says :- A Telegram from Madrid to effect that Spanish Government had resolved to declare war against Morocco caused funds to open with heaviness although it was afterwards shown to be e roneous ; simple fact being that a Madrid paper had advised Government to go to war .- The recovery at close was only partial-there has been increased demand for money, and few transactions below 2 1-2. Market for Railway Stocks sympathised with funds and slightly declined. Grand Trunk of Causda, however, advanced one per cent. and the Atlantic, and St. Lawrence and Great Western of Canada.

Neapolitan army on the Roman frontier, was increasing, and it was ru-mored that Neapolitan troops had landed at Ancona. Considerable excitement prevailed at Piedmont on account of conditions of the Zurich Trenty. The King of Sardiaia in receiving a deputation from the Municipality of Genoa. reiterated his intention to defend the cause of Italian independence to the utmost of his power. He expressed his hope that the wishes of Italy would be granted.

Paris correspondent of London Herald says the object of Sardiman Minister of Foreign Affairs in visiting Paris, is to obtain the Emperor's consent pending the Congress to occupation of Central Italy by Piedmontese troops, and appointment of Prince Carigoavo as Regent of the Duchies and Legations.

### THE ZURICH CONFERENCE.

Nothing has transpired in regard to the Zurich Conference and peace treaties since the departure of the America. A summary of treaty between France and Austria. as telegraphed from Zurich, was published exclusively in the English journals, but was subsequently reproduced in some Paris and Vienna journals, without any guaranty for its authenticity.

At the latest dates, Count Colloredo still survived, but had not been restored to consciousness. There were no hopes of his recovery.

#### GREAT BRITAIN.

Arrangements have been completed by the Cunard Company for all their steamers running between Liverpool and Boston to make Queenstown a pert of call out and home. The arrangement goes into effect with the Canada, leaving Liverpool Saturday, Nov. 5.

The London Times, in publishing Colamodore Tatnall's dispatch relative to the operations at the mouth of the Peiho, editorially eulogizes it, and says if any defense were needed for the acts of the British Minister and Admiral in those distant regions, it would be found in the dispatch which it has had the pleasure of printing. Sir George Gray is understood to have been reappointed Governor of the Cape of Good Hope.

There is nothing new in regard to the Great Eastern. The authorities of Bristol were making efforts to get her to come to that port after her

projected trip to the Mediterranean. The new Earl of Jersey, who succeeded to the earldom on the death of his tather on the 3d of October, died on the 24th.

Sir J. Dean Paul and Strahan, the London bankers, were released from puson after having undergone four years of penal servitude.

The first battalion of the military train for China was under orders to depart overland.

The strike of the London builders continued, and there were indications that it was beginning to tell seriously against the men who refused to resume work. The dividend was diminishing. and a resolution was adopted to appeal to the public for support. Recent returns show excessive mortality among the wives and families of operatives in the building trade, and there was reason to fear that scores of innocent persons and young children were perishing from sheer want.

The weather in England had been unusually severe for the season. Heavy frosts prevailed, and a considerable quantity of snow had fallen.

Parliament is further prorogued to December 15.

Advices from the British squadron in China represent the crews as suffering cruelly from optha.mia.

#### SPAIN.

The difficulty between Spain and Morocco had reached a crisis, the Spanish Government having formally announced its intention to commerce hostilities. We have the following tele-grams from Madrid on the subject :

MADRID Oct. 22. The government has de-clared to the Cortez, in the sitting of to-day, that it was going to begin war with Moroceo. The declaration was received with great enthusiasm. All political parties in the Senste and Congress have offered their support to the Ministry. The newspapers express the same patriotic feeling. Gen. O'Donnell announced that the government had ordered its representative at Tangiers to take his departure.

The London Shipping Gazette of the 24th says : We have reason to believe there will be no war between Spain and Morocco, the Moors having made the required concessions. Accounts from various parts of Spain, how-

ever, continue to speak of great preparations for war with Morocco. Troops are collecting in

every part for conveyance to Africa. A Paris dispatch says : O Donnell has actually
