REALTHIE CONFORMATION AND

J'HE ADMIRAL'S LADY.—We are sorry to earn that the lady of Amiral Stewart, is seriously in Fredericton. H. M. Steamer Styx was patched to Windsor on Monday afternoon for he Physician of the Flag Ship lying in Halifax arbour, to be in attendance upon her ladyship.

EUROPEAN NEWS.

ZURICH, Aug. 31.—Private conferences con-inue to take place between the Plenipotenti-ries for the last three days. The representa-ives of France and Austria have daily conferred ether. Yesterday there was a meeting of French and Sardinian representatives.

FRANCE. The Emperor remained in retirement in the renees. It was asserted that he would shortproceed to Cherbourg, and also pay a second

A speech of Count Morny at the opening of the Council General of the Department of Prey de Dome, attracted considerable attention. It was regarded as an annunciation of the senti-ments of the Emperor. The Count endeavored ments of the Emperor. The Count endeavored to show that the apprehensions exhibiting in England of a French invasion were quite groundless, and that, on the Contrary, France was very desirous of comenting the alliance between the two countries, and waging only manufacturing and commercial war. He denounced that portion of the English press and those members of Parliament who questioned the intentions of the

French Government.

The Constitutionel, in a leading article, says the Emperor will fulfil loyally his Villafranca agreement for the restoration of the former reigning Princes of the Duchies, but if he should ot succeed in re-uniting the Princes and the cople in mutual accord, it is not his intention lorce either one or the other.

It is not the wish of His Majesty to follow he errors of the ancient Austrian policy, whose rmed intervention in the affairs of the penintalian people advice which we believe wise and prudent, which if they do not follow, it will grieve us, but which we could not press upon them by force. To us Italy owes her independence. We shall not take away from her again

what we have given her yesterday.

The Constitutionnel of Tuesday, contains an article repudiating in the strongest terms, the fatricidal policy of war with England. It says the Emperor has no thought to avenge the past but to repair the future. For the sake of consolidating the English alliance, he has, on every occasion, combated the hereditary prejudices of the French people.

The situation of affairs in Italy has undergone no change. A deputation of the National As-sembly of Modena has gone to Paris on a special

mission to Napoleon.

Elections throughout the Romagna has taken place with the greatest tranquility and order.

The official Piedmontese Gazette gives a denial to the reports of political dissention among the members of the Sardinian Cabinet. Count Lynaty, Mayor of Parma, issued a roclamation on his return from Paris. Napoleon,

addressing him, used the following words: "Tell the populations that have sent you to me that my army shall never do violence to their wishes; and I will not permit any other foreign force to commit violence against you." The Count adds: "These words make you srbiters

of your destinies."

Garibaldi had resolved to maintain in the army of Central Italy the same spirit of order and discipline that distinguished the Chasseurs of the Alps. In an order of the day he says: "I will cause to be shot any one who calls himself a Mazzinian, a Republican, a Socialist, or even a Geribaldian. I will have none with me but soldiers and Italians!"

GREAT BRITAIN. A Cabinet Council was unexpectedly summoned in London on the 29th. Various speculations were affort as to the cause. Generally supposed to have reference to some new phase in the Ital-

ian question. THE GREAT EASTERN. -The directors of the Company owning the Great Esstern nave de-clined Mr. Lever's amended offer to charter her, clined Mr. Lever's amended offer to charter her, and their original programme is to be carried out. The ship has been closed to the public, and was expected to leave the Thames in a day or two. The receipts from visitors during the few days she was exhibited, exceeded \$4000. Few or no policies had been taken out on the ship at Lloyds, the underwriters being generally unwilling to transact business until after the completion of the trial trip. There was some anxiety to see the ship safely out of the Thames, but those in charge of her entertained no fears on the subject.

EARTHQUAKE.—An earthquake had taken

EARTHQUAKE. -An earthquake had taken place at Sorcia, by which two hundred persons were killed and a large number inqured. Nine thousand of the population had encamped in the neighborhood of the town. The Pope has de

sparched assistance.
Cholera was spreading all along the shores of the Baltic.

The Nord of Brussels states that an opinion exis a among the best informed persons at l'u-rin that King Victor Emmanuel will accept the principle of the sovereignty of the Italian Duchies when it shall be offered officially. It is not believed that the question of the Duchies not believed that the question of the Duchies will be discussed or regulated at Zurich in its present state. If the restoration of their sovereigns had been accepted by the people, the arrangement of the differences existing between the dukes and their subjects might be submitted to the Conference, inasmuch as in that case the question would not affect international law of Europe; but the moment the violation of treaties is the matter to be considered an European Congress alone is competent. The Nord adds that the idea of a European Congress is making progress, and that M. de Balabine has communicated a note to the Austrian government, in

progress, and that M. de Balabine has communicated a note to the Austrian government, in which the Emperor of Russia insists strongly on the necessity of assembling a Congress.

