A BEAR CAPTURED.—A large bear having killed a sheep belonging to a farmer on the Douglas Valley Road on Sunday night, and having buried it in the woods, the Messrs. Ogdens were induced to set a trap for him near the place of burial; and fortunately the murderer was taken and killed. Our informant says the monster weighed, after being dressed, over 400 lbs. As bears are becoming unusually bold in that region the capture was hailed with delight.

ONE DAY LATER FROM EUROPE.

Arrival of the City of Washington.

NEW YORK, Aug. 30. Steamer city of Washington, from Liverpool via Queenstown 18th, arrived at this port at an early hour this morning

The following in the latest telegraphic intelligence by the City of Washington:

LONDON, Thursday, Aug. 18. The *Daily News* City Article of Wednesday evening says: the funds opened with a little dullness in consequence of the fall yesterday on the Paris Bourse. The final quotations of consols were only about 1-6 below those of yesterday. The chief support is derived from the scarcity of stock. The stock Exchange was languid.

With the completion of the fortnightly settlement, members have left London and others are following their example. The demand for money to-day was slack, and the best bills were speadily taken at 2½. A sum of £4000 in gold was sent into the Bank to day. The £118,000 by the Southampton, from Melbourne, was purchased for transmission abroad. The remittances of silver for Calcutta and China, by the steamer of the 5th ult., will probably amount to between £500,000 and £600,000.

The Produce market was very dull, and as regards articles, prices show a drooping tendency. The corn market to-day was steady at full prices.

The *Times'* City article of last evening says: A reaction of ⅛ in consols at the opening was not recovered during the day. There was scarcely any general business, but the government broker took £100,000 stock on account of the Savings Bank. At the Bank to-day applications have been very few. There has been no new feature in the Railway market to-day. In some cases prices were slighly lower.

Napoleon's Amnesty.

The *Times* says: For the first time the Emperor feels himself so strong in the affections of his army, and so sure in the loyalty of his people that he can afford to be magnanimous. The early use to which he puts the power he has acquired by his successful campaign, is to publish among all nations a full and entire amnesty to all Frenchmen.

The *Daily News* says that orders are to be transmitted to Cayenne, and to many other unknown depositories of political victims, to let as many as survive go free.

M. Louis Blanc has addressed a letter to the *Daily News*, in which he admits that Louis Napoleon could scarcely do more for the political exiles than he has done; but asks: Why should the exiles return to France? He then replies: Better stay in the land of unfettered thought and freedom—better live where an exile is to remain a man.

The Channel Fleet—Mr. Cobden.

Yesterday a signal was made to the Channel Squadron at Spithead to prepare for sea by Saturday.

A soiree to Mr. Cobden was given yesterday evening by the Electors of Rochedale. The report in the *Times* fills a whole page.

France.

PARIS, Thursday morning. The *Moniteur* this morning publishes the following warnings given to newspapers in France, and the Colonies are to be considered as issued The Minister of the Interior, in connection with his colleague, the Minister for Foreign Affairs, has ordered the necessary arrangements to be made to insure the execution of the full and entire amnesty granted by the Emperor.

Their Imperial Majesties left yesterday for St. Cloud, where they will sojourn till September, when they will proceed to Biarritz.

Nine hundred and twenty-two soldiers sentenced for various offences, have either been pardoned or the terms of their imprisonment commuted.

PARIS, Wednesday, Aug. 17. The young Grand Duke of Tuscany arrived yesterday at Paris. He has been received by the Emperor, who invited him to remain to wait what events may transpire. The Emperor gave him a very gracious reception.

TURIN, Aug. 17. The King arrived here this evening, and was welcomed with great cheers by a large crowd assembled at the station. The National Guard and Piedmontese troops were drawn up in line during the passage of His Majesty.

Gen. Guillon has sent in his resignation, which has been accepted.

A collision has taken place on the Railway line to Genoa, and six persons killed.

Turkey

MARSEILLES, Aug. 17. Advices from Constantinople to the 10th. The Sultan has returned, and gave Mr. Trouvenal on Thursday a most gracious reception.

