

DOMESTIC.

Meeting of the Legislature.

The Legislative Session opens to-day at Headquarters. We shall have a reporter as usual at Fredericton during the session, to furnish us with the latest intelligence respecting the doings of the representatives of the people. Among the several important matters claiming the attention of the Legislature, Education stands No. 1. Let not this grave subject become the football of party strife. A small province like this cannot afford to divide upon this vital question. Let there be unity in council, unity in purpose, unity in action, in promulgating and carrying out such a system, as will meet the necessities and condition of the whole people. Every man, woman, and child is interested in this matter, and all interests, commercial, agricultural, moral and religious, are interwoven with the action of the Legislature on this question. Hence the necessity of wisdom to direct, and energy to prosecute.

We regret to learn that Donald A. Cameron, Esq., long favorably known in this city as proprietor of the *Observer*, departed this life on Saturday last. For several years he printed the *Christian Visitor*; during a portion of this time we had almost daily intercourse with him, and it affords us much pleasure to be able to bear our testimony to his kindly and inoffensive disposition, and to his manifest honesty and integrity of purpose. His illness was protracted, and his suffering towards the last, as we are informed, severe.

May the bereaved widow and her sorrowing family be divinely sustained.

YESTERDAY about 5 o'clock, P. M., a fire broke out in the drying room connected with the Penitentiary. The Engines were on the ground as early as possible, and the damage done, as we are informed, was not very serious.

BETWEEN six and seven o'clock on Sunday morning, a house belonging to a man named Neil Sweeney, at the Straight Shore, was consumed by fire: part of its furniture was saved. The house was insured in the office of Mr. Allison for \$200.—*Leader*.

BOSTON STEAMERS.—We learn from the *Saint Croix Herald* that the arrangement has been renewed to run the Admiral in connexion with the Adelaide during the ensuing season. The latter boat or the Eastern City will commence running on the 15th of March, and the Admiral about the 1st of April. Mr. McLaren, one of the Directors of the Eastern Company, has been appointed Captain of the Admiral, in place of Captain Small, and Mr. Livermore has been chosen Clerk.—*New Brunswick*.

ACCIDENT TO A MAIL COACH.—The *Sackville Borderer* of last Friday says:—The mail coach from St. John was capsized on Thursday night, last week, in Petitcodiac. It was thrown about nine feet, and struck on the top. Several of the passengers, (Capt. Isaac Atkinson amongst the number) were slightly hurt. The driver, Kilpatrick, was injured severely, but is on the recovery.

WE learn from the *Westmorland Times* that St. John's Church at Moncton was opened for Divine worship last Sunday, large congregations assembling at the morning and afternoon services. The Rev. W. Donald of this City preached very acceptably on each occasion.

QUICK PASSAGE.—The brigantine Margaret, Nicholas Henneberry master, arrived in Antigua on the 12th January, in 13 days from St. John, N. B., and arrived the following day at Gundalope—all well.

COPPER MINES.—We learn from the *Cartleton Sentinel* that a vein of copper has been struck on the lands belonging to the New Brunswick Mining Company, situated in that County, which promises to be very productive. The vein or lode is of a very rich character, and has been struck in two places. In one it is four feet wide, but the other is not yet sufficiently opened to define the width.

The following is extracted from the *Melbourne Argus*:—

"A nugget of solid gold, two feet four inches in length, by ten inches at its widest point, and weighing 1,743 ounces 13 dwts., or 146 lbs. has been brought down from King-gower, by four men, named Robert and James Ambrose and Samuel and Charles Napier. The treasure was discovered in thirteen feet sinking, embedded in sand. It is perfectly free from extraneous matter."

We are informed that the Napiers mentioned above belong to New Brunswick. That they had been in the "diggins" some time and came down to Melbourne intending to come home, but the ship in which they were to sail was not ready to leave; so they concluded to try their luck once more in the "diggins," and accordingly went back to the place they had left, and in the very pit where they had been digging before they obtained this huge nugget valued between six and seven thousand pounds. This was worth going back for.

NOVA SCOTIA LEGISLATURE.

