rne First Lesson in Gambling.

Wherever there are great collections of people, there are always bad and foolish people among them. It was so at Bridgeport, where the State Fair was held last week Outside the grounds, behind or inside tents and booths, were many who gambled, and led others to do so. Now it is a very simple thing to gamble, so simple, and often it appears so fair, that many a boy is led to take the first step before he knows it.

There was behind one of the oyster stands a'circle of men and boys; on the ground sat a poor degraded, dissipated man, poorly clad and looking sick and weak. He held in his hand several rings, and before lim was a board with large nails driven in it, which stood upright. A clear faced, bright eyed, handsome little fellow, well behaved, stepped up to him. He was just such a boy as is prompt at day school; and such a boy as will always be a favourite with his companions for his good heart, his kindness and usefulness. He showed all this in his face as he stepped up to the man and said, " What's tha: for ?"

"Give me a cent and you may pitch one of these rings, and if it catches over a nail I'll give you six cents."

That seemed fair enough, so the boy hand ed him a cent and took a ring. He stepped back to a stake, and tossed the ring, and it caught on one of the nails.

"Will you take six rings to pitch again, or six cents?"

" Six cents," was the answer, and two three cent pieces was put into his hand, and he stepped off well satisfied with what he had done, and probably not having an idea that he had done wrong.

A gentleman standing near had watched him, and now, before he had time to look about, and rejoin his companions, laid his hand on his shoulder.

" My lad, that is your first lesson in gam. bling.v

"Gambling, sir ?"

44 You saked your penny and won six, did you not ?"

"Yes I did."

"You did not earn them, and they were not given you; you won them just as gamblers win money. You have taken the first step in the path; that man has gone through it, and you can see the end. Now I advise you to go and give him his six cents back and ask him for your penny, and then stand square with the world, and an honest boy gain."

He hung his head down, but raised it quickly, and his bright, open look, as he said " I'll do it," will not be forgotten. He ran back, and soon emerged from the ring lookhis comrades

The boy was honest,-honest to himself honest in his impulse, honest in his inmost soul. He did not stop to think, that gentleman does not know me, and I shall make a better use of the money than that poor gambling vagabond ; so I'll just say nothing about it, but keep what I have fairly won. No, he was true to his honest soul ; and he did right as if he were used to doing right, and as if it were no hardship. That is true honor and honesty; not to think whether it is necessary or not, whether anybody will know it; but to be honorable for honor's sake, truthful and honest for the love of it. Who does not love such a boy ? Who does not love transparent characters anywhere, everywhere, in girls or boys, in o'd or young ?-Homestead.

#### Spare Moments.

All great or successful men learned to take good care of spare moments, the litt'e frag-ments of time so easily wasted, and which thoughtless persons imagine are of small value. Literary men have written some of their most valuable works in these spare moments, and scholars have used them to good purposes in making large acquisitions. Mrs. Knight has some pertinent remarks on this point :
