

JOY.

There's joy when the rosy morning floods
The purple east with light;
When the zephyr sweeps from a thousand buds
The pearls of dew from night.

THE SEWING MACHINE.
Among the numerous inventions of the present day, the first in importance to house-hold life is the Sewing Machine.

Band and gusset and seam,
Seam and gusset and band;
The task is over, the shirts are made,
And never a weary hand.

But will it make button-holes? enquires one.
No. "Sew on buttons?" echoes another—No;
"Will it darn socks?" asks a third, in a tone of anxiety which fully reveals the import of the question.

From an excellent article in Harper's Magazine for April, on "Little Children," we take the following:
"How to secure a child's heart in its proper trust, affection and joy, is, of course, a great question, and we do not aim to have any new theory of moral and religious training.

strong a hold upon us by its little tendrils as its stout branches, and that many a strong will is fastened to the Rock of Ages by the loving faith of little children, those tendrils of the human vine."
"PLEASE GOD, TAKE GOOD CARE OF OUR BABY."
Dear little Fanny; brown-eyed, rosy-cheeked!

But the Reaper whose name is Death, snote the little loved one, and they buried his body in the damp, cold ground. Poor Fanny was a bitter mourner, till her mother told her again and again that Baby had gone to God, which was enough for her trusting heart to know.
A few days afterwards a lady came to see her mother—a very unwise lady too, I think, or she would never have tortured a little heart with such questions, and she asked Fanny if she wasn't sorry that her little brother was lying under the ground.

SUNBEAMS.
Merry little sunbeams,
Flitting here and there,
Joyous little sunbeams,
Dancing every where,
Come they with the morning light,
And chase away the gloom of night.

GOSSIP.
The bane of social life; always indicating a small mind; having affinity with petty concerns; often a malicious mind, delighting in traducing others; irreverence for truth, risking the violation of it for the pleasure of telling stories, which may be false, often are known to be so; great lack of honor, a sneaking disposition, saying behind the back of another what would not be said before his face; presumptive want of power, to converse on nobler subjects, at least lack of interest in them.

Do RIGHT, THOUGH YOU HAVE ENEMIES.—The Nashville Gazette says: "A man that has a soul worth sixpence, must have enemies. It is utterly impossible for the best man to please the whole world, and the sooner this is understood and a position taken in view of the fact, the better. Do right, though you have enemies. You can not escape them by doing wrong; and it is little gain to barter away your honour and integrity, and divest yourself of moral courage to gain what? Nothing. Better abide by the truth—frown down all opposition and rejoice in the feeling which must inspire a free and independent man."

life and love. But ah! how much greater is the number of those who still groan in bondage, and wallow in wretchedness. Are there no more disconsolate wives? No more hapless children, whom by God's grace, we can make to sing for joy? Many indeed have been lately prevented from taking the last step on the way from Moderate Drinking to Drunkenness—hair-breadth escapes from the gulph of ruin. But do we not see many around us, ready to take the same last and perhaps fatal step? Did they ever need the intervention of a kind recovering hand more than at this very moment? Can we not reach and rescue them? O, for more love for the souls of our fellow travellers to eternity!

But I have also one word to say to those who have hitherto stood aloof from this great reform, because so many persons who signed the pledge, have not been true to their engagement. Did you ever know so numerous an association, did any kind, formed for useful purposes, in which were to be found, no false and hypocritical professors. Did you ever know one so large as the Temperance Association, which had fewer such? But supposing hundreds have broken their pledge—the cause still claims at your hands a full and impartial investigation. But we do cherish a hope, that the subject even without further investigation does possess in your esteem sufficient magnitude and sufficient merit, to command your respect, your approbation, your most hearty concurrence.

But God had a great many babies there before. Aren't you afraid He'll forget to take good care of Charley?
'No,' said the child, though with a trembling hesitancy—'I think if He had a great many babies there before, He'll know all the gooder how to take care of durs.'
But after the lady went away, Fanny thought a great deal about it, and would come to her mother often during the day, and say,—
'Mamma, you're sure, ain't you, that God doesn't forget to see our Baby now?'
And that night, when she was lying in her crib as usual, her mother heard her say—
'Please God take good care of our Baby, and kiss him good-night for me!'

Change of Name.
THE public are doubtless aware that I have made an improvement in Stove Varnish, and named it BRUNSWICK BLACK VARNISH—this name has been appropriated to a different article by another party, consequently I have determined to change the name of my preparation, which will henceforth be called—
CHALONER'S STOVE VARNISH.
I truly affirm that my Varnish is superior to any other that I know of at present, having subjected them all to fair competition. This Varnish is put up in bottles containing a half pint, 1s.; and is applied with a Brush like Paint. This Varnish is jet black, which will not burn off, though the Polish may be at a red heat. It is cheap, comparatively free from smoke or smell, and all ready to put on, gives a magnificent appearance to Church or Hall Stoves, Pipes, Franklins, etc. etc.

THE GREAT GRAND...
RADWAY'S REGULATING PILLS.
MR. RADWAY & CO. have recently discovered a method for extracting from roots, cereals, plants and gums, a nutritious extract of such wonderful nourishing power—which they have combined with Radway's Regulating Pills—that six of the pills will supply the blood with the same amount of nutrition as one ounce of ordinary bread; so that, while the system is undergoing a thorough physicking, and regulating process, it daily becomes strengthened.
Persons afflicted with LIVER COMPLAINT, DYSPEPSIA, Heart Diseases, Fullness of Blood, and all Females who are subject to Irregularities, Hysteria, &c., are particularly recommended to use these Pills. They are pleasant to take, elegantly coated with gum—free from taste, and will not grip, sicken or weaken the system, or cause the bowels costive. Mothers nursing, should likewise take one or two of these Pills once or twice per week. They will not only keep your system healthy and regular, but will protect your infants against Cramp and Pains in the stomach, and insure not only a healthy child, but will invest every child, thus suckled, with a sweet disposition.
Radway's Regulating Pills Regulate each and every organ of the system, and correct all derangements of the Liver, Bowels, Stomach, Heart and Kidneys.
They Cure Costiveness, Heart-burn, Biliousness, Dropsy, Palpitation of the Heart, Indigestion, Dyspepsia, Constipation, Headache, Congestion, &c., &c., &c.
They are entirely vegetable and harmless; an infant at the breast can take them with safety, and persons who are subject to Fits of Apoplexy, Epilepsy, Heart Diseases, &c., should always keep a box on hand.
Price 25 Cents. Ask for Radway's Regulators, or Regulating Pills.
