

Embry Mail, guarantees religious freedom, and
has a general amnesty to all save the murder
of the British, if submission be made before
Jan. 1. The Bank of England has reduced its
rate of discount 4 per cent. Cotton has slightly
advanced. Breadstuffs were dull. Consols close
on the 5th inst. at 98 1/4 and 98 1/2.

STILL LATER.
The Asia arrived at New York on Monday
evening last. Her news is unimportant, mar-
tins unchanged.

PETRIOTIC SORROW.—This fearful disease
has been very destructive in Nova Scotia of late.
Some instances nearly whole families have
been carried off by it. We are informed the
mplaint is also prevalent in some parts of the
province. A correspondent of the Acadia Re-
corder recommends a simple cure, which he says,
is attended with the most beneficial effects.
It is simply to apply a magnetic electric battery
the part aforesaid. He says that in some parts
Nova Scotia the magnetic electricity is look-
ing up as a sovereign remedy for the disease,
or to three shocks effecting a perfect cure.
The advantages which this mode of treatment
affords in the case of young children are very
great.

A new variety of coal exceedingly oily has
been discovered at Parkburg Virginia. It is
very gaseous and fit only for making gas or oil-
flag of the Union.

The news from California tells of floods and
land murders. Report says that Walker
his filibusters have effected a landing in
central America, and that others are going out
to join him.
The Texan papers state that all the people be-
lieving to a train going to Albuquerque were
assaulted by the Comanche Indians.

A new rail way has been opened between
New York and New York, which will bring these
two cities nearer to each other. On Thurs-
day a special excursion train ran from New York
to New York, seven hours and seven minutes,
making time!

TWO MEN DROWNED AT PICTOU.—The Col-
umbian Standard says that on Friday evening last,
that a young man a resident of Pictou, and
his brother, Henry Wier, and John Joseph Ken-
nell, his father-in-law, were drowned by
sinking through the ice on the harbor, near
own's Point.

MELANCHOLY ACCIDENT.—A young woman,
named Mary Jane Lewis, belonging to Fort
Pictou, was returning on Wednesday last
from the lake (which had risen so high as to
over the dykes and inundate the main road near
the island), swept the path off and capsize
holding the poor girl fast beneath it, who
was drowned before any efficient aid reached
her. Sackville Burdett.

An inquest on the body of Jackson the
blackman, whose case was mentioned in our
issue, resulted in a verdict of Manslaughter,
and the men to whom and Radley, who stand
charged with having committed the fatal deed
were tried at Kingston, K. Co., in July next.
The examination before the Coroners jury pro-
duced that RUM RUM, instigated Keenan and
advised to stain their garments in their brother's
blood.

LOSS BY FIRE.—On Saturday the 18th inst., at
about A. M., the valuable Mill; at St. George
owned by Messrs Babbington and Lord, were com-
busted by fire. Insurance \$3,500, but the loss
is considerable beyond this. An adjacent old
mill called the copeland mill was also destroy-
ed, together with a quantity of boards and deals
lying to other parties.

THE HIGHER CHRISTIAN LIFE.
A volume of religious experience illustrated by
pictures from history and from life.
REV. W. E. BOARDMAN.
The book will take its place amongst the stand-
ard productions of the times, and can hardly fail
meeting a wide circulation.
The Pastor will find it a great help to him in
work. It will be read. Converts will read.
Older Christians will read it. All will be
ed by it. And many, it may be hoped, will
lead into a deeper knowledge of Jesus, and
greater usefulness by it.

GREAT REDUCTION
FOR THE NEXT THIRTY DAYS.

SIN.—We cannot find language to express
our grateful acknowledgements to our friends
and the public generally for the handsome man-
ner in which they rewarded our persevering ex-
ertions in the business we professed and carried
out; apparently to their entire satisfaction. We
hardly recollect for the last two months past that
any one called and looked over our assortment
of MEN and BOYS' CLOTHING who did not get
satisfied with our goods beyond his expectations. Any
of our Winter Stock now remaining on hand, we
can well afford to sell at a much less price, as we
do not believe it prudent or profitable to have
any goods remain over that would be out of
season now in a short time; therefore it is better to
sell our £2 15s Top Coat for £2; our 20s coat
for 17s 6d; and Boys' coats worth 17s 6d now
at 12s 6d and so on; and in this way we make
sure to have not one winter coat for man or
boy remain on our hands. That being our con-
clusion, we have come to the determination to
clear off the balance of our winter stock during
the next thirty days, no matter what may be the
sacrifice.

Office Public Works, Fredericton.
22 Dec. 1858.

True greatness is evinced by universal popular-
ity.

Spurgeon is the greatest preacher of modern
times.

In the pulpit he charms all who hear him.

Nor are his sermons less effective when printed.

The first series met with a remarkable sale.

And every other series has been purchased
with equal eagerness.

Never have any sermons been circulated so
widely.

Never have any human works produced a
greater effect.

There are the four volumes of his sermons.

There is the "Saint and his Saviour."

And "SPURGEON'S GEMS" the cream of all his
thoughts.

The circulation of the above is calculated by
hundreds of thousands.

The greatest works of fiction have never ex-
ceeded this.

"Spurgeon" has become a household word.

His works should be in every New Brun-
swick home.

His works should be circulated throughout
the land.

Their influence should be felt everywhere.

Change of Name.
THE public are doubtless aware that I have
made an improvement in Stove Varnish, and
named it BRUNSWICK BLACK VARNISH—
this name has been appropriated to a different
article by another party, consequently I have de-
termined to change the name of my preparation,
which will henceforth be called—
CHALONER'S STOVE VARNISH.

I truly affirm that my Varnish is superior to
any other that I know of at present, having sub-
jected them all to fair competition. This Varnish
is put up in bottles containing a half pint,
at 1s.; and is applied with a Brush like Paint.

This Varnish is jet black, which will not burn
off, though the Polish may be at a red heat. It is
cheap, comparatively free from smoke or smell,
and all ready to put on, gives a mag-nificent ap-
pearance to Church or Hall Stove Pipes, Frank-
lins, etc., etc.

Invented, prepared and Sold by