This body met for the dispatch of business on Thursday last. The opening speech refers to his Excellency's removal, and states that he shall leave as soon as the Earl of Mulgrave arrives to take his place.

The speech makes honorable mention of Col. Inglis, a Nova Scotian, who has a nobly distinguished himself in the mighty contest in the East.

The Railway works are progressing favourably and the intercolonial line has been under the consideration of the Government during the recess, and papers having reference to it will be submitted to the Legislature.

A measure subjecting the members of the Legislative Council to the action of the elective principle will be submitted.

His Excellency in concluding his speech, thus speaks of his feelings towards Nova Scotia:—

"Wherever my future destiny may be cast," says his Excellency, "I shall always regard with the deepest interest everything that may affect the progress, in material wealth and social happiness, of the inhabitants of Nova Scotia, amongst whom I have spent so many happy years."

PROVINCIAL SECRETARY'S OFFICE, Halifax, 22d January, 1858.—His Excellency the Lieutenant-Governor, by the advice of the Executive Council, has been pleased to make the appointments undermentioned:—Dr. Jonathan Woodbury to be one of the Coroners of the County of Annapolis.

Nichol Nicholson, Esquire, to be the Collector of Colonial Duties for the Port of Wallace, in the County of Cumberland, in the place of James B. Davison, Esquire.

UNITED STATES.

THE FILLIBUSTERS INDICTED.—New Orleans, Feb. 4.—The Grand Jury found a true bill against Walker, Anderson and others, for violation of the Neutrality laws, and they were held to appear on the 4th Monday in April.

RUMORED NEGRO INSURRECTION.—Chicago Feb. 5.—A rumor comes to us from Charlotville, Arkansas, that a fearful insurrection had occurred near that place, said to have been incited by two white men. The negroes are represented to have attacked two settlements, killed twenty three persons, burning houses and killing cattle. The insurrection was finally subdued by the organization of a force of volunteers, who killed seven and captured eighteen of the insurrectionists. The truth of the rumor is doubtful.

Hon. Charles W. Upham, a native of St. John, N. B., Senator elect for Salem, has been elected President of the Massachusetts Senate.

EUROPEAN.

Arrival of the Arabia.

One Week later from Europe.

By Telegraph from New York.

The steamship Arabia, which sailed from Liverpool on the 23d January, arrived at New York on Sunday evening.

She brings later news from India, but nothing important.

Lord Elgin had allowed the Chinese ten days to consider his ultimatum.

The Duke of Devonshire is dead.

One hundred and fifty persons were injured in the attempt to assassinate the Emperor Napoleon.

The French Minister had requested the English Government to expect certain suspicious political refugees.

The principal topic in the English papers is the approaching nuptials of the Princess Royal.

MARKETS.

The London Money Market was growing easier. The stock of Bullion had largely increased. Consols 95½ to 95.

Sugar 6d to 1s. better.

Coffee advanced 2s to 3s.

Fair Congo Tea 1s 3d.

Breadstuffs continue dull without quotable changes.

Provisions generally firmer.

THE ATTEMPT TO KILL THE FRENCH EMPEROR.

The following, relative to the attempt to assassinate the French Emperor, was telegraphed to the London *Herald* of the 16th:—

As the Imperial carriage drove up to the main entrance of the theatre, and as one of the footmen was in the act of opening the door, three percussion shells filled with fulminating powder, were flung from the top of one of the houses opposite among the cortege, and exploded on reaching the ground. The first fell just in front of the carriage, its fragments killing one horse, wounding the footmen, and piercing the hat of the Emperor about an inch above his head. The other shells burst among the crowd and escort. An eye witness says there was an interval of a few seconds between the second and third explosions.

The Emperor had alighted; he then carried the Empress in his arms to the steps of the Opera House, but scarcely had he done so, when a third shell burst under the carriage, and shattered it to pieces. The houses opposite were immediately taken possession of by the police, and in one several Italians were arrested, one having a loaded revolver. The shells must have been large, containing a great quantity of gunpowder, as the report broke all the windows on the opposite side of the street. It is supposed the attempt was believed to be certain of success, for the death of the Emperor was a current report at the time of the outrage. At the opening of the Bourse the cry of "Vive l'Empereur" was universal. 200 persons have been taken, and arrests continue; even some of the police have been arrested.

