For croup, Coughs, Colds, Grip, Irritation of
the Throat, A thump, and is particularly calculated to relieve
the most distressing Coughs and Croup, and to induce
the expectoration.

It is particularly recommended to the attention of Public
Physicians, and all persons who use the voice freely.
Its efficacy for clearing the Voice is truly astonishing.
It is also recommended to the attention of Physicians,
of furnishing the public with superior medicines that the in-
crease of a Gentle and safe Remedy, which each
would be glad to see in the hands of the people.

Good Medicines
should be made good. A medicine which possesses some
virtue are held at such exorbitant prices that they do not
come within reach of the poor; while they, above all, are
too most likely to do harm than good. The only safe
remedy is one that is cheap, and that is good for all
persons.

And the poor suffer daily. It is true they do, for
the want of a medicine which they are unable to purchase.
The proper sort of the Vegetable Cough Candy has already
been found by inventing a new and improved
method of extracting the medicinal properties of
twenty-seven different ingredients, extracted from the Vegeta-
ble Kingdom, and combining them in such a manner as to
be in the reach of all. It is well known that many ingredients
when used singly are inefficacious, but when combined
with others are a truly safe and powerful remedy.

Macer's Vegetable Cough Candy

Tough ingredients are composed with several additional kind, the combined power of which is sufficient to heal, in part, every malady to which the human system is liable (which does not require the aid of a surgeon). If attended to in season.

The numerous ingredients composing this Ointment have been recommended by many physicians of eminence, some of whom are among the best celebrated in the United States. The disadvantages of this medicine gives it an advantage over others, while it is unnecessary to use any other ointment or liniment.

Solely Sold by Druggists generally throughout the City and County. General Agents,
