REVIVAL IN AUSTRALIA.

Weekly prayer meetings have been established in Geelong, Australia, and are largely attended. These meetings originated with the society known as "The Sabbath Observance Society" which for four years past has been exerting its beneficial influence in checking Sunday traffic and travel. · A railway between Geelong and Melbourne was completed and trains commenced to run on the Sabbath, but through the efforts of this society they were stopped, in spite of the opposition of a portion of the public press. A course of lectures was then commenced by clergymen of different sects, and at the termination of each lecture a union prayer meeting was held. "The first prayer meeting," says a lady who wrote from Geelong last October, "was a sight so sublime that I know not how to describe it. Between 1,600 and 1,700 persons assembled together of an ordinary week evening for singing and prayer in this distant part of the world, was quite enough to gladden one's heart. The meeting was composed of all classes—high and low, rich and poor. Some of the most abandoned and immoral characters in the town were present, and I thought I never heard anything so profoundly, grandly solemn as was the fine Old Hundreth as it echoed from the multitude of voices through the lofty hall. The second meeting was equally well attended. Already a devout and serious feeling manifests itself in the conduct of many who would some weeks ago have made a mockery of everything savoring of religion."

RELIGIOUS AWARENING AMONG THE NESTO-RIANS.—Letters forwarded by the Secretary of the Turkish Missions' Aid Society, give an account of an awakening among the Nestorians in the city Oroomiah. The work of the Lord appears to make great progress in the whols district of the Nestorian Mountains.—London News of the Churches.

BAPTIST GROWTH.

The Christian Times, in an article entitled " Growth of the Denomination," estimates the annual averageine rease of the Baptists in America and the West India Islands, during the last ten years, at something over twenty-five thousand. cession made to the ordained ministr learning, the Times says: "at the beginning of this centnary, the Baptists had but one institution of learning of a collegiate grade. Rhode Island College was the name it then bore; now Brown University. At present, there are 35 such institutions under Baptist patronage and control, and twelve Theological seminaries. Ten years ago, there were fifteen of the former, and seven of the latter. How hard a battle ministerial education has fought against popular prejudice, is a familiar fact in our history. The better sentiment now prevading is a significant indication of denominational progress."

THE BIBLE FOR THE WORLD .- An exchange estimates that 'it would require only \$100,000, 000. to place a Bible in every home under the sun. But probably one-tenth of the world may be considered as well supplied, so that the sum requisite is reduced to \$90,000,000."

PRAYER MEETINGS IN SCOTLAND .- Over one hundred prayer-meetings are held in Perth, Scotland, every week. The editor of the British Stardard calls for the establishment of an Exeter Hall prayer meeling.

SPURGEON ON SLAVERY.

It seems that Spurgeon has been accused with suppressing his views on Slavery to gain popularity with Southern readers. This false accusation has aroused his English heart to proclaim as with trumpet tongue, his deadly batred to the " peculiar Institution" of the South. Read what he says :-

TO THE EDITORS OF CHRISTIAN WATCHMAN AND REFLECTOR:

I have always considered it to be my duty to deal with those sins which I perceived to be most rampant among my hearers. We miss the mark when we preach of absent individuals. It is very easy to talk about the brutality of the uneducated when addressing my lord and my lady, but I prefer to tell these gentry their own sins, and not to flatter them by comparing them with others .-This rule has brought me at divers times into no little trouble, which I have very cheerfully endured, and have rejoiced therein. But now a new outcry is raised in your land, and I am charged, not with being too severe with Brother Jonathan, but with letting him off too easily. Having no slaveholders in England, I should have been beating the air if I had preached against slavery to my people, for this is the very last crime they are likely to commit. It is far more probable that any slaveholder who should show himself in our neighborhood would get a mark which he would carry to his grave, if it did not carry him there.

I do from my inmost soul detest slavery anywhere and everywhere, and although I commune at the Lord's table with men of all creeds, yet with a slaveholder I have no fellowship of any sort or kind. Whenever one has called upon me I have considered it my duty to express my detestation of his wickedness, and would as soon think of receiving a murderer into my church, or into any sort of friendship, as a manstealer. Nevertheless, as I have preached in London and not in New York, I have very seldom made any allusion to American slavery in my sermons. This accounts for the rumor that I have left out the anti-slavery from my American edition of ser-mons. This is not true in any measure, for, as far as my memory serves me, I cannot remember that the subject was handled at all in any of my printed sermons beyond a passing allusion and I lave never altered a single sentence in a sermon which has been sent out to my American publishers beyond the mere correction which involved words and not sense. However, if any think me capable of such double dealing, I doubt not that they judge me by themselves, and from such persons esteem is not desirable. I do not there-fore regret the loss of it. I have this much to say to all who respect me in America: I did not want to be blaming you constantly, while there

not go unrebuked. I did not know that I had been so fully adopted a citizen of your republic, but finding that you allow me to be one of your-

selves, I will speak out quite severely enough, and perhaps more sharply than will meet with ap-I have not been altogether silent upon the subject, for I have spoken with burning words when the matter has been on hand, but as this has

usually been upon the platform, and not from the pulpit, these utterances have not reached the about 4000 papers it is impossible for the clerk press. I must see that there are some such to remember in what bundle any individual one things in the sermons, if not in England, at least in America. Messrs, Sheldon & Co. are ready to publish anything I may have to say on the matter, and I shall also avail myself of the Watchman and Reflector.