The indignation against the assassins is increased, because they must have known that the Empress and other ladies would be present. The explosions were heard at the distance of a quarter of a mile, and placed the immediate spot in darkness for a short time. The Emperor's hat was torn in two parts. The collar of the cloak he wore, and that part which covered his shoulder, were rent open.

The following authentic statements and reports are from the correspondence and Paris journals received from Paris on the morning of the 16th inst:—

The gas pipes running along the facade of the Opera House were blown off by the explosion of the projectiles, and for a time the street was in darkness.

The street in which the Opera house is situated would have soon been filled by the crowd, but a squadron of mounted Paris Guards soon galloped up from their barracks. None excepting the residents were allowed to enter the street.

At the barracks on the Quay d'Orsay the cavalry, armed to the teeth, mounted their horses, and remained ready for any emergency.

Four projectiles were flung under the carriage, but one did not explode. It was intended that twenty should be used.

About thirty persons are said to have been arrested, mostly Italians.

The London *Times*, in an editorial on the attempted assassination, says:—

Liberty may well be struck with despair at the crimes committed in her name, and look with horror on those who would propagate her worship by infernal machines and explosive projectiles.

The other papers express similar sentiments.

We call the attention of the afflicted to Dr. LEARY'S Advertisement in another column of our paper. A monthly report of cures performed; the names of persons; and places of residence.

Therapeutic Cures of Dyspepsia and kindred diseases performed by the Oxygentated Bitters, after all other remedies have failed, should be sufficient to induce any one suffering from these complaints, to give the medicine a trial.

A scald or burn can be easily cured by the use of Perry Davis' Vegetable Pain Killer. It is equally efficacious in curing headache, pain in the stomach or bowels, dysentery, diarrhoea and cholera.

CHARLOTTE COUNTY QUARTERLY MEETING.

The next Meeting will be held with the Upper Mills Church, commencing on Friday, the 12th inst., at two o'clock, p. m.

St. George, Feb. 3, 1858.

[From the Alton (Ill.) Courier.]

AN EXCELLENT REMEDY.—Whoever is troubled with Hoarseness, Cough, or Soreness of the Throat, can apply an excellent and safe remedy by using "Brown's Bronchial Troches," which may be had of all our principal druggists. We have tried the article and can safely recommend them in all cases of throat irritation. To Singers and Public Speakers they must be of great value. Sold by all Druggists, Weeks & Potter General Agents.

BALSAM OF LIVERWORT AND HOREHOUND.—There is no preparation in the market more popular, or that does more good, than Mrs. Gardner's *Balm of Liverwort and Horehound*. For full twenty years it has maintained a reputation for the cure of Colds, Croup, and all kinds of Pulmonary Complaints. A friend of ours is eloquent in its praise in relation to its efficacy in curing Croup, and in relieving the best articles he has ever seen used. The same may be said of its virtues in other complaints touching the throat and chest. Persons who are poor and sick will be supplied with a bottle gratis. Weeks & Potter, 154 Washington-street, Boston, General Agents. Sold by all the druggists.

HAMPTON, K. C., Jan. 20th, 1858.

MR. T. A. TEMPLEMAN, Sir:—Being severely afflicted with Salt Rheumatism, I was induced to try your Ointment, and to my great joy one box made a perfect cure. I can cheerfully recommend it to the afflicted.

Yours, &c., ANN ROBERTS.

The above medicines can be obtained of W. F. Brown, Indianapolis (A. N. Peters) 100 Union Street, Boston, or of the Subscriber.

THOMAS TEMPLEMAN, Long Reach.

Hundreds of our citizens complain of debility and languor of the system, derangement of the liver or stomach, want of appetite, &c.; they are frequently the result of too close application of the mind, and a too sedentary life. We would say to all so afflicted, do as we have done—get a bottle of our Dr. Hood's German Bitters, prepared by Dr. Jackson and our word is, you will find it a most valuable medicine, knowing from experience that it is much superior to the generality of patent medicines. We would say to our readers, purchase none unless prepared by Dr. C. M. Jackson, Philadelphia.