The Russian government (says a Warsaw letter) has given orders to demoboilise the first three corps d'armee placed under the orders of Prince Gortschakoff.

THREE DAYS LATER! ARRIVAL OF THE PERSIA. [By Telegraph to the News Room.]

The ateamer Persia has arrived. It was announced that the Great Eastern will not sail till Sept. 29th, if her trial trip proves

Political news unimportant.
There was some talk of the advance of the Pontificial troops into the Italian Legations.
The Person was detained by an accident to her

AnAeknowledged Fact .- No remedy has yet been scovered so efficacious in healing cuts, ourns, scalds ounds, etc., as Redding's Russia Salve. 25 cents box, soll everywhere.

Mrs. Winslow's Soothing Syrup can be relied on a safe and effectual remedy. The Great Cure for Dyspepsia.—One of the most terrible evils in the community the wide spread prevalence of Dyspepsia. It is to be found in almost every family in the land, and thousands are suffering from what they beleive to be allments of the head the heart, the cheast, the liver or bowels, which are in reality but symptoms and the results of the presence of Dyspepsia. So many forms does this dire arrangement of animal functions assume, that a thousand different cases might be cited in which the complication or combination of symptoms is entirely different. Probably the most efficient remidical agent known is the Oxygenated Bitters, prepared by Seth W. Fowlie & Co.. Boston. We have seen letters from individuals whose cnaracter and position

AYER'S PILLS.

Lat all our readers careully peruse the following :-16 Boylston Street, Boston, 20th Aug., 1853 Dr. J. C. Ayer, Lowell, Mass. My Dear Sir:—I have made a careful analysis of your Pill, with the formula for their peperation. They contain the active principles of well known drugs, isolated from inert matter, which plan is chemically speaking, one olgreat importance to their usefulness. It not only give the concentrated virtues of medicines, but insures great activity certain and uniformity of effect.

Your use of "Ricials" the activity in the concentrated virtues of the concentration of the concentration

Your use of "Riciaie," the active principle of the easter bean, is new to me, and your course of procuring it by chemical analysis from the bean is certainly valuable.

Your Pills contain no metellic or mineral substance, but the virues of vegetable remedies in skilfull combination.

Respectfully, A. A. HAYES.

The Clip the following from the Providence General Advertiser, Sept. 12, 1857—

At this season of the year when cholera cnolera merbus dysentry and other kindred complaints are sure to prevail, everpbody should be tiberally supplied with Pery Davis' Pain Keller. Persons leaving home, whether ii be for a days excursion or a trip to Europe, should be in a condition to place their hands on it at a moments warning. Many diseases incident to the Summer months, which will prove fatal if not immediately checked, can be promptly cured by one or two doses of the Pain Killer. On more than one occasion have been relieved of insense suffering by the timely use of the above named preparation.

Sold by all druggists, grocers and mecicine dealers throughout the United States ond Canadas.

This world renowned limb has been in use in Europe and America for upwards of twelve years, and every succeeding year serves only to increase its popularity. The "Great Prize Medal" was awarded to Dr. Palmer in London over thirty-five competitors from all parts of Europe, and in this country wherever exhibited, it has invariably received the highest award. Upwards of 'Four Thousand' of the Palmer Artificial Legs are now in use, and are represented by all degrees and professions,—Farmers, Mechanics, Law yers, Sailors, adies and Children, all use this "unequalled limb" with wonderful ease and saturalness. The Palmer Leg is adapted 'to every form of amputation;' from the shortest to the loage-t. The patient is enabled to walk immediately upon the application of the leg. The limb is an exact copy of its follow, and the most critical fail to distinguish it from nature. The limbs are very durable, yet so light as to be worn with great comfort. Palmer & Co. have sopplied upwards of fifty individuals with two legs each, all of whom walk with surorising naturalness. The recently invented 'artificial arm' is regarded as a complete triumph in the art. The public are cautioned against the circulars and advertisements of charletans and petenders, who have recently entered the field, and are endeavoring to deceive by copying the invention and the indirect use of the Palmer Leg" is the only one recommended by surgeons and physicians. Pamphlets containing full information concerning the invention seat free to patients, surgeons and physicians, on application to PALMER & CO., No. 18 Green Street. Boston PALMER'S
