Thousands are daily speaking in the praise of Dr. Enton's INFANTILE CORDIAL, and why? because it never fails to afford instantaneous relief when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains

NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening its sens bilities. For this reason, it commends itself as the only reliable preparation now known for Children Teething, Diarrnoea, Dysentery, Griping in the Bowels, Acidity of the Stomach, Wind, Cold in the Head, and Croup, also, for softening the gums, reducing inflamation, regulating the Bowels, and releiving pain, it has no equal—being an anti-spasmodic it is used with unfailing success in all cases of Conversion or other Firs. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which other remedies for lufantile Complaints are composed, take none but Dr. Eaton's Infantile Cordial, this you can rely upon. HE OXYGENATED BITTERS. OXYGENATED BITTERS. OXYGENATED BITTERS. OXYGENATED BITTERS.

[From President Smith, of the Wesleyan University.]

MIDDLETOWN, CONN., Feb. 28, 1859.

SETH W. FOWLE & CO.—Gentlemen: I first made use of the "Oxygenated bitters" some seven or eight rears since. Having suffered for twenty years from a form of Dyspepsia, which was attended with a nervous headache, on an average of net less than one day in a week, I was induced by the unpretending recommendation of Dr. Green "to try one bottle, and if no benefit was received to discontinue its use."

The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was an almost entire relief from the urual dyspeptic symptoms, and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspepsia as most persons. These Bitters have also been of service to other members of my family.

Very respectfully yours,

AUGUSTUS W. SMITH. From President Smith, of the Wesleyan University.]

Prof. O. J. Wood—Donr Sir—Your Hair Restorative is repidly an ning popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test

tive a perfectest:—
During the year 1854, I was so unfortunate as to be thrown During the year 1858, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrific blow; causing a great deal of iritation, which communitated to the brain and external surface of the head, from the effects of which my har was finally destroyed over the entire rurface of the head. Fr. m the time I first discovered its droppility, however, up to the time of its total disappearance, I employed everything i could possibly think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to belive, produced a very lappy result: two mentis afte the first application, I had as beantful a head of young hair as I ever saw, for I containly owe your my most succee thanks. Rest assured, dear sir, I shall recommend your rewhich I flatter mysel; to say, is not a little.

SCROFULA, OR KING'S EVIL

scrofula, or king's Evil

It a constitutional disease, a corruption of the blood, by which this fluid becomes visited, weak, and poor. Being in the circulation it pervales the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unnealthy focd, impure a r, flith, and flithy kabits, the depressing vices, and, above all, by the venereal infection. A hatever be its origin, it is bereditary in the constitution, descending "from parents to collidere unto the third and fourth generation;" indeed, it seems so be the red of flim who says, "I will visit the iniquities of the fathers upon their children."

"I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and in ternal organs, is termed tabercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only, suffer from scrofulous co.aplaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Mostof the consumption which decimates the human lamily has its origin directly in this scro alous contamination; and many destructive diseases of the liver, kidneys brain, and indeed of all the organs, arise from or are aggravated by the same cause.

one quarter of all our people are scrofulous; their persons are invaded by this jurking infection, and their health is underminded by it. To cleane it from the system we must renovate the blood by an alternative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in AYER'S CUMPOUND EXTRACT OF SAR-

AYER'S CUMPOUND EXTRACT OF SAR-SAPABILLA,
the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatar malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure or not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Lrysipelas, Pimples, Pustules, Blotches, Blanes and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic a.d Mercurial Diseases, Diopsy, Dyspepsia, Debility, and indeed, all Complaints arising from vitiated or impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The Particular purpose and virtue of this Sarsaparilla is to durify and regenerate this vital fluid, with out which sound health is impossible in contaminated constitutions.