As for the Oxygentated Bitters, take nothing else, and see that the signature of C. M. Jackson, is on the wrapper of each bottle.

For sale by druggists and storekeepers in every town and village in the United States, Canada, West Indies and South America, at the principal office, 418 Arch Street, Philadelphia, Pa.

John Caloner, St. John N. B., Agent for New Brunswick.

Antidote for Poison.

THE PAIN KILLER.—Rev. T. Allen, writing from Tarrytown, Jan. 24th, 1858, says: "Within the past four years I have used and disposed of about five hundred bottles, but am now out. Please send me a fresh supply through the Mission Room at once, as my word is, you will find it a most valuable medicine, knowing from experience that it is much superior to the generality of patent medicines. We would say to our readers, purchase none unless prepared by Dr. C. M. Jackson, Philadelphia."

Efficiency of the Oxygentated Bitters.

From J. C. DURN, Esq., late City Treasurer.

GENTLEMEN:—I have been for some years occasionally troubled with severe attacks of indigestion; have consulted many physicians, tried Allopathy and Homoeopathy, and can truly say I have received more speedy and permanent relief from the use of the Oxygentated Bitters, procured from your office, than from all other remedies. I have had been benefited by it in all who suffer from a similar ailment.

Yours truly, JAMES C. DURN.

Numerous certificates have been received from all kinds of the highest respectability. Every dyspeptic will be amply repaid for a trial of this medicine.

Sold by W. F. Brown, Washington Street, Boston, Proprietors. Sold by their agents everywhere.

DIED.

On Saturday, the 6th inst., after a short but severe illness, aged 59 years, DONALD A. CAMERON, Esq., of this City, upwards of 29 years, Proprietor and Publisher of the *Observer*, newspaper. Highly respected by all his brethren and contemporaries of the press, beloved and esteemed during life by his immediate connections and a large circle of acquaintances. Mr. Cameron leaves behind him the enviable reputation of an honest, honorable, and upright man.

At Indianapolis, on Monday morning, 8th inst., of congestion of the Lungs, Henry Peters Fisher, fifth son of William and Charlotte A. M. Allingham, aged eleven months and one day. Funeral on Wednesday, at 3 o'clock, p. m., when friends and acquaintances are invited to attend.

On the 13th January, at the residence of his uncle, Bedford-street, North, Abercrombie Square, Liverpool, in the 34th year of his age, deeply regretted by his family and friends, Capt. Wm. Waddington, second son of the late Edward C. Waddington, Merchant, of this city.

OBITUARY.

Died on the 6th of January, in the Parish of Wicklow, at the residence of Mr. Peter Harris, his son-in-law, Mr. Samuel N. Burke, in the 64th year of his age, leaving a wife, six sons and nine daughters to mourn their loss. Brother Burke experienced religion about 44 years ago, and joined the Baptist Church somewhere in the neighbourhood of French Lake. There also he buried his first wife, and was left with fifteen motherless children. Sometime afterwards he moved up the river St. John, and as his lot was to be poor like many of the children of God; he had to move from place to place to try to make a living for himself and his dear children. About four years ago Brother B. joined the Baptist Church in this place, and was a consistent member to the time of his death. He suffered much during his illness, which lasted a number of months. He was perfectly resigned to the will of the Lord, and died trusting in the merits of his dear Redeemer.

The writer preached on the occasion to a large and solemn congregation. His remarks were founded upon Psalm xvii. 15th verse.

Forty-eight from one!

St. John, N. B., March, 1858.

Messrs. Fellows & Co. Gentls: I cannot forbear letting you know of the effects produced by your wonderful Worm Lozenges. I gave my son, 13 years old, two doses, and in a short time he passed six large worms. My daughter, 10 years old, took four Lozenges, and in a few hours she passed sixteen; subsequently I gave her more, and the worms continued to come from her until Forty-eight Large Worms were passed. Strange to say, they acted in a similar way on two grown persons in my house.

I am of opinion that very many children die annually from the effects of worms, who are treated for other diseases.
