denial on the part of the patient, but is the only course, which will bring about restoration to health. This Medicine is not introduced for the sole purpose of making money, it is a useful article and ought to be generally known. The Proprietor pur poses to supply the afflicted poor without charge,

upon the recommendation of a respectable party, on condition that the patients, will from time to time make a statement of the effects of the medicinte The Tonic Extract will make the flesh firm, give a good appetite, and bring about a regular state of the system . when this happens, of course the spirits will be enlivened, and there will be a pros-

post of health and I ong life. The Proprietor takes the liberty of using the name of the Rev. J. Blakey, Baptist Missionary, for a reference in support of the good qualities of this Medicine. The Tonic Extract is put up in four ounce phials