An official journal states that amicable relations had been established between Baron de Prokesh and Mr. Trouvenal.

The same journal states that Sir. E. Bulwer gave an explanation respecting the British squadron having been at Alexandria—that it was in honour of the contemplated visit of the Sultan.

ARRIVAL OF THE "ARGO" OFF CAPE RACE.

ST. JOHNS, N. F., Sept. 2.

The *Argo*, from Southampton, 24th, ult., was boarded off Cape Race, at 1 p. m. to day.

The advices by the *Europa* reached Liverpool 20th, by the *Anglo Saxon* 23rd.

Cotton Market generally unchanged 95⅝. Weather been fine for crops and harvest looked favorable.

Flour and Wheat declining tendency. Corn firm; Beef heavy; Pork and Bacon, small demand. Rice steady; Sugar dull; other articles unchanged.

Joseph Crandall and united with the Baptist Church at Salisbury, in the year 1824 and received from there his dismission and joined the first Baptist Church of Coverdale where he was chosen as Deacon and remained until the time of his departure. He leaves a widow seven sons and two daughters besides a numerous circle of friends and relatives to mourn their loss.

PALMER'S
Celebrated Artificial Leg.

This world renowned limb has been in use in Europe and America for upwards of twelve years, and every succeeding year serves only to increase its popularity. The "Great Prize Medal" was awarded to Dr. Palmer in London over thirty-five competitors from all parts of Europe, and in this country wherever exhibited, it has invariably received the highest award. Upwards of 'Four Thousand' of the Palmer Artificial Legs are now in use, and are represented by all degrees and professions,—Farmers, Mechanics, Lawyers, Sailors, Ladies and Children, all use this "unequalled limb" with wonderful ease and naturalness. The Palmer Leg is adapted 'to every form of amputation,' from the shortest to the longest. The patient is enabled to walk immediately upon the application of the leg. The limb is an exact copy of its fellow, and the most critical fail to distinguish it from nature. The limbs are very durable, yet so light as to be worn with great comfort. Palmer & Co. have supplied upwards of fifty individuals with two legs each, all of whom walk with surprising naturalness. The recently invented 'artificial arm' is regarded as a complete triumph in the art. The public are cautioned against the circulars and advertisements of charletans and pretenders, who have recently entered the field, and are endeavoring to deceive by copying the invention and the indirect use of the Palmer reputation.

Persons requiring legs or arms, should apply to us, as the "Palmer Leg" is the only one recommended by surgeons and physicians. Pamphlets containing full information concerning the invention sent free to patients, surgeons and physicians, on application to PALMER & CO., No. 19 Green Street, Boston. apl 21

AYER'S PILLS.

Let all our readers careully peruse the following:—

16 Boylston Street, Boston, 20th Aug., 1853.

Dr. J. C. Ayer, Lowell, Mass. My Dear Sir:—I have made a careful analysis of your Pill, with the formula for their peperation. They contain the active principles of well known drugs, isolated from inert matter, which plan is chemically speaking, one of great impoitance to their usefulness. It not only give the concentrated virtues of medicines, but insures great activity certanit and uniformity of effect.

Your use of "Ricinie," the active principle of the eastor bean, is new to me, and your course of procuring it by chemical analysis from the bean is certainly valuable.

Your Pills contain no metellic or mineral substance, but the virues of vegetable remedies in skilfull combination.

Respectfully, A. A. HAYES.

This may certify that Dr. A. A. Hayes is a practical chemist of this city, whose reputation and eminence in his profession are well known to us, and we have implicate confidence in his opinion.

Sufferers from Scorofula and Scorfulous affections, clean up! Why wear your pimples, Blotches, Ulcers, Sores, ? Why have the life twisted out of you by Dyspepsia, Rheumatism, and Gout? Why suffer Syphilitic and Mercural diseases to rot the bones in our body, or the flesh off your bones? why let our sluggish blood drag and scatter its distempers through your veins? Ayer's Compound Extract of Sarsaparilla cures those complaints and clense them out of the system. Use it faithfully and you bring to society a heathier, cleanlier, and far more acceptable member.—[Democrat, Baltimore, Md]
