Ly article 2d, the Emperor of the French is to come to an understanding with the Great Powers and the Helvetic Confederation as to the neutralized portions of Savoy, over which the jurisdiction of Sardinia has not been unlimited. By article 3d. a mixed commission is to decide on the question of boundaries. By article 4th, existing contracts for public works in Savoy are protected. By article 5th, permanent officers of the Magistracy and Military are secured. By article 6th natives of Savoy, by giving notice within a year, may change their domicile to Italy and yet retain their landed property in France. My friendship for Switzerland made me look upon it as possible to detach in favor of the Confederation some portions of the territory of Savoy; but, in face of the repulsion shown among you at the idea of seeing a country dismembered which has known how to create for itself through centuries a glorious individuality, and thus give itself a national history, it is natural to declare that I will not constrain the wishes of the populations to the profits of others.