Finally, let me add, John Brown is immortal in the memories of the good in England, and in my heart he lives.

I am yours most truly, C. H. SPURGEON. Clapham, London, Jun., 1860.

NEWS OF THE WEEK.

We learn that the excavated lot on Chipman's Hill, owned by Thomas Parks, Esq., and adjoining the property of Messrs. Daniel, has been purchased for £2000, and the Bank of-British North America will at once have a splendid edifice erected there for its business .- News.

We announce with deep regret the sudden and awful death of Thomas Pickard, Junr., Esq., of Prince William, late representative for this County in the House of Assembly. The facts of the case will be found in the following verdict of the jury empanelled by Judah Hammond, Esq., the Coroner for that district;

"That the deceased, Thomas Pickard, Junr. Esq., was on the 25th inst., crushed to death instantaneously, in consequence of his clothes being caught by a revolving wheel of his mill while he was in the act of oiling a part of the machinery."-Reporter.

NOVA SCOTIA.

The General Assembly of the Province of Nova Scotia, was opened at Halifax, on Thursday last. Stewart Campbell, Esq., was elected Speaker, after which His Excellency the Lieutenant Gover-Commissioner of Indian Reserves was promised, together with the public accounts and estimates. He had authorized the formation of Volunteer Companies throughout the country, in order to increase the means of defence, and he trusts that they will liberally support the movement, and so render the force effective. Three thousand stand of Enfield Rifles, of the best description, have been placed at his disposal by the Home Government, for the purpose of arming these Volunteers. On the return of the members to their House the Attorney General objected to the qualification of the member for Lunenburg (Mr. Mosley) but after a long discussion, which was continued to the following day, it was decided, by a vote of 28 to 27, the qualifications of Mr. Munro, the member for Victoria, and Mr. Lewis Smith, member for the North district of Queens, were then objected to by the Attorney General, and the House then adjourned .- Church Wilness.

PROHIBITION IN COLCHESTER .- The Court of Sessions decided last week to allow no licenses to sell intoxicating drinks for the ensuing year. The vote was a most decisive and significant one .-19 for licenses, and 30 against. The Temperance organizations in that country deserve well, let them now prevent the illicit sale, and they have Prohibition without a Prohibitory Law-an enactment far preferrable to a Prohibitory Law withactment far preferrable to a Prohibitory Law with-out Prohibition, as it would be if passed but not carried into effect.

A WORD TO MOTHERS .- Mrs. Winslow, an old and experienced nurse, has devoted herself for more than thirty years exclusively to the circ of children. She has a Southing Symp for elildren teething, which we celiele a most invaluable preparation, not only for children teething, but in all cases of dysentry or diar-rhea, which so frequently ends in death, if the proper remedy is not administered in time. We speak of what we know, when we say this Soothing Syrup acts like a perfect charm in the above cases. We have witnessed the most satisfactory and pleasing results from the use of it, upon suffering infants and children, in a great variety of caser, for more than two years past. It gives universal satisfaction, is perfectly for the feeblest infant, and pleasant to the taste. It gives universal satisfaction, is perfectly safe sincerely believe the mother who has a child suffering of the above complaints, and neglects to provide this medicine for its relief and cure, is depriving the little sufferer of the remedy of all the world best calculfited to give itres, and restore it to health. One of the humaniterian movements of the times

although little known as such, can hardly be over es timated in its importance upon the well being of our widely scattered communities. The population of the American States is in many sections so sparse, that skillful Physicians are hardly available to them. Vast numbers of our people, are obliged to employ in sickness, such medical relief as the can hear of from each other or indeed any they can get from any quarter. Hence arises the great consumption of Patent Medidines among us, greater by far than in any of the old countries, where skilful physicians are accessible to all classes. Unprincipled men have long availed themselves of this necessity, to palm off their worthless nostrums, until the word has become synonimous with imposition and cheat. One of our leading Chemists in the East, Dr. AYER, is pursuing a course which defeats this iniquity. He brings not only his own but the best skill of our times to bear, for the production of the best remedies which can be made These are supplied to the world, in a convenient form at low prices, and the people will no more buy poor medicines instead of good, at the same cost, than they will bran instead of flour. The inevitable consequence of this is, that the vile compounds that flood our country are discarded for those which honestly accomplish the end in view, -which cure. Do we over estimate its importance, in believing that this prospect of supplanting the by-word medicines, with those of actual worth and virtue, is taught with immense consequence for good, to the masses of our people .- Gaz ette and Chronicle.
