MF The Scarlet fever is prevalent in the Ci'y, and we regret to say that several children have died recently of this fatal disease.

The bodies of two children were found on Sunday in the old burial ground near Indian mou'd, and from appearances those who discove. ed them suspected foul play and appriz ed the authorities. The bodies were conveyed to the dead house, and an Inquest was held on Monday; but the medical evidence satisfied the Jury that one was still born, and the other must have died from natural causes soon after its birth.-Freeman.
