VERY LATEST.

The report of the Austrians having crossed the Ticino on the 26th is incorrect. They received orders to do so but were countermanded and they remained on the east bank. It is asserted that the advanced posts crossed, and that the main army would do so on the 29th.

Austria official journal contains imperial manifesto explaining the necessity of a war with Sardinia, and authoritively denies secret treaty of Russia with France.

Ship Parma, supposed to be Pomora, for Liverpool from New York was wrecked off Wexford, on the 17th. The crew and three passengers, not known, were saved. She had over four hundred on board; the loss of life unknown.

An Austrian manifesto had been issued tantamount to a declaration of war.

PARIS, Saturday.—Austrians crossed the Ticinio and commenced hostilities. This is official.

ADVERTISEMENT.—A report having been put in circulation, tending to the injury of the Proprietors of the "Union Line,"—to the effect, that the Mails were withdrawn from the River route in consequence of an endeavour on the part of the owners of those steamers to extort a much larger sum than formerly, and an exorbitant rate for their conveyance,—I think it but just that the public should be put in possession of the *fact*, that Messrs. Hatheway & Small offered to contract with the Post Master General for the River Mail service the present season, at the same price for which they had conveyed the Mails for the last three seasons, and to perform all the service they had ever before contracted for with the Department; and also offered to serve three other additional Way Offices without extra charge.

PALMER'S
Celebrated Artificial Leg.

This world renowned limb has been in use in Europe and America for upwards of twelve years, and every succeeding year serves only to increase its popularity. The "Great Prize Medal" was awarded to Dr. Palmer in London over thirty-five competitors from all parts of Europe, and in this country wherever exhibited, it has invariably received the highest award. Upwards of "Four Thousand" of the Palmer Artificial Legs are now in use, and are represented by all degrees and professions,—Farmers, Mechanics, Lawyers, Sailors, Ladies and Children, all use this "unequaled limb" with wonderful ease and naturalness. The Palmer Leg is adapted to every form of amputation, from the shortest to the longest. The patient is enabled to walk immediately upon the application of the leg. The limb is an exact copy of its fellow, and the most critical fail to distinguish it from nature. The limbs are very durable, yet so light as to be worn with great comfort. Palmer & Co. have supplied upwards of fifty individuals with two legs each, all of whose walk with surprising naturalness. The recently-invented "artificial arm" is regarded as a complete triumph in the art. The public are cautioned against the circulars and advertisements of charlatans and pretenders, who have recently entered the field, and are endeavoring to deceive by copying the invention and the indirect use of the Palmer reputation.

Persons requiring legs or arms, should apply to us, as the "Palmer Leg" is the only one recommended by surgeons and physicians. Pamphlets containing full information concerning the invention sent free to patients, surgeons and physicians, on application to PALMER & CO., No. 19 Green Street, Boston. apl 21

PARK'S PRICKLY PLASTERS.

They sooth pain; protect the chest; they extract the congulated impurities and soreness from the system, and impart strength, They are divided into sections, and yield to the motion of the body. Being porous, all impure excretions pass off, and they cannot become offensive, hence can be worn four times longer than any other plasters, and are cheaper at 25 cents than others at 10. WHERE THESE PLASTERS ARE, PAIN CANNOT EXIST. Weak persons, public speakers, delicate females, or any affected with side, chest or back pains, should try them. You will then know what they are. They are a new feature in the science of medicine. All Druggists have them. Take no other. Each Plaster bears a Medallion Stamp and our Signature. BARNES & PARK,

Joy to the World.

DEAR SIR:—I feel that it is a duty I owe to suffering humanity that I should give a relation of the great benefits I have derived from the use of Perry Davis's Pain Killer. Last summer I had the misfortune to lose two of my children by that dreadful scourge the cholera, & in all human probability should have fallen a victim to the pestilence myself it a kind Providence had not provided me help in the hour of need. I first became acquainted with the Pain Killer whilst travelling on the river with my husband. A gentleman passenger had some with him which he recommended in the highest terms as a remedy for cholera. I thought no more of it at the time, but the same night I was attacked by the cholera in the worst form. I resorted to various remedies used to arrest its progress, but all in vain I was seized with violent cramps, and my discharges began to assume the same character as did those of my dear children previous to their death. I was looked upon as lost, but all at once thought of the Pain Killer. My husband obtained the bottle from a fellow passenger and administered to me a dose. I experienced almost immediately a cessation of pain. The dose was repeated at intervals of fifteen minutes, four or five times, and the result was my complete recovery. I feel confident that I owe my life to the Pain Killer, and only regret that I had not have known of its extraordinary virtues earlier, I then might have saved the lives of my dear children. Since that time I have used the Pain Killer in my family extensively, and the more I use it the better I like it. As a great famiiy medicine, it has no equal.
